

### (12) United States Design Patent (10) Patent No.: US D490,924 S Jigamian (45) Date of Patent: \*\* Jun. 1, 2004

### (54) **PORTABLE FOCUSED BEAM SEARCHLIGHT**

- (75) Inventor: Gregory Z. Jigamian, Temecula, CA (US)
- (73) Assignee: Xenonics, Inc., Carlsbad, CA (US)
- (\*\*) Term: 14 Years

### DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of the searchlight.

FIG. 2 is a front end elevational view of the first embodiment of the searchlight looking through the face plate at the reflector and xenon light source.

FIG. 3 is a top elevational view of the first embodiment of the searchlight showing the top of the pushbutton control switch.

FIG. 4 is a left side elevational view of the first embodiment

(21) Appl. No.: 29/175,810

(22) Filed: Feb. 11, 2003

### U.S. PATENT DOCUMENTS

D423,129 S	*	4/2000	Nakagawa D26/49
D474,554 S	*	5/2003	Dalton et al D26/49
D474,555 S	*	5/2003	Sieckowski et al D26/49

\* cited by examiner

Primary Examiner—Marcus A. Jackson (74) Attorney, Agent, or Firm—Daniel L. Dawes; Myers Dawes Andras & Sherman LLP of the searchlight showing the left side of the pushbutton control switch.

FIG. 5 is a right side elevational view of the first embodiment of the searchlight showing the right side of the pushbutton control switch.

FIG. 6 is a rear end view of the first embodiment of the searchlight showing the recharging connector, which is indentical in the first and second embodiments.

FIG. 7 is a bottom elevational view of the first embodiment of the searchlight opposite the top viewe of FIG. 3. FIG. 8 is a perspective view of a second embodiment of the searchlight with a filter attached to the front end.

FIG. 9 is a front end elevational view of the second embodiment of the searchlight looking into the filter. FIG. 10 is a top elevational view of the second embodiment of the searchlight showing the top of the pushbutton control switch.

FIG. 11 is a left side elevational view of the second embodiment of searchlight showing the left side of the pushbutton control switch.

FIG. 12 is a right side elevational view of the second embodiment of searchlight showing the right side of the pushbutton control switch; and, FIG. 13 is a bottom elevational view of the second embodiment of searchlight opposite the top viewe of FIG. 10.

(57) CLAIM

We claim the ornamental design for portable focused beam searchlight, as shown and described.
