(57) **CLAIM**

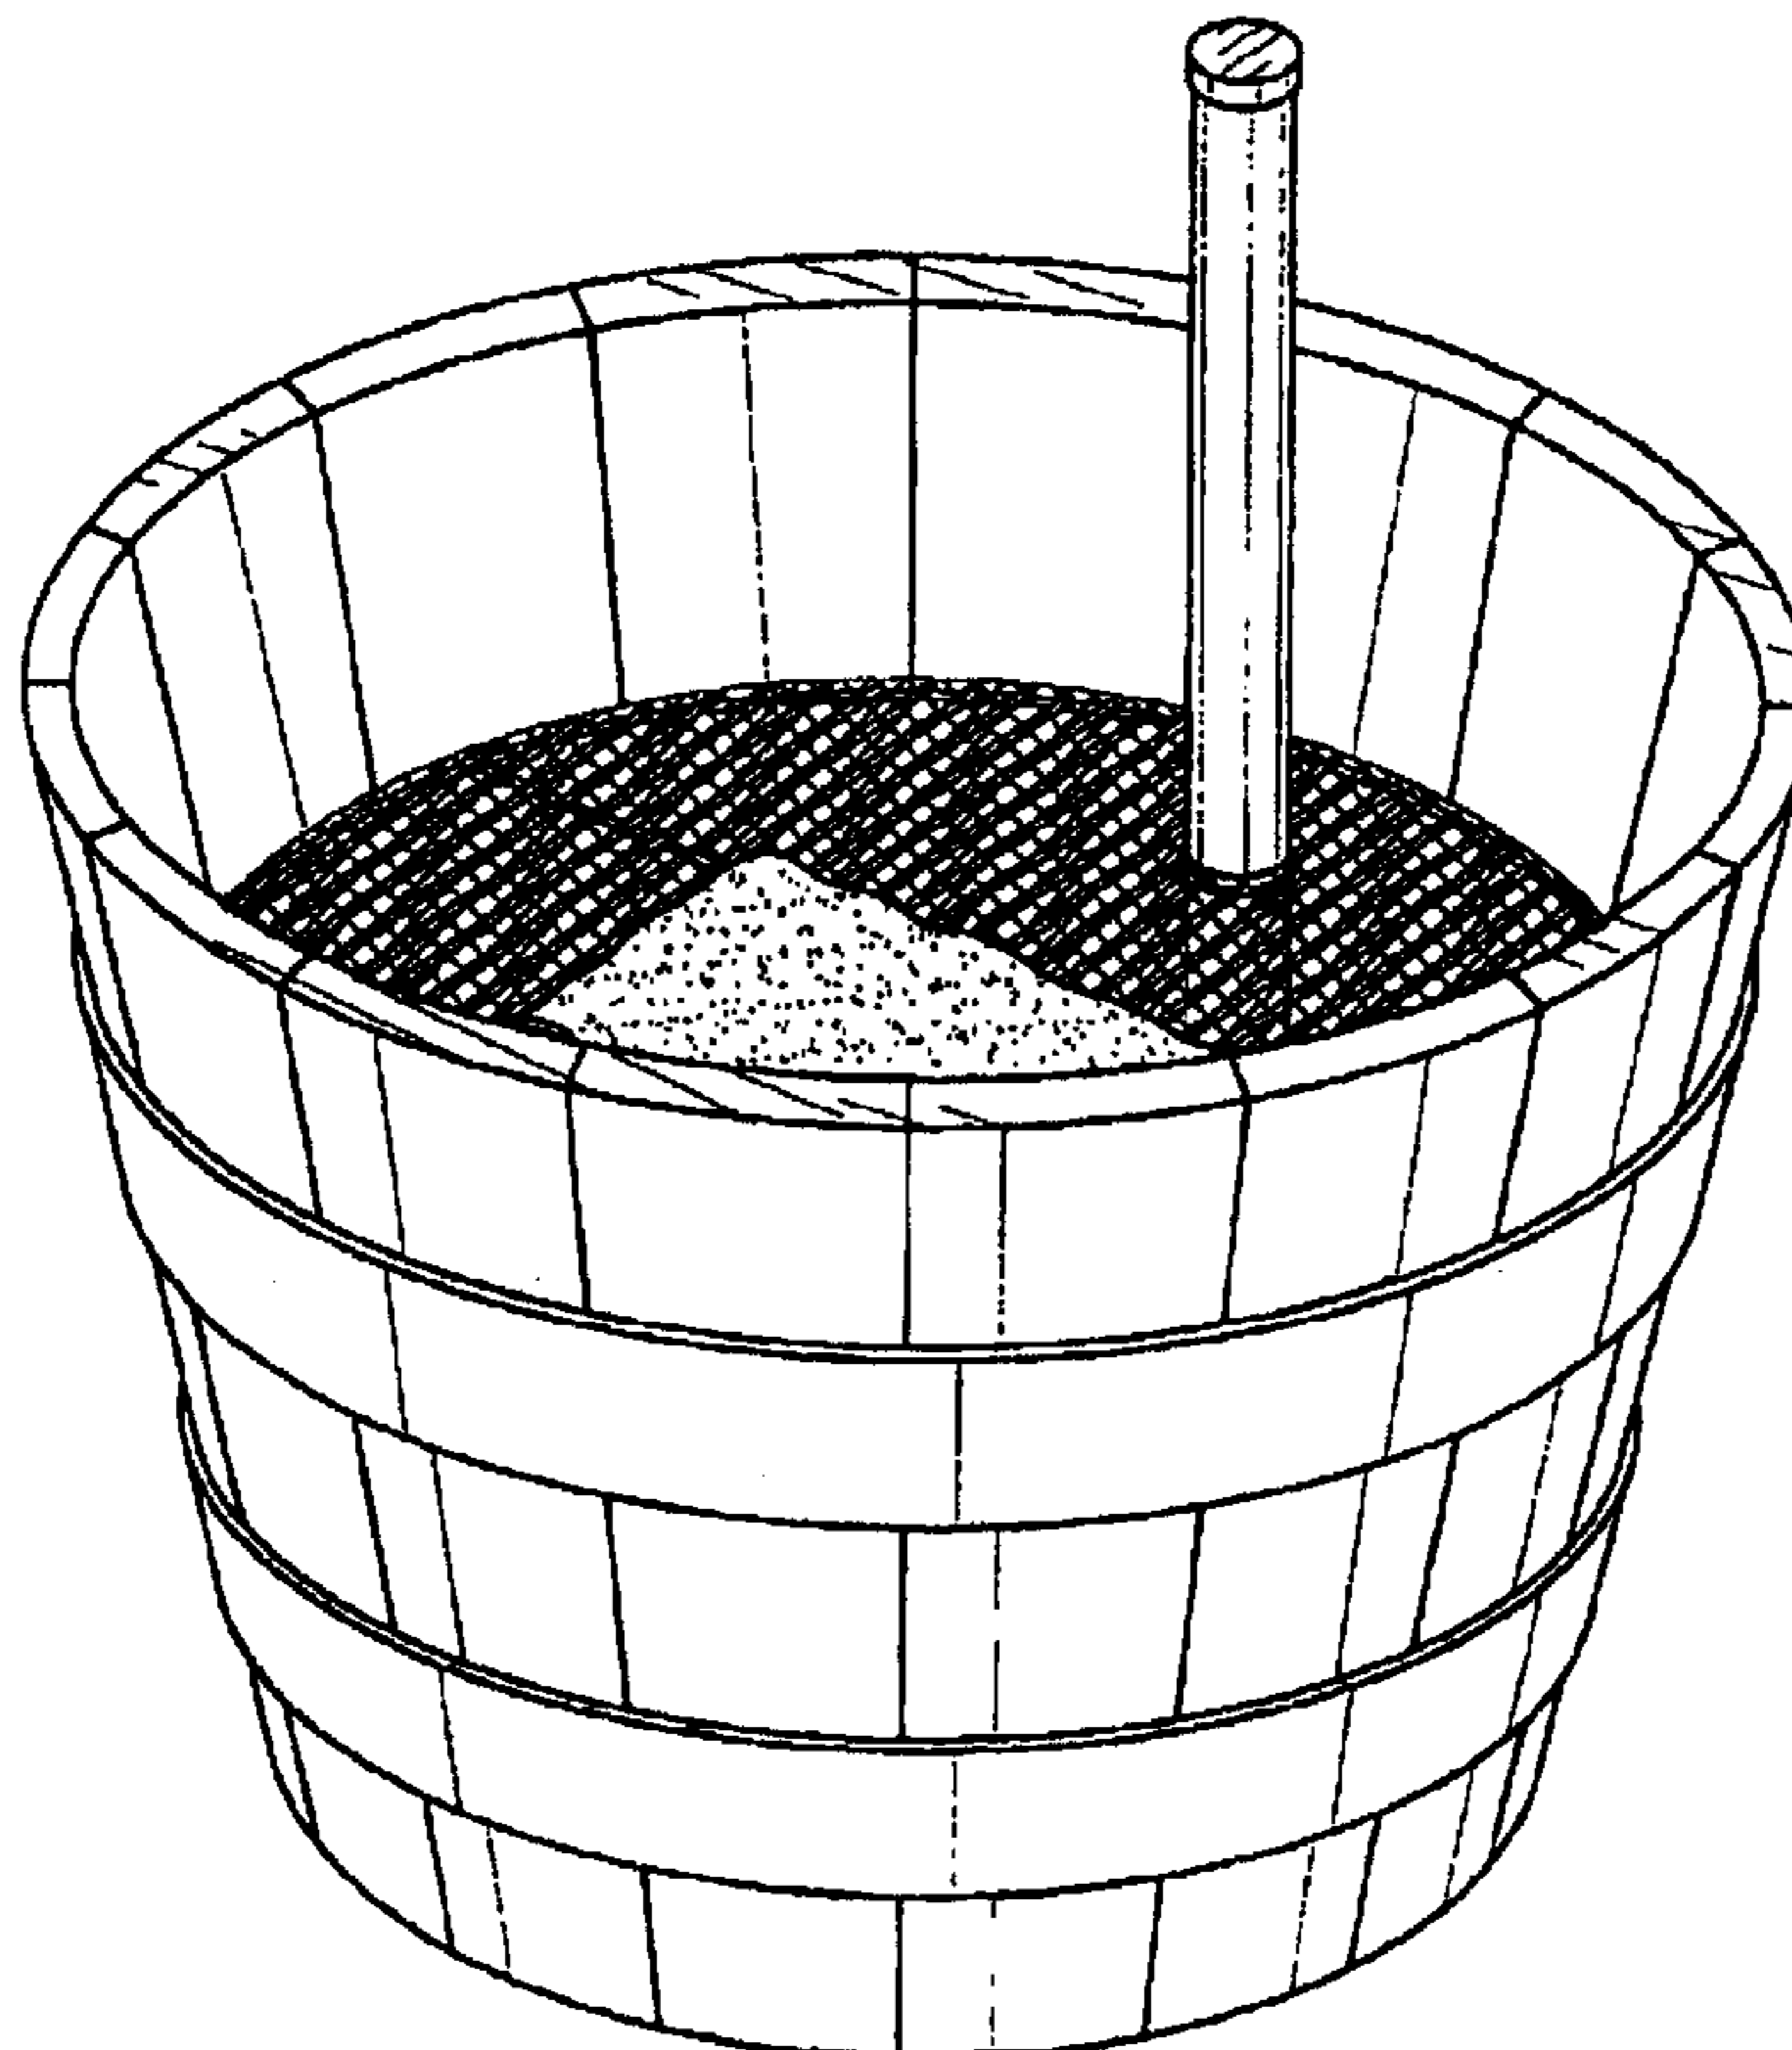

I claim the ornamental design for a self-watering planter, as shown and described.

