(57) **CLAIM**

The ornamental design for an adjustable discharge apparatus, as shown and described.

DESCRIPTION

FIG. **1** is a top plan view of an adjustable discharge apparatus in an intermediate adjusted position;
FIG. **2** is a left side elevational view of the adjustable discharge apparatus of FIG. **1**;
FIG. **3** is a left side elevational view of the adjustable discharge apparatus of FIG. **2** in a first lower adjusted position;
FIG. **4** is a left side elevational view of the adjustable discharge apparatus of FIG. **2** in a second lower adjusted position;
FIG. **5** is a left side elevational view of the adjustable discharge apparatus of FIG. **2** in a first upper adjusted position;
FIG. **6** is a left side elevational view of the adjustable discharge apparatus of FIG. **2** in a second upper adjusted position;
FIG. **7** is a right side elevational view of the adjustable discharge apparatus of FIG. **1**;
FIG. **8** is a bottom plan view of the adjustable discharge apparatus of FIG. **1**;
FIG. **9** is a front elevational view of the adjustable discharge apparatus of FIG. **1**;
FIG. **10** is a rear elevational view of the adjustable discharge apparatus of FIG. **1**;
FIG. **11** is an upper rear left perspective view of the adjustable discharge apparatus in the second lower adjusted position of FIG. **4**;
FIG. **12** is a lower rear front perspective view of the adjustable discharge apparatus in the second lower adjusted position of FIG. **4**; and,
FIG. **13** is a left side elevational view of the adjustable discharge apparatus of FIG. **1** shown in an environmental view.
The broken lines shown in the figures are for illustrative purposes only and form no part of the claimed design.
