(57) **CLAIM**

The ornamental design for a wheel with spokes having dual and diverging legs, as shown and described.

**DESCRIPTION**

The single FIGURE is a front perspective view of a wheel with spokes having dual and diverging legs for a vehicle according to my invention. The rear side of the wheel is identical to the front side. The outer ends of all spokes are identical.

The wheel of the invention is characterized by spokes that each have dual and diverging legs with a web portion connecting the inner portions and a triangular space between the outer portions of each pair of legs.
