(57) **CLAIM**

The ornamental Design for a pivoting electrical connector, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view illustrating respective axial sections of the connector in axially aligned relationship, the bottom plan view being identical;

FIG. 2 is a fragmentary top plan view of the axial sections of the connector disposed in an incline relationship;

FIG. 3 is a side elevational view of the respective axial sections of the connector in aligned relationship the opposite side being identical;

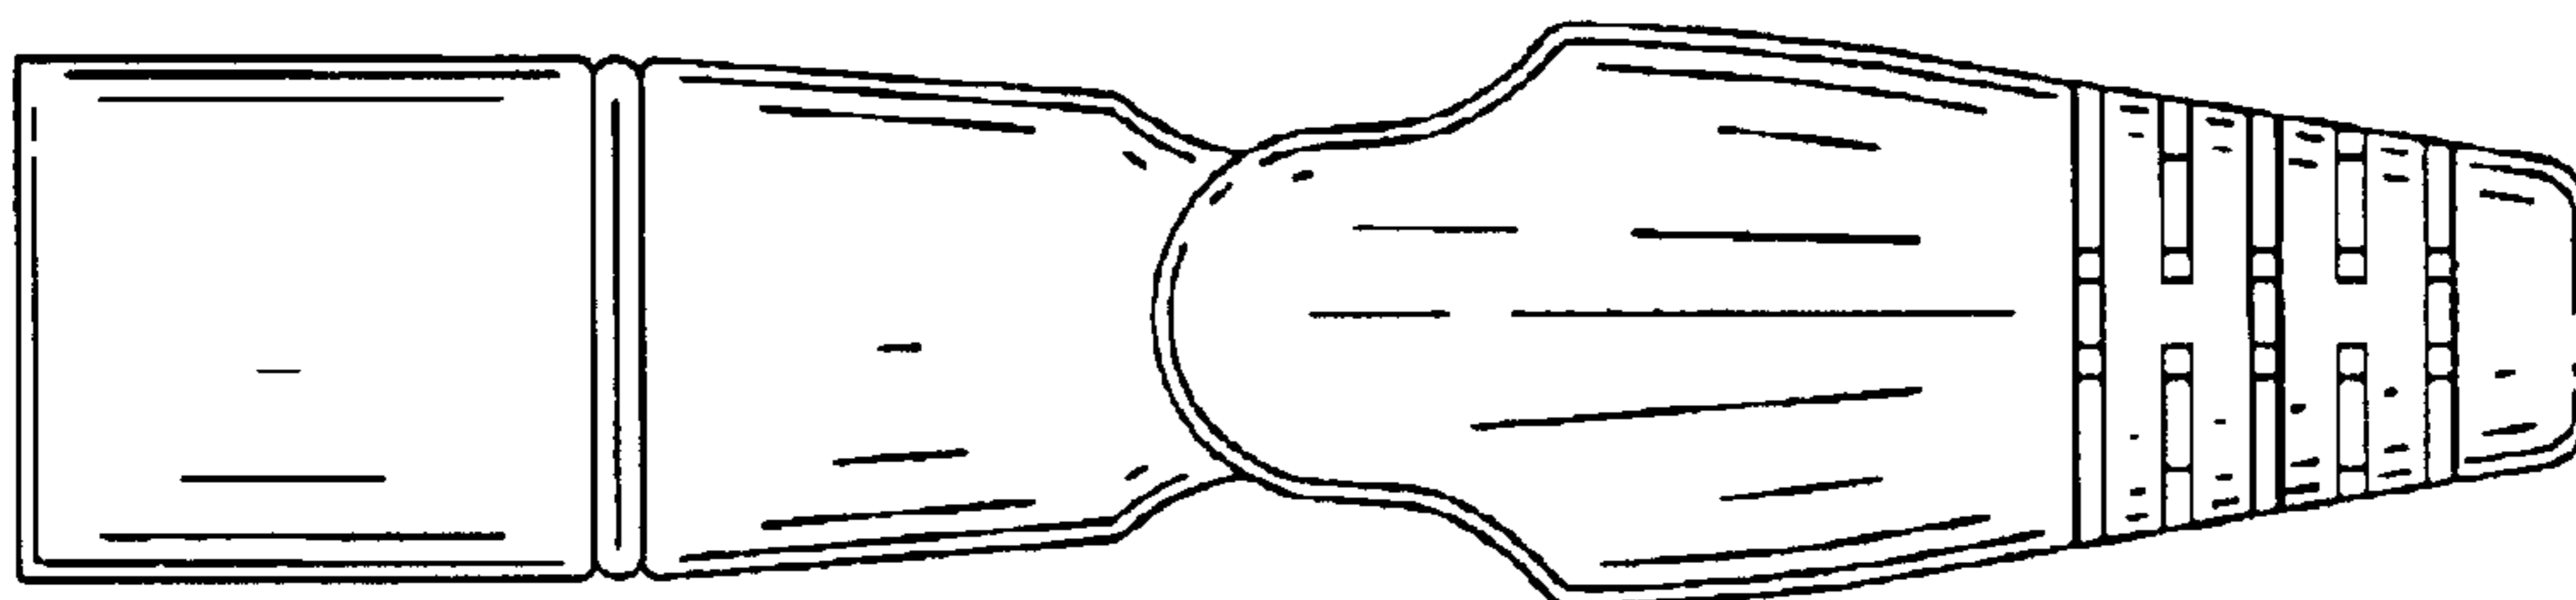

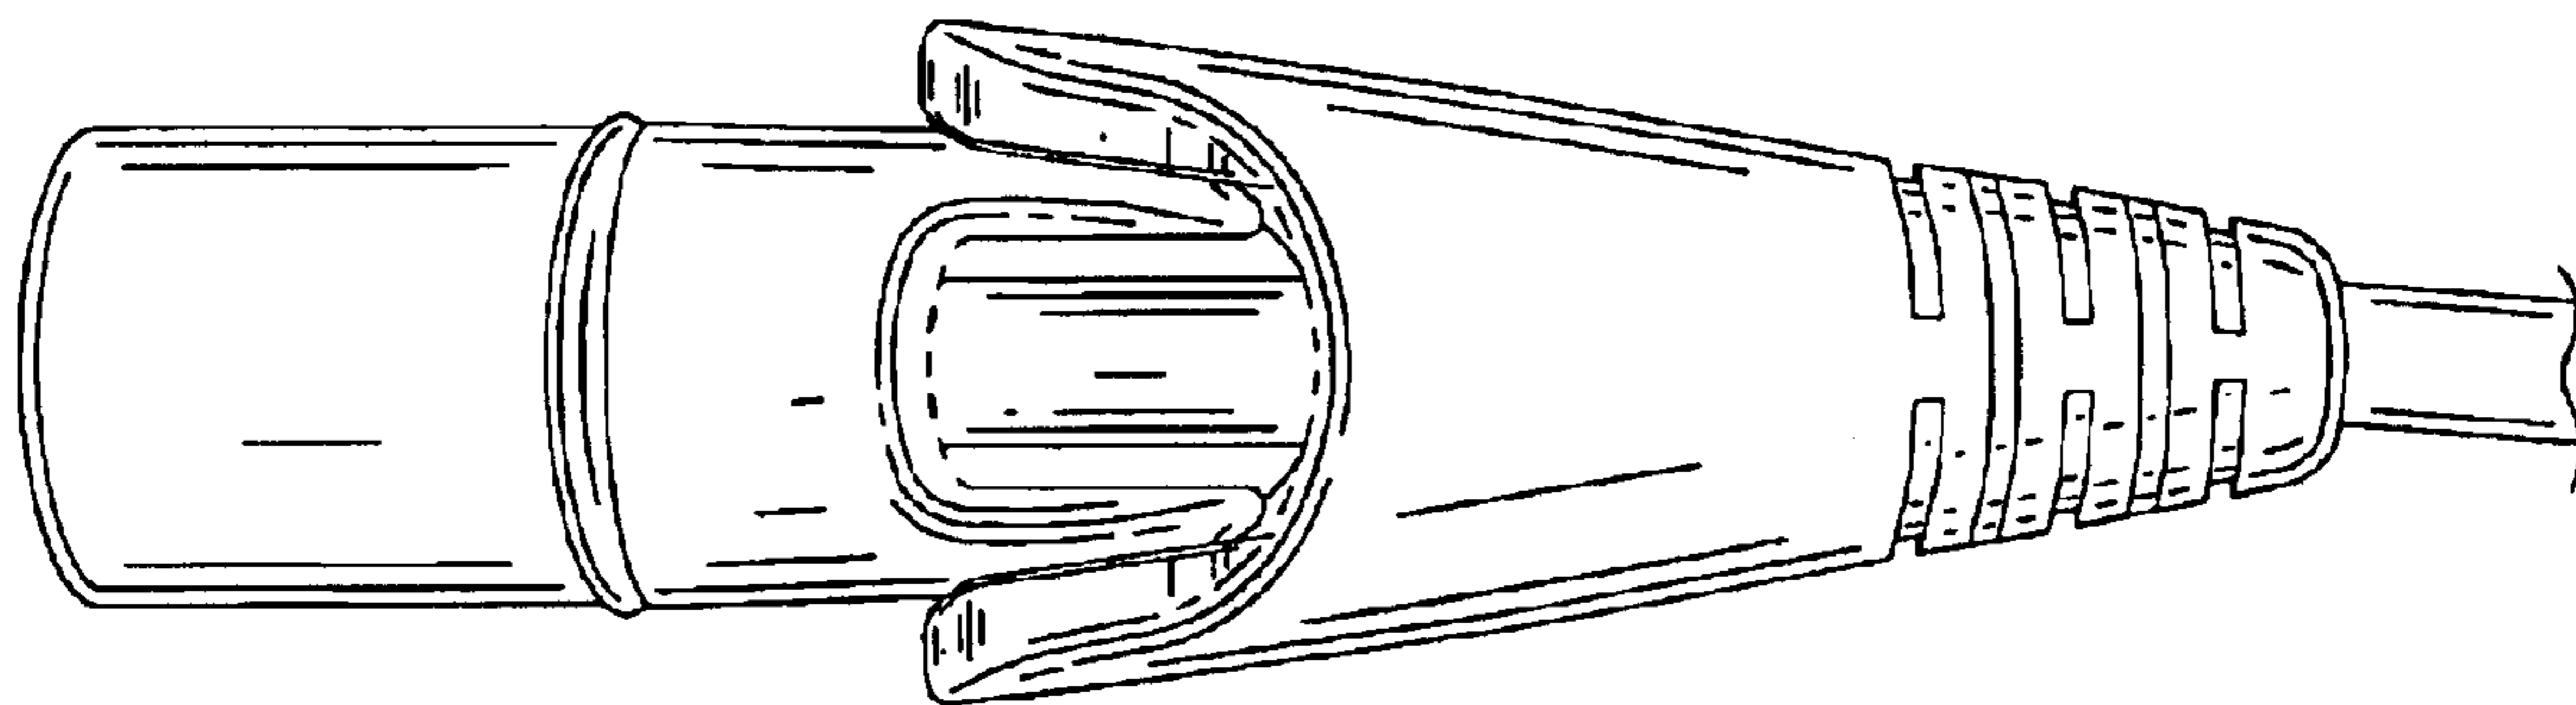

FIG. 4 is a side elevational view of the connector with the respective axial sections disposed at a ninety (90) degree angle;

FIG. 5 is a front elevational view of the connector with the axial sections thereof disposed in axially aligned relationship; and,

FIG. 6 is a rear elevational view of the connector with the respective axial sections thereof disposed in axially aligned relationship.

The broken lines in FIGS. 1 and 2 are included for the purpose of marking the boundary of the claimed design and form no part of what is claimed.
