(57) **CLAIM**

The ornamental design for a timepiece, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a timepiece showing our new design.

The sides of the timepiece not shown form no part of the design and are disclaimed.

The design is characterized in that the timepeice displays two concentric rings, rotatable relative to each other, and in that the area within the inner ring is empty, so that the timepiece is pierced by a large central hole extending entirely therethrough.
