(57) **CLAIM**

The ornamental design for a front plate for a global positioning system receiver, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a front plate for a global positioning system receiver according to the present invention, with broken lines representing unclaimed portions for the receiver;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a first side elevational view thereof;

FIG. 4 is a second side elevational view thereof;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

The broken lines in the drawings are for illustrative purposes only and do not form part of the claimed design. While the edges around the rectangular screen on the front plate of the global positioning system receiver, that are shown in solid lines, form part of the claimed design, the surface of the unshaded rectangular screen does not form part of the claimed design.
