(57) **CLAIM**

(21) **Appl. No.: 29/191,056**

The ornamental design for a stove, as shown and described.

(22) **Filed: Sep. 30, 2003**

DESCRIPTION

Related U.S. Application Data

The FIGURE is a front and right side perspective view of a stove showing my new design, with the top shown in an open position.

(62) **Division of application No. 29/162,444, filed on Jun. 14, 2002.**

It should be further understood that the stove can be maintained with the same ornamental conception with a cooktop having a variable number of burners and with the simple alteration of the number of buttons that activate the burners. Said buttons may be arranged, for example in the case of four burners, in two groups of two buttons, each group being disposed on a respective lateral end portion of a control panel, and a button for the oven can be positioned between said two groups.
