(57) **CLAIM**

The ornamental design for a retainer for electrical cord connector, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a flexible retainer for electrical cord connector in accordance with the present design;

FIG. **2** is a top plan view thereof;

FIG. **3** is a bottom plan view thereof;

FIG. **4** is a side elevational view from one side thereof, the opposite side view being identical thereto;

FIG. **5** is an end elevational view from one end thereof, the opposite end view being mirror symmetrical thereto;

FIG. **6** is an exploded perspective view showing the retainer in a configuration for attachment to a plug of an appliance power cord and a mating female connector of an extension cord; and,

FIG. **7** is a perspective view showing the retainer attached to the plug and the mating female connector.

The plug and the mating female connector are shown in broken lines in FIGS. **6** and **7** to indicate that they do not form part of the ornamental design according to the invention.
