The ornamental design for a sofa, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent files or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 is a perspective view of the front, a first side and the top of my new design, with the components of the new design in one relative position;

FIG. 2 is perspective view of the back, a second side and the top thereof;

FIG. 3 is a top view thereof;

FIG. 4 is a back view thereof;

FIG. 5 is a front view thereof;

FIG. 6 is a side view of the first side thereof;

FIG. 7 is a side view of the second side thereof;

FIG. 8 is a bottom view thereof; and,

FIG. 9 is a top view with the components of the new design in another relative position thereof.

Components of the design shown in the drawings may be fixed or movable relative to one another. FIGS. 3 and 9 show the design in different positions of the end components relative to the center component. The portions of the center component obscured by the end components appear the same as the portions not exposed by the end components, as FIGS. 3 and 9 partially demonstrate. The design encompasses relative positions of the components other than those depicted in FIGS. 3 and 9.
