(57) **CLAIM**

The ornamental design for a suspended luminaire, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view showing a first embodiment of the design for a suspended luminaire in a centered alignment. FIG. 2 is a left side elevational view thereof. The right side is the same as the left.

FIG. 3 is a front end elevational view thereof. The back end view is the same as the front. The end view is the same regardless of whether the first embodiment is in a centered, staggered, or one-sided alignment.

FIG. 4 is bottom plan view thereof.

FIG. 5 is a top plan view of the first embodiment in a staggered alignment.

FIG. 6 is a left side elevational view of the first embodiment in a staggered alignment. The right side is the same as the left side.

FIG. 7 is a bottom plan view of the first embodiment in a staggered alignment.

FIG. 8 is a top plan view of the first embodiment in a one-sided alignment.

FIG. 9 is a left side elevational view of the first embodiment in a one-sided alignment. The right side is a mirror image of the left side.

FIG. 10 is a bottom plan view of the first embodiment in a one-sided alignment.

FIG. 11 is a top plan view showing a second embodiment of the design for a suspended luminaire in a centered alignment.

FIG. 12 is a left side elevational view of the second embodiment. The right side is the same as the left.

FIG. 13 is a front end elevational view of the second embodiment. The back end view is the same as the front. The end view is the same regardless of whether the first embodiment is in a centered, staggered, or one-sided alignment.

FIG. 14 is bottom plan view of the second embodiment.

FIG. 15 is a top plan view of the second embodiment in a staggered alignment.

FIG. 16 is a left side elevational view of the second embodiment in a staggered alignment. The right side is the same as the left side.

FIG. 17 is a bottom plan view of the second embodiment in a staggered alignment.

FIG. 18 is a top plan view of the second embodiment in a one-sided alignment.

FIG. 19 is a left side elevational view of the second embodiment in a one-sided alignment. The right side is a mirror image of the left side; and,

FIG. 20 is a bottom plan view of the second embodiment in a one-sided alignment.
