(57) **CLAIM**

A clip-on accessory for eyeglasses, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view, partially in broken lines and highlighted with broken circles, of an eyeglass frame which incorporates the clip-on accessory for eyeglasses showing my new design which is indicated within the circles;

FIG. 2 is an enlarged frontal perspective view, partially in broken lines, showing a first portion of the clip-on accessory of my new design;

FIG. 3 is a top plan view, partially in broken lines, of the clip-on accessory portion of FIG. 2;

FIG. 4 is a front view, partially in broken lines, of the clip-on accessory portion of FIG. 2;

FIG. 5 is a bottom plan view, partially in broken lines, of the clip-on accessory portion of FIG. 2;

FIG. 6 is a left side view, partially in broken lines, of the clip-on accessory portion of FIG. 2; and,

FIG. 7 is a right side view, partially in broken lines, of the clip-on accessory portion of FIG. 2.

The claimed design comprises a first portion enclosed in the left circle of FIG. 1 and a second portion enclosed in the right circle of FIG. 1, wherein the second portion is the mirror image of the first portion.

The broken line portions form no part of the claimed design.
