Primary Examiner—Clare E. Heflin

(57) **CLAIM**

The ornamental design for the flexible magnet light, as shown and described.

DESCRIPTION

The claimed flexible magnet light is an LED barrel light with flexible end with magnet attached. The flexible end can be used to put barrel light in any position and magnet attaches to any metal.

The single FIGURE is a perspective view of the flexible magnet light showing the new design which is symmetrical with all sides being the same as that shown except for the power button.
