(57) **CLAIM**

The ornamental design for an electronic article surveillance device, as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view of the electronic article surveillance device in an unengaged state;
 FIG. 2 is a side perspective view of the electronic article surveillance device in an engaged state;
 FIG. 3 is a left hand side view of the electronic article surveillance device in an unengaged state;
 FIG. 4 is a right hand side view of the electronic article surveillance device in an unengaged state;
 FIG. 5 is a top view of the electronic article surveillance device in an unengaged state;
 FIG. 6 is a bottom view of the electronic article surveillance device in an unengaged state;
 FIG. 7 is a frontal view of the electronic article surveillance device in an unengaged state; and,
 FIG. 8 is a rear view of the electronic article surveillance device in an unengaged state.
