DESCRIPTION

FIG. 1 is a perspective view of a molded article support of the present invention, showing several articles in phantom supported therein;

FIG. 2 is a view of the bottom of the molded article support shown in FIG. 1;

FIG. 3 is an elevational view of one end of the molded article support shown in FIG. 1; and,

FIG. 4 is an elevational view of a side of the molded article support shown in FIG. 1.

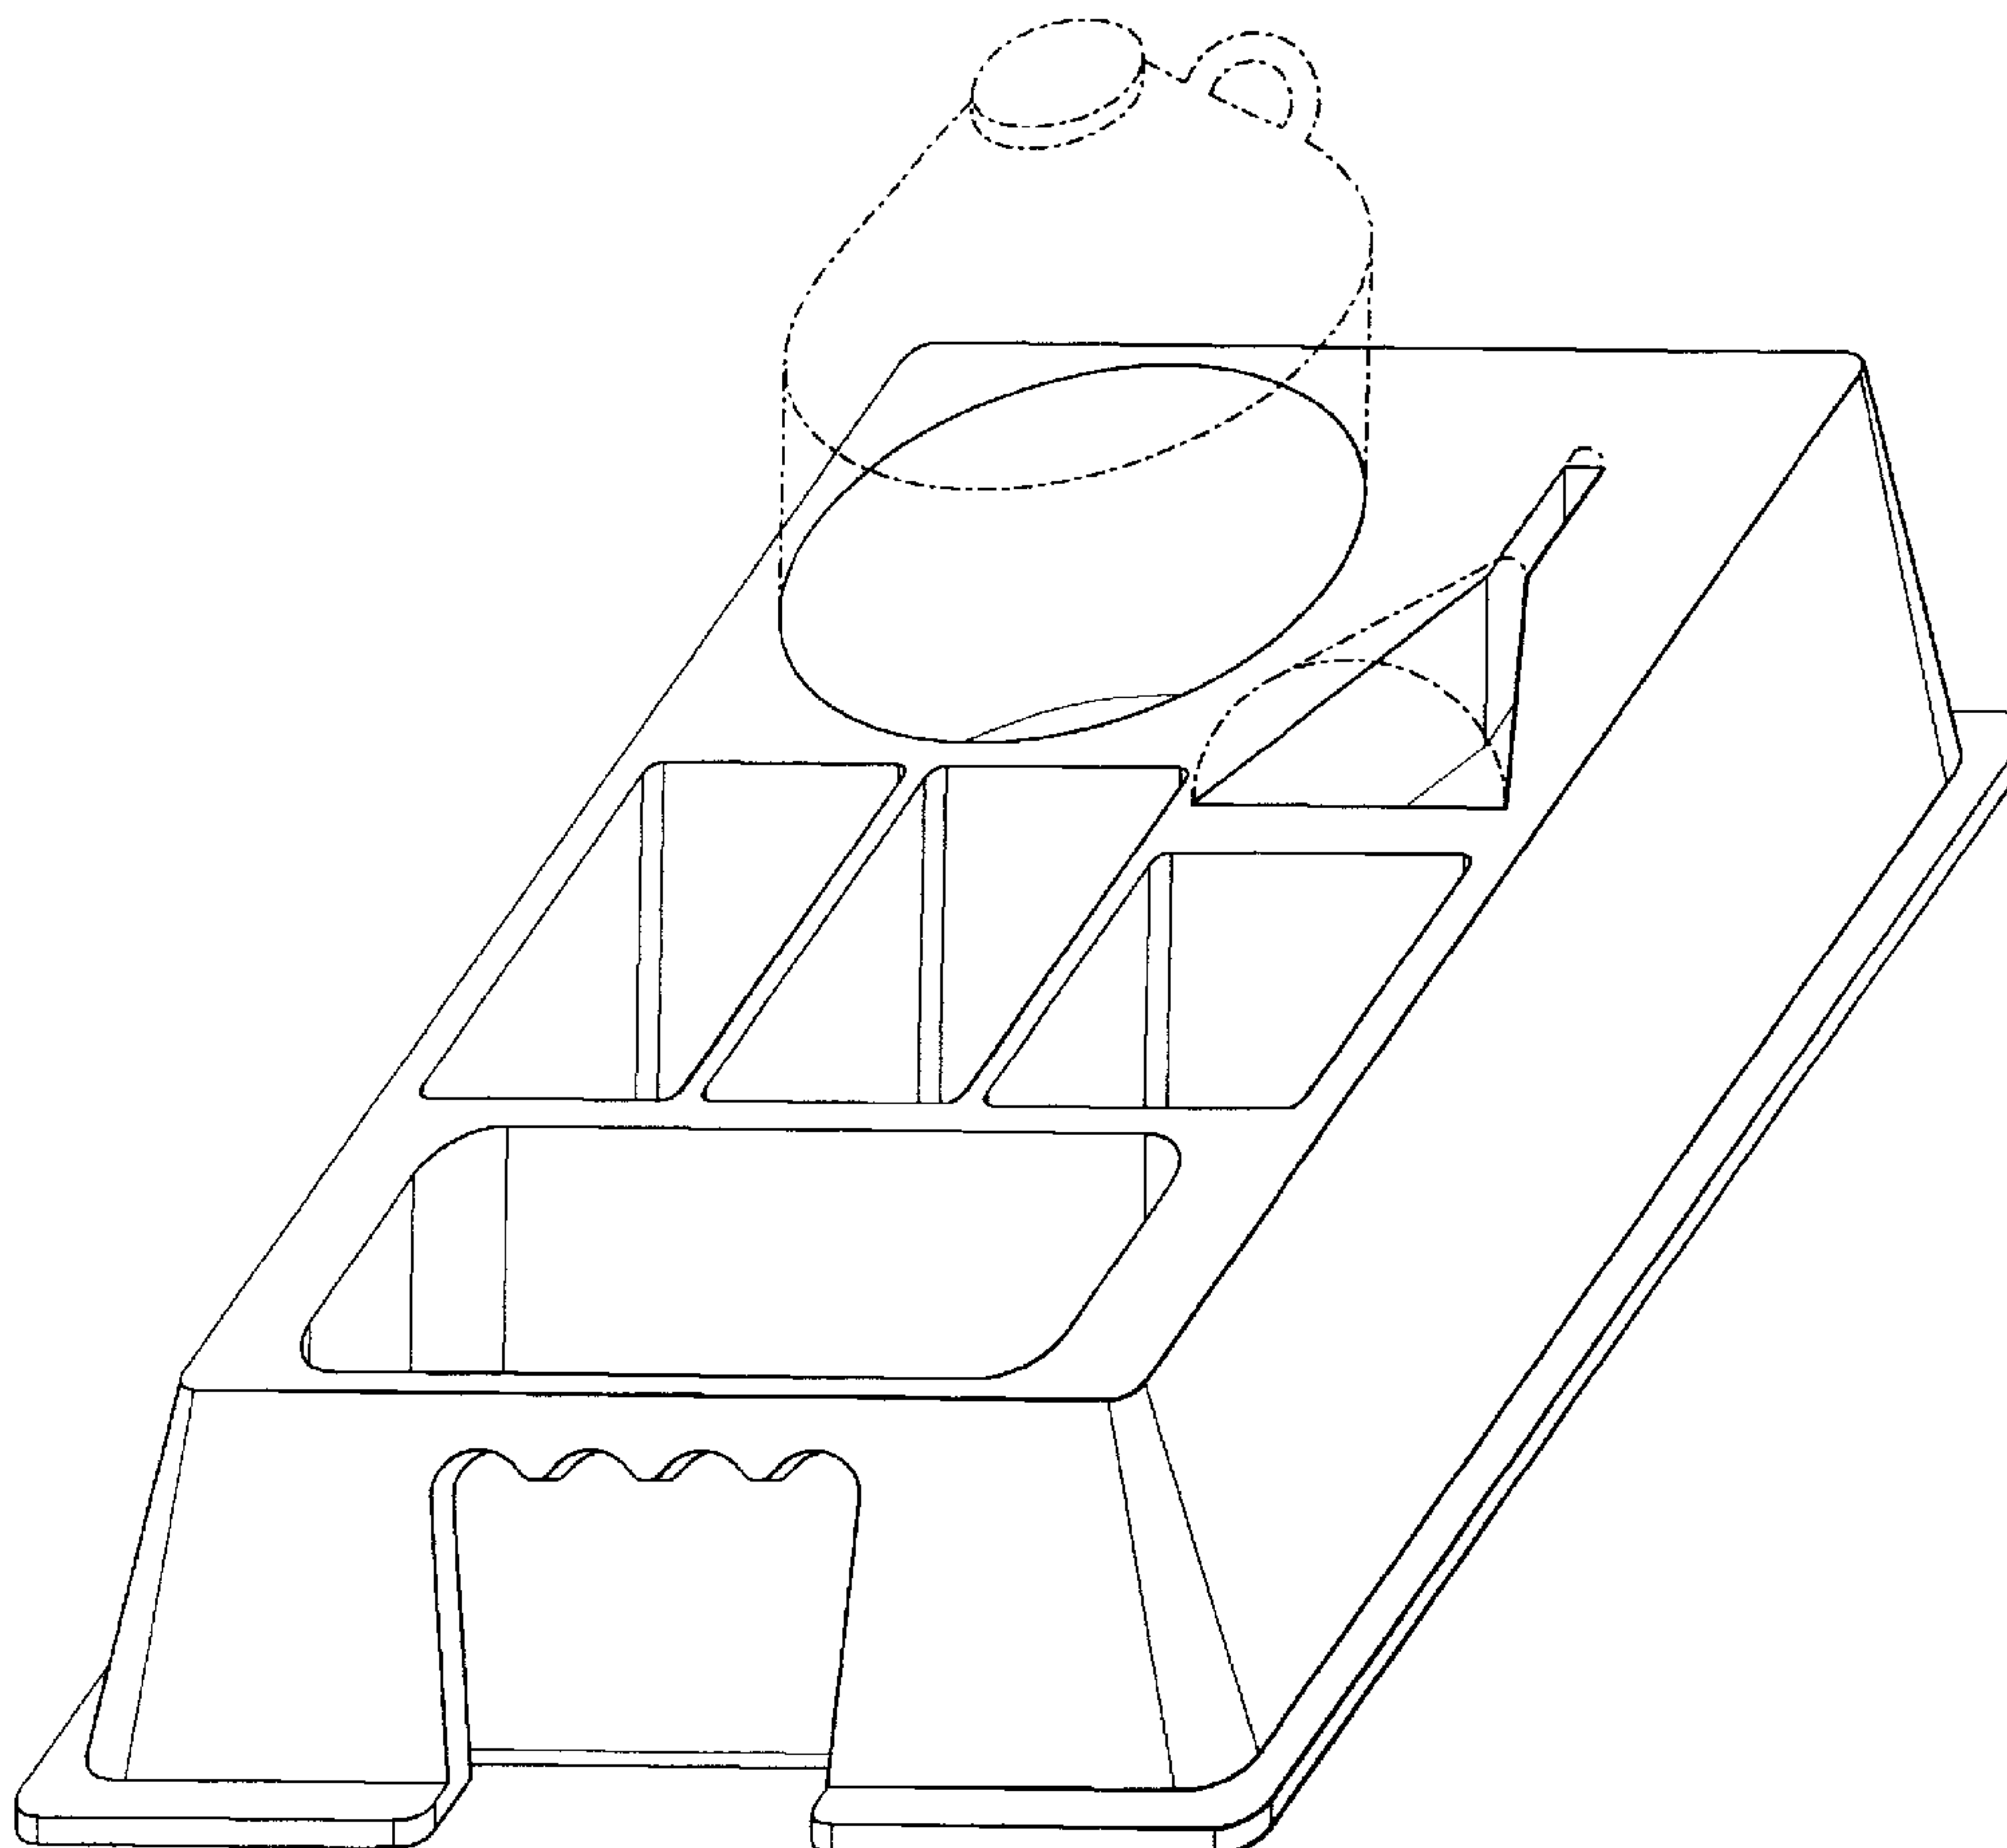

The broken line showing of articles supported by the molded article support is for illustrative purposes only and forms no part of the claimed design.
