The ornamental design for a shoe upper, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a shoe upper showing my new design;

FIG. 2 is a left-hand side elevational view of my new design;

FIG. 3 is a right-hand side elevational view of my new design;

FIG. 4 is a front elevational view of my new design;

FIG. 5 is a back side elevational view of my new design;

FIG. 6 is a top plan view of my new design; and,

It is therefore Applicant's intent to claim and cover by means of the patent to issue from this application any and all shoes having the claimed ornamental design features on the upper shown in solid lines (as well as features substantially similar thereto) irrespective of whether the uppers of the shoes have or do not have additional features thereon including, but not limited to, openings therein such as those shown in dashed lines and irrespective of the size, locations, and/or arrangement of such openings.
