FIG. 1 a left-rear perspective view of a fluid delivery device of our new design, the right-rear perspective view being a mirror image thereof, the portions of the device shown in dashed lines forming no part of the claimed design;
 FIG. 2 a left-front perspective view of our new design, the right-front perspective view being a mirror image thereof, the portions of the device shown in dashed lines forming no part of the claimed design;
 FIG. 3 is a top view of our new design, the portions of the device shown in dashed lines forming no part of the claimed design;
 FIG. 4 is a bottom view of our new design, the portions of the device shown in dashed lines forming no part of the claimed design;
 FIG. 5 is a left side view of our new design, the right side view being a mirror image thereof, the portions of the device shown in dashed lines forming no part of the claimed design;
 FIG. 6 is a front view of our new design, the portions of the device shown in dashed lines forming no part of the claimed design; and,
 FIG. 7 is the rear view of our new design, the portions of the device shown in dashed lines forming no part of the claimed design.
