(12) **United States Design Patent**
Cox

(10) **Patent No.:** **US D490,911 S**
(45) **Date of Patent:** **** Jun. 1, 2004**

(54) **PISCINE SURFACE PLATE**

DESCRIPTION

- (75) Inventor: **John T. Cox**, North Haven, CT (US)
- (73) Assignee: **Big Pond Designs LLC**, North Haven, CT (US)
- (**) Term: **14 Years**
- (21) Appl. No.: **29/179,685**
- (22) Filed: **Apr. 14, 2003**
- (51) **LOC (7) Cl.** **25-01**
- (52) **U.S. Cl.** **D25/112**
- (58) **Field of Search** D25/112-113;
D21/484-486, 493; 404/17-20, 29, 34,
41-42; 52/574-575, 604

FIG. 1 is a perspective view of the top, front and right side of the piscine surface plate;
 FIG. 2 is a top plan view of the piscine surface plate;
 FIG. 3 is a front elevation view of the piscine surface plate;
 FIG. 4 is a right side elevation view of the piscine surface plate;
 FIG. 5 is a back elevation view of the piscine surface plate;
 FIG. 6 is a left side elevation view of the piscine surface plate;
 FIG. 7 is a perspective view of the embodiment of FIG. 1, shown as used in inverted repeating pairs to form a surface; and,
 FIG. 8 is a top plan view of the piscine surface plate shown adjacent to a second identical piscine surface plate that is disposed immediately adjacent to the piscine surface plate in a horizontally inverted arrangement.

(57) **CLAIM**

The ornamental design for a “piscine surface plate”, as shown and described.

The broken-lines of FIG. 1 through 8 depict additional features on a substantially planar top surface. These broken line features are depicted for illustrative purposes only, and form no part of the claimed design.

The characteristic feature of the design resides in the left (tail) and right (nose) edges of the design being parallel to each other, and further resides in that when a second piscine plate is placed immediately adjacent to a first piscine plate in a horizontally inverted arrangement, the length of any line segment that extends from the upper edge of the second piscine plate to the lower edge of the first piscine plate in a direction parallel to the left edge and the right edge of the first piscine plate is equal to the length of the left edge of the first piscine plate plus the length of the right edge of the first piscine plate.
