(57) **CLAIM**

The ornamental design for a reusable tie down anchor with upper attachment loop, top shaft opening for tool-assisted use, and threads having extraction resistant ridges, as shown and described herein.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of the present invention.

FIG. 2 is a left side view of the first embodiment of the present invention.

FIG. 3 is a back view of the first embodiment of the present invention.

FIG. 4 is a right side view of the first embodiment of the present invention.

FIG. 5 is an enlarged bottom view of the first embodiment of the present invention.

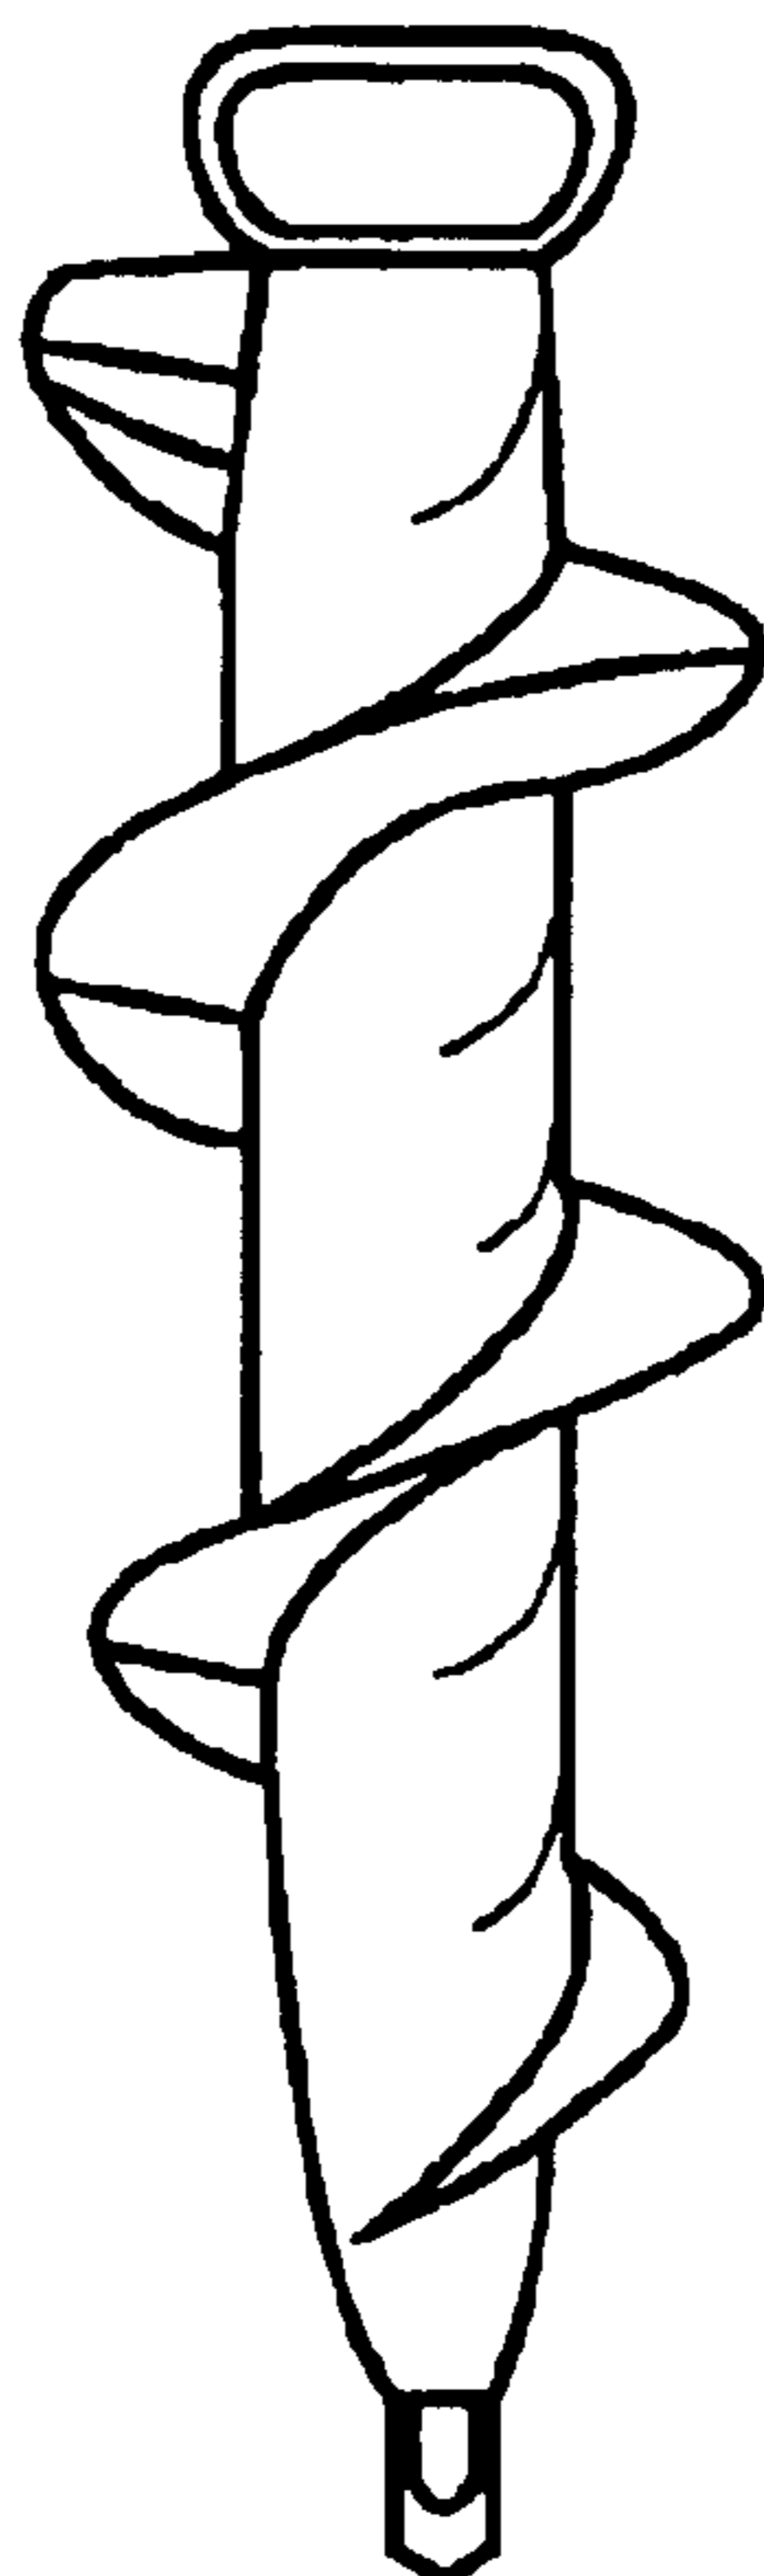

FIG. 6 is a top view of the first embodiment of the present invention.

FIG. 7 is a top view of a second embodiment of the present invention; and,

FIG. 8 is a perspective view of the first preferred embodiment of the present invention.

Front, right side, back, left side, and bottom views for the second embodiment have not been provided, since the second embodiment is identical to the first embodiment except for the rectangular upper shaft opening shown in FIG. 7.
