(57) **CLAIM**

The ornamental design for a combined phone module and phone carriage, as shown.

DESCRIPTION

FIG. 1 is an exploded perspective view of the phone module and phone carriage in accordance with the present invention. FIG. 2 is an engaged perspective view of the phone module and phone carriage in accordance with the present invention. FIG. 3 is a perspective view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base exploded from the phone module in the drawings is for environmental purposes only and forms no part of the claimed design.

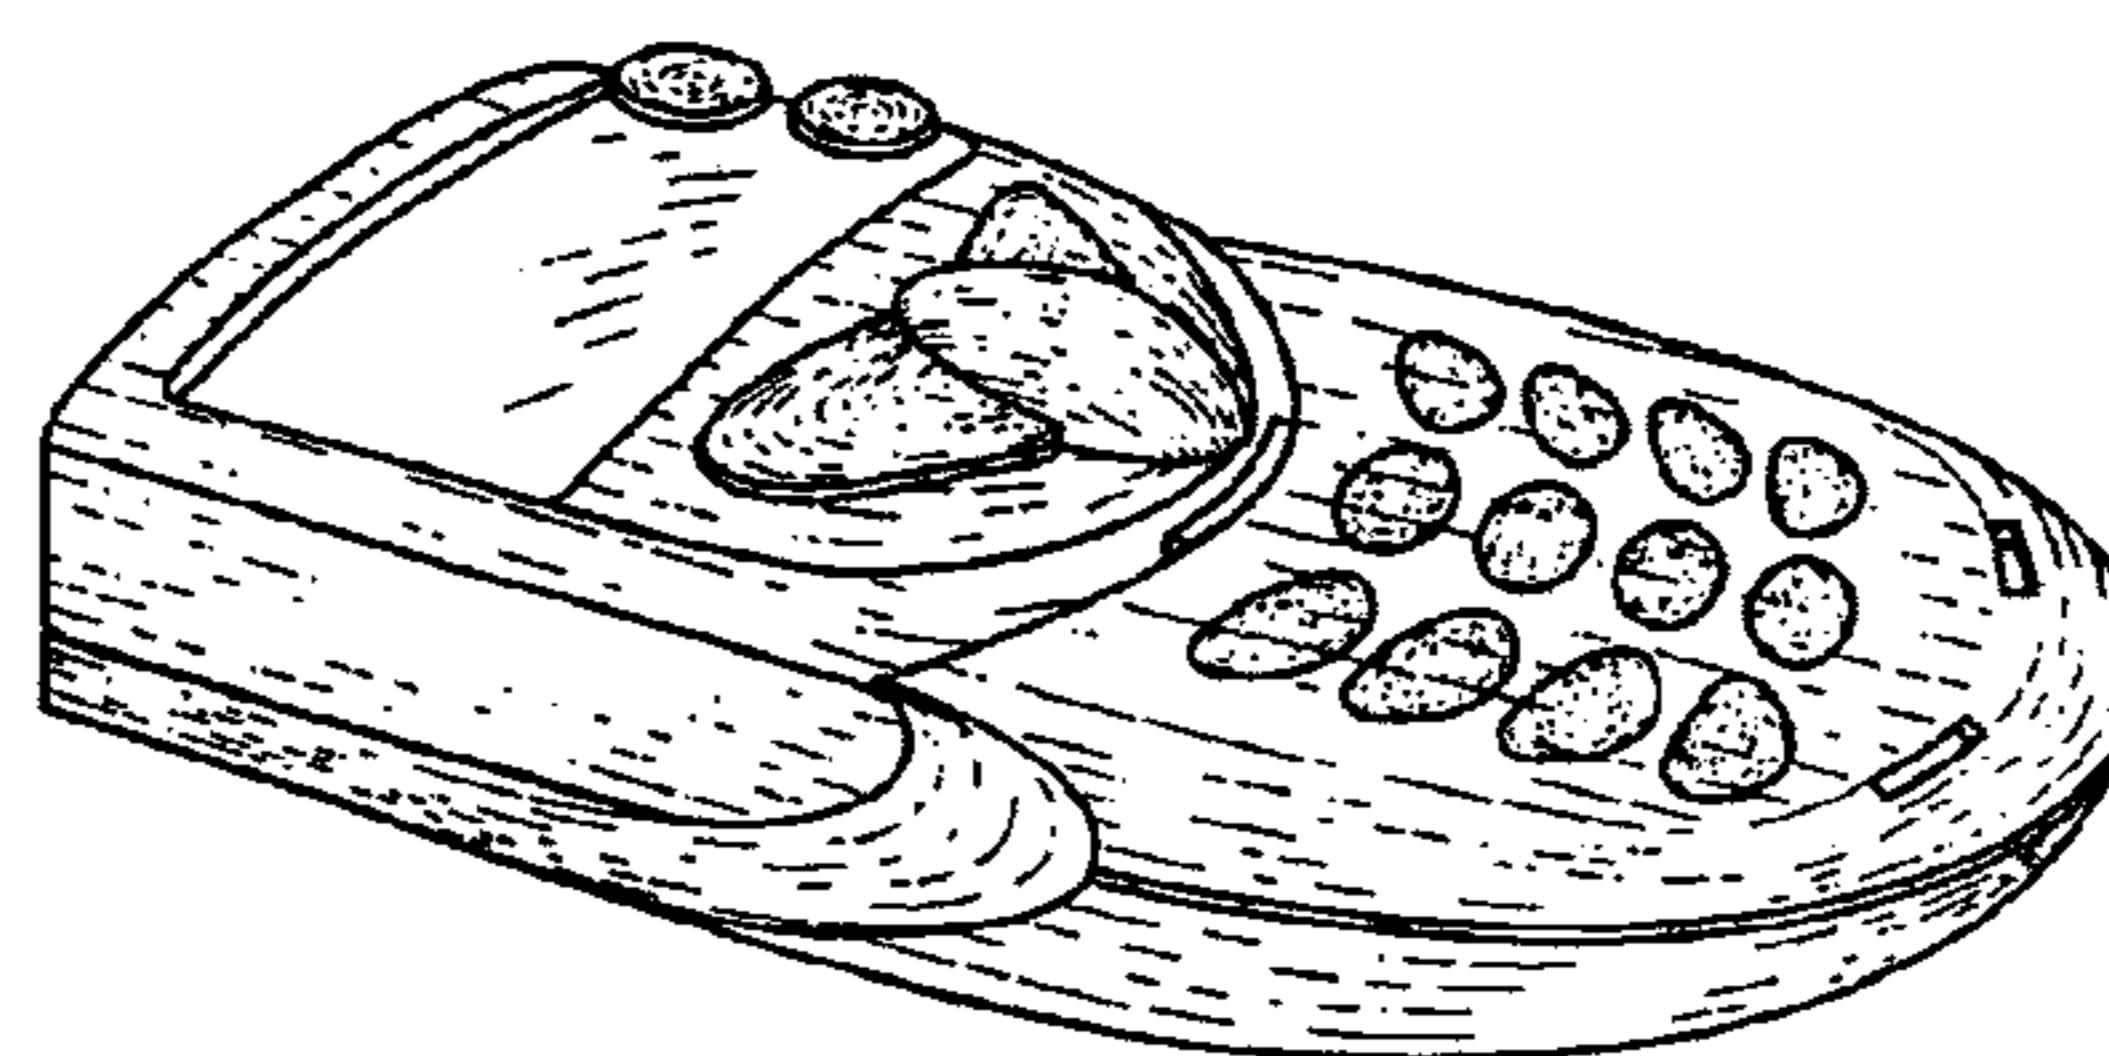

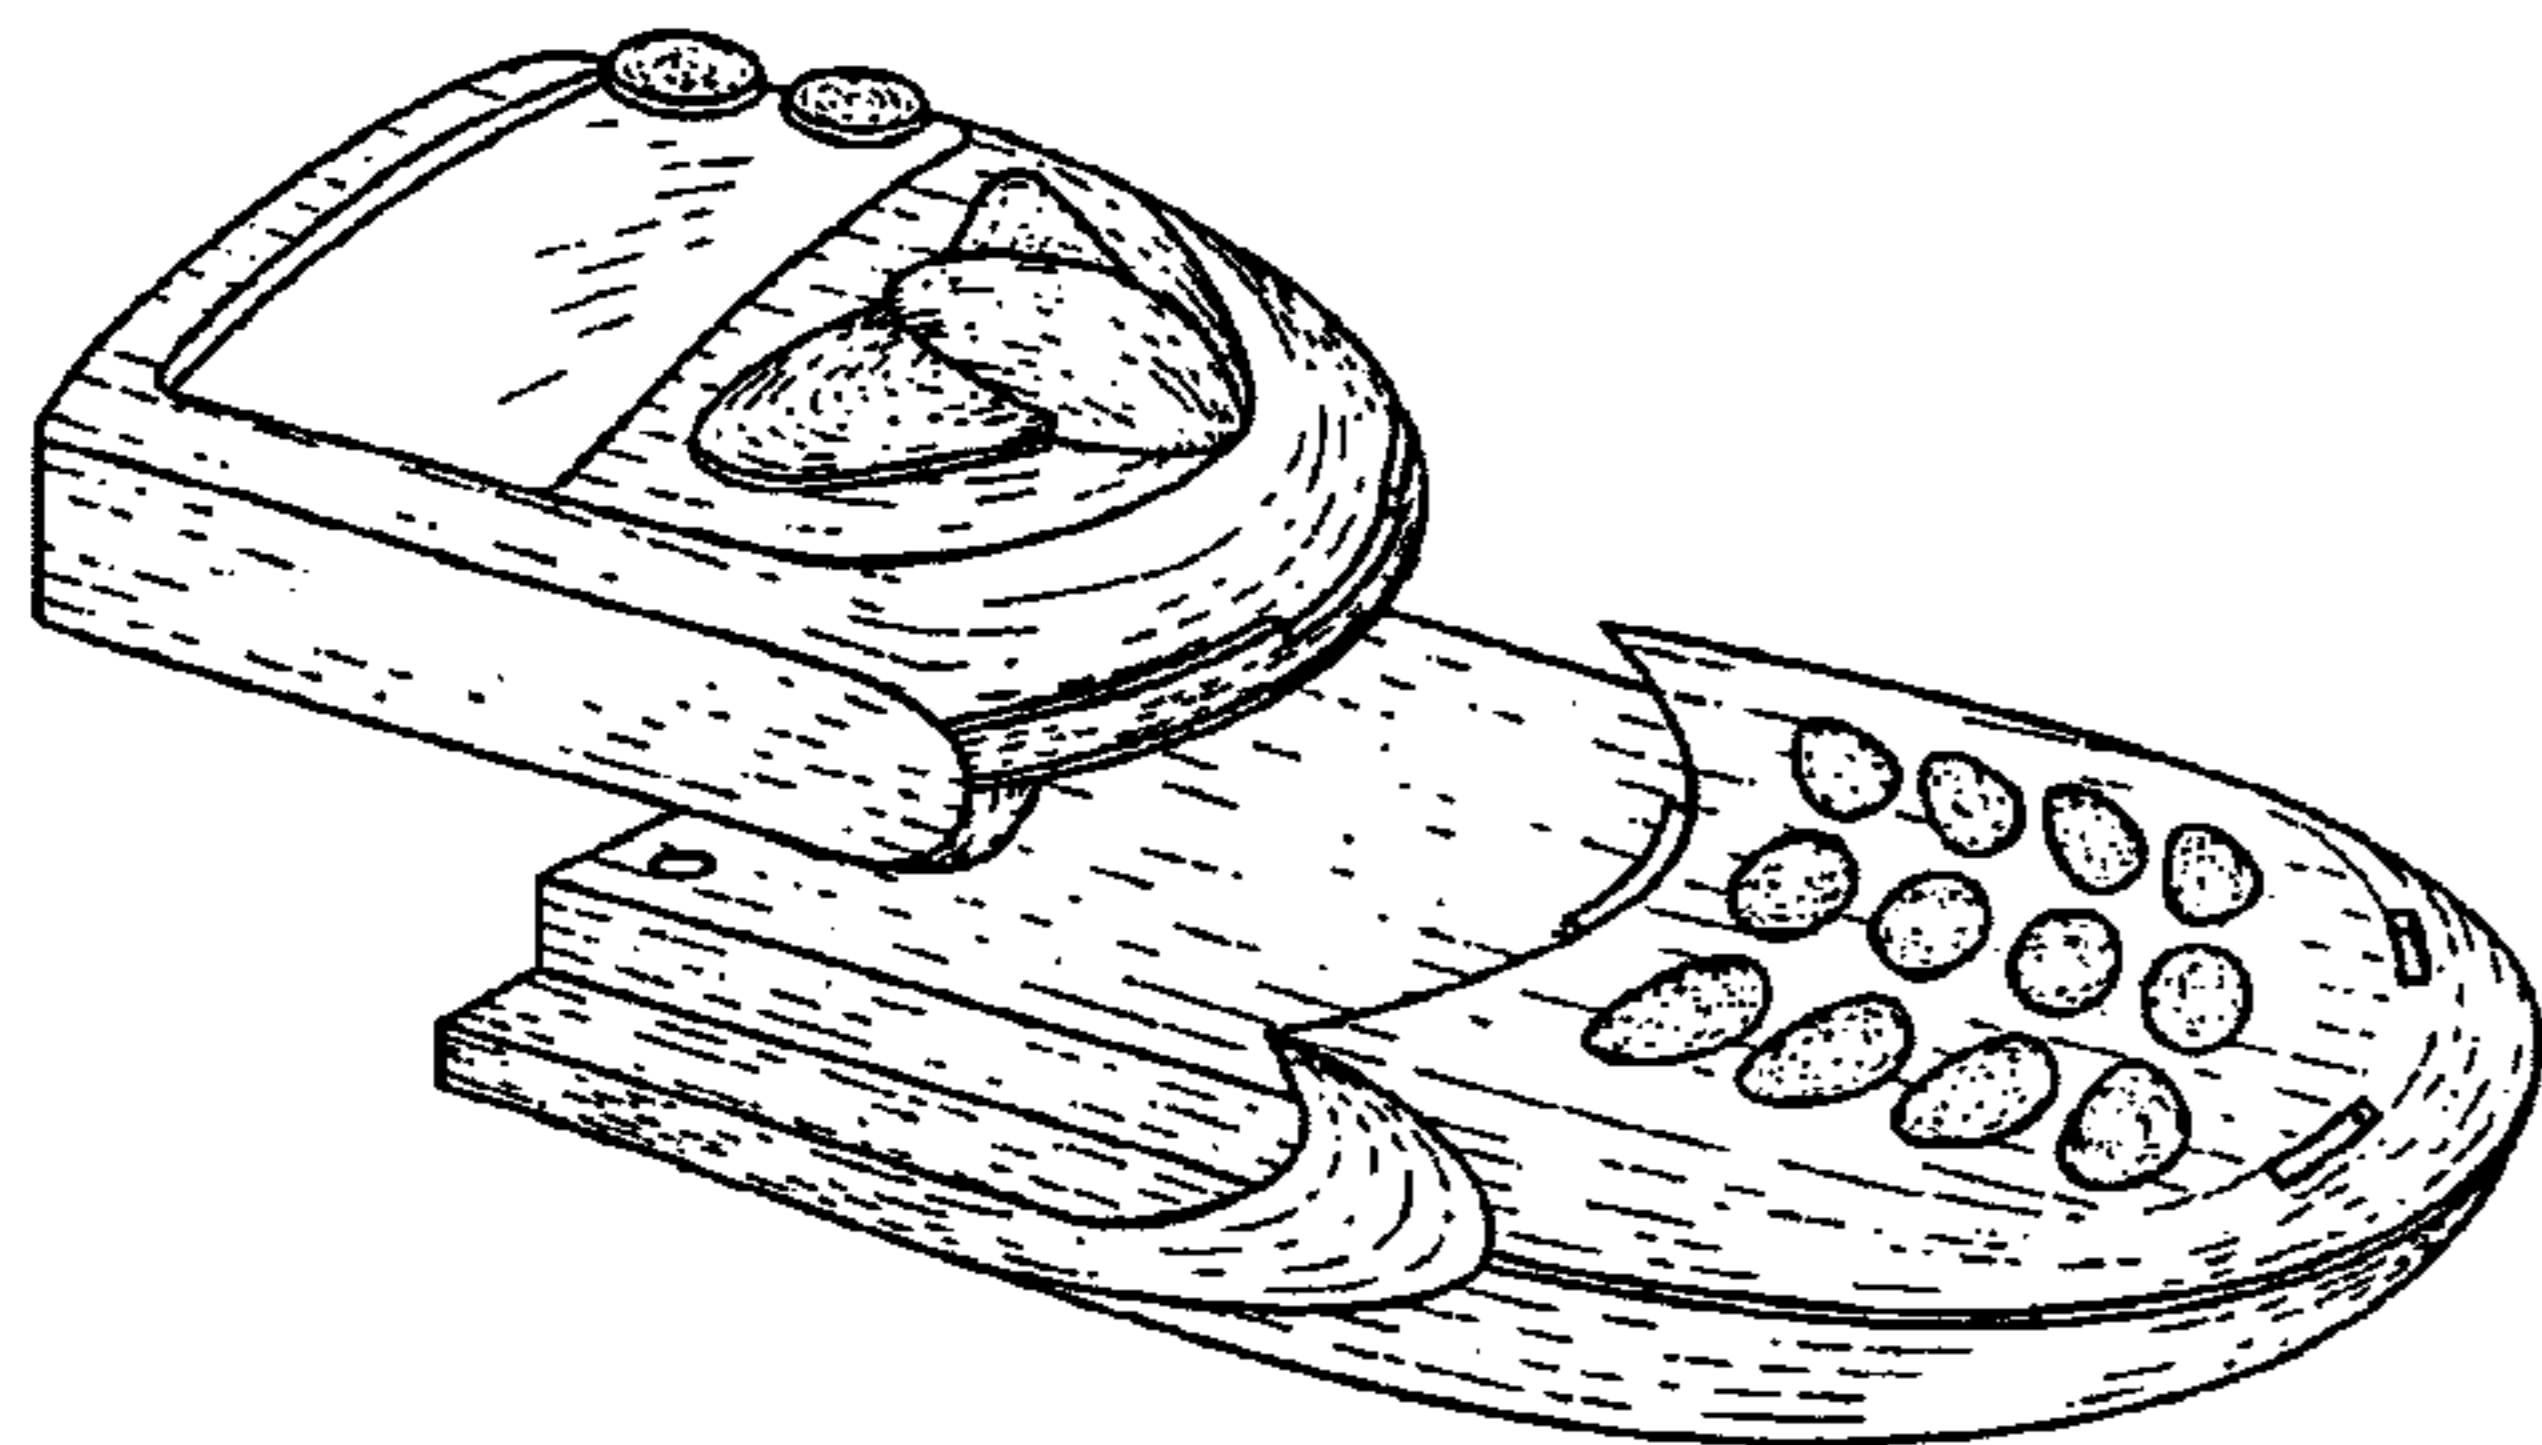

FIG. 4 is a perspective view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base shown engaged with the phone module in the drawings is for environmental purposes only and forms no part of the claimed design.

FIG. 5 is a top view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base in the drawings is for environmental purposes only and forms no part of the claimed design.

FIG. 6 is a perspective view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base and wrist receiver clasp in the drawings is for environmental purposes only and forms no part of the claimed design.

FIG. 7 is a right side view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base and wrist receiver clasp in the drawings is for environmental purposes only and forms no part of the claimed design; and, FIG. 8 is a left side view of the phone module shown removed from the phone carriage for convenience of illustration. The dashed line showing of an alternate base and wrist receiver clasp in the drawings is for environmental purposes only and forms no part of the claimed design.
