(57) **CLAIM**

The ornamental design for an embossed panel, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of an embossed panel showing a first embodiment of my new design, the design being particularly suited for imparting an ornamental appearance to a sheet metal face of an overhead door;

FIG. 2 is a front elevation view of an embossed panel showing a second embodiment of my new design, the second embodiment being taller than the first embodiment shown in FIG. 1;

FIG. 3 is a perspective view of the embossed panel of FIG. 1;

FIG. 4 is a cross-sectional view of the embossed panel of FIG. 2 or FIG. 2 taken along line 4—4 as shown in FIGS. 1 and 2; and,

FIG. 5 is a front elevation view of the embossed panel of FIG. 1, the embossed panel being incorporated into a face of a section of a metal sectional overhead door shown in broken lines.

The views of the embossed panel not shown form no part of the claimed design.

The broken lines depicting doors, door sections, and other ornamental and functional elements of such doors and door sections represent environmental elements only and form no part of the claimed design.

The height-to-width ratios of the embossed panel may vary from the ratios of the specific embodiments shown in the Figures without departing from the claimed design.

The perspective view of FIG. 3 and the cross-sectional view of FIG. 4 are representative of perspective views and cross-sections, respectively, of all embodiments of the claimed design.
