(57) **CLAIM**

We claim the ornamental design for the electronic controller for towed vehicle brakes, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and side perspective view of an electronic controller for towed vehicle brakes of the present invention;

FIG. 2 is an elevational view of the front of the electronic controller of the present invention;

FIG. 3 is an elevational view of the right side of the electronic controller of the present invention;

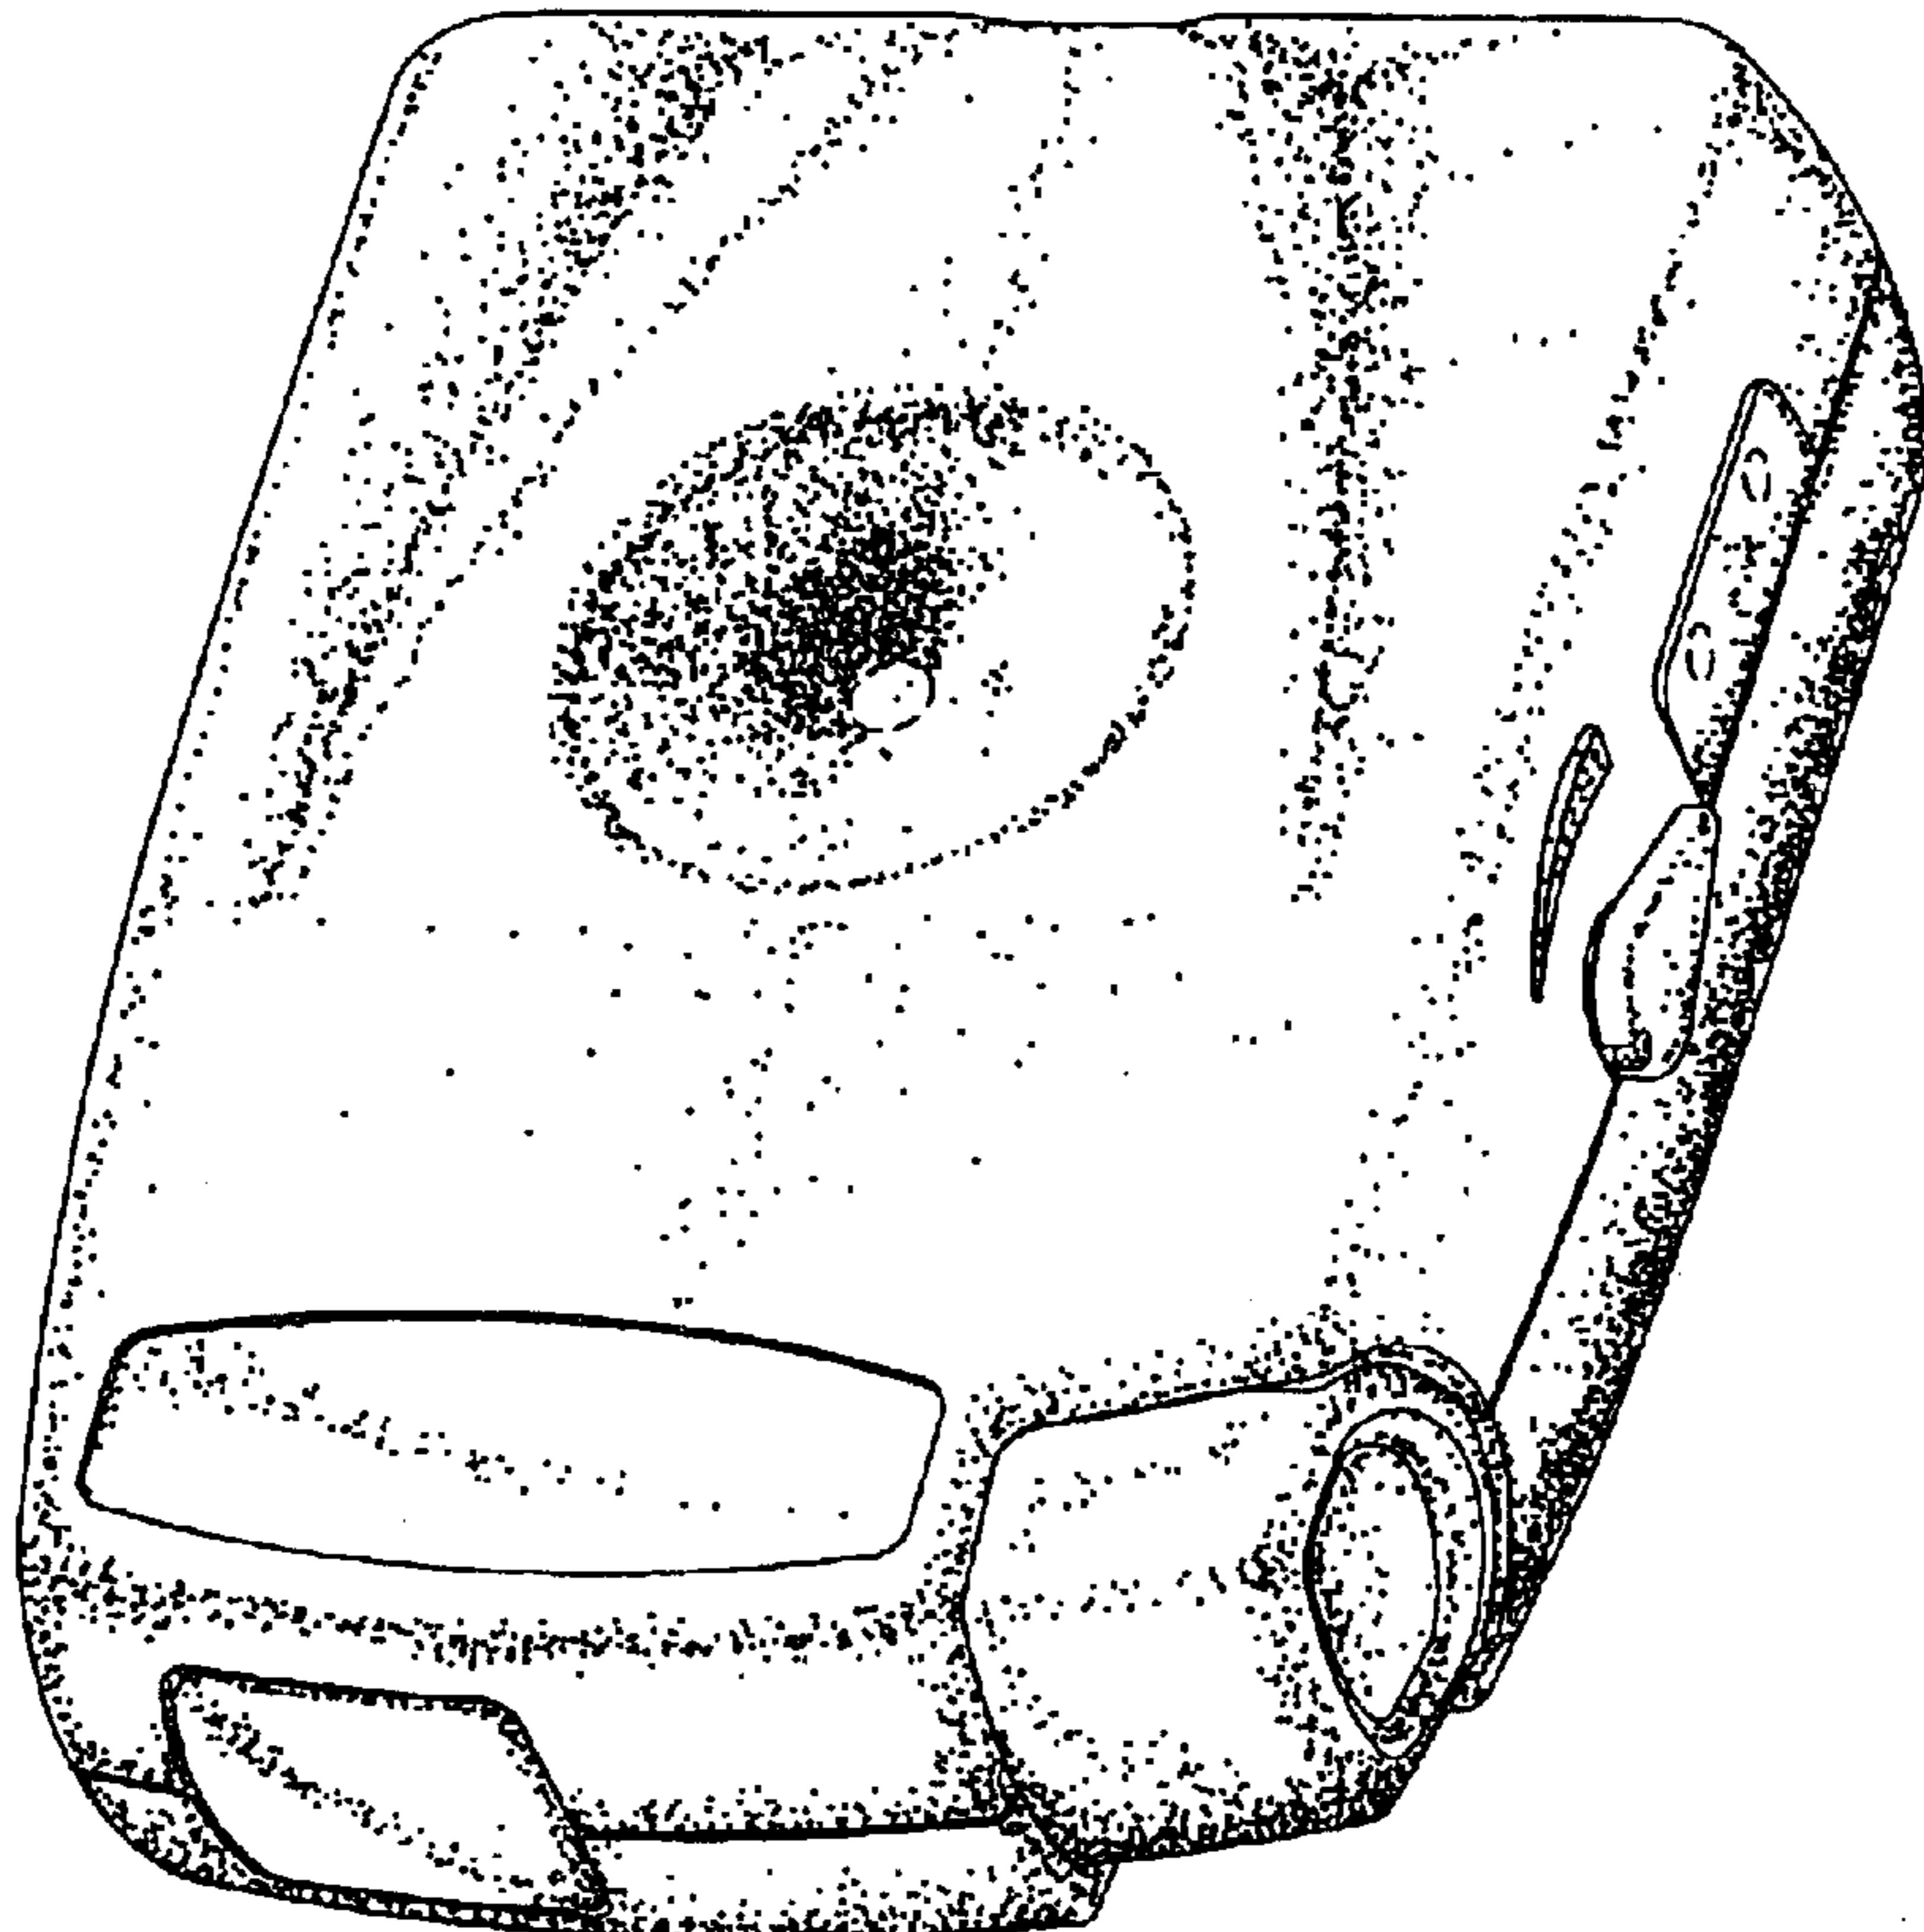

FIG. 4 is an elevational view of the rear of the electronic controller of the present invention;

FIG. 5 is an elevational view of the left side of the electronic controller of the present invention;

FIG. 6 is a top plan view of the electronic controller of the present invention; and,

FIG. 7 is a bottom plan view of the electronic controller of the present invention.
