(57) **CLAIM**

The retractable magnifier with an electric lamp, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the retractable magnifier with an electric lamp showing my new design with the magnifier in a retracted position;

FIG. 2 is a rear view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 3 is a top plan view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 4 is a bottom plan view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 5 is a left side view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 6 is a right side view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 7 is a perspective view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in a retracted position;

FIG. 8 is a front view of the retractable magnifier with an electric lamp of FIG. 1 with the magnifier in an exploded position;

FIG. 9 is a rear view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8;

FIG. 10 is a top plan view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8;

FIG. 11 is a bottom plan view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8;

FIG. 12 is a left side view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8;

FIG. 13 is a right side view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8; and,

FIG. 14 is a perspective view of the retractable magnifier with an electric lamp in the exploded position of FIG. 8.
