(57) **CLAIM**

The ornamental design for a vehicle screen, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a vehicle screen including both upper and lower components as it appears when installed on the front of a vehicle.

FIG. 2 is a front elevational view of a vehicle screen showing a second embodiment of my new design;

FIG. 3 is a top plan view of the upper component of the screen according to both FIGS. 1 and 2, the bottom view being substantially a mirror image of the top view shown.

FIG. 4 is a right side elevational view of the upper component of the vehicle screen according to both FIGS. 1 and 2, the left side being a mirror image of the right side view shown.

FIG. 5 is a top plan view of the lower component of the vehicle screen according to both FIGS. 1 and 2, the bottom view being a mirror image of the top view shown in FIG. 1 and a substantially a mirror image of the top view shown in FIG. 2; and,

FIG. 6 is a right side elevational view of the lower component of the vehicle screen according to both FIGS. 1 and 2, the left side being a mirror image of the right side view shown.

The rear elevational view of the design is not visible in its intended use.