**DESCRIPTION**

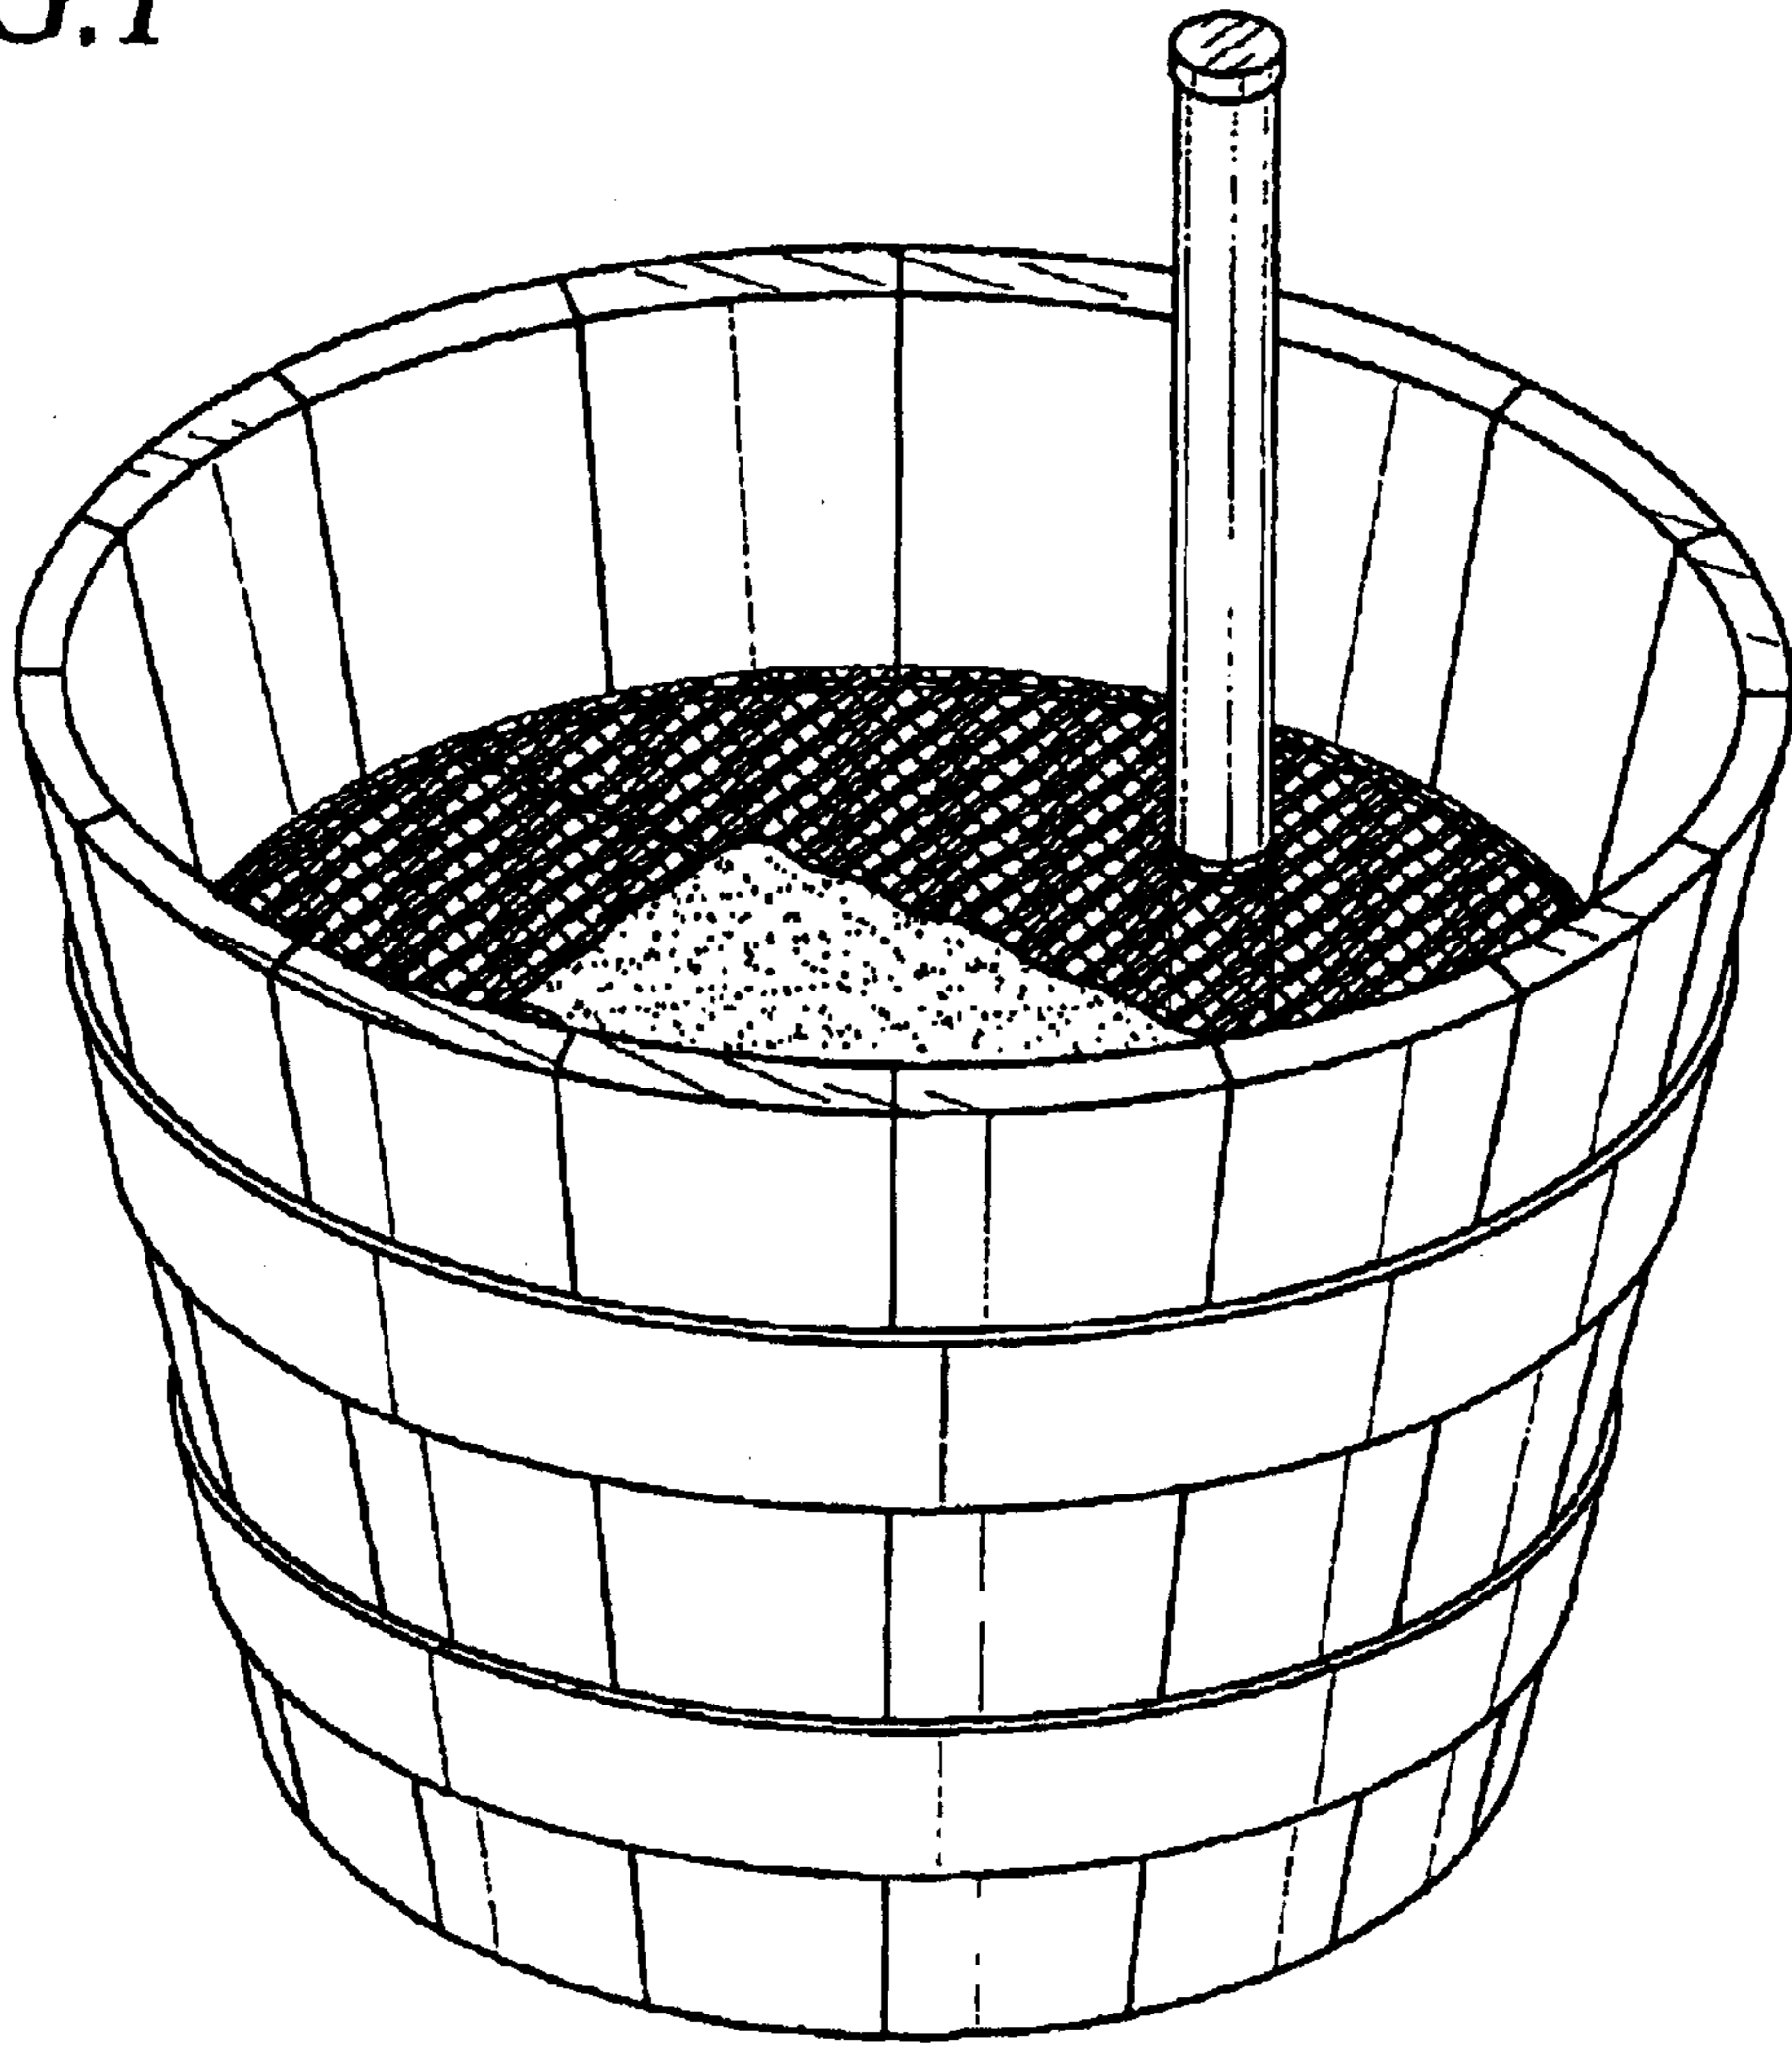

FIG. 1 is a top, front perspective view of a self-watering planter of the present invention that includes a container and self-watering components located within the container; FIG. 2 is a top view of the self-watering planter of FIG. 1; FIG. 3 is a front view of the self-watering planter of FIG. 1 showing the container cut away to reveal the self-watering components; FIG. 4 is a rear view of the self-watering planter of FIG. 1 showing the container cut away to reveal the self-watering components; FIG. 5 is a cross-sectional view of the self-watering planter of FIG. 1 as taken along line 5—5 of FIG. 4; and, FIG. 6 is a left side view of the self-watering planter of FIG. 1 showing the container cut away to reveal the self-watering components, the right side view being a mirror image of the left side view.

The broken lines in each of FIGS. 3, 4 and 6 indicate environmental structure with which a self-watering planter of the present invention may be used and form no part of the claimed design.
