FIG. 7 is a right side elevational view of the handle of FIG. 6 the opposite left side view being a mirror image thereof;

FIG. 8 is a bottom view of the handle of FIG. 6;

FIG. 9 is a front view of the handle of FIG. 6; and,

FIG. 10 is a rear view of the handle of FIG. 6.

The figures show a broken-off portion of a connector plug at the handle front end and a broken-off portion of a cable at the handle rear end in broken lines. Those portions of the design shown in broken lines do not form part of the claimed invention. Also, the front and rear views are slightly canted relative to the handle axis, to improve the disclosure of the invention, but the inventive design is symmetric about the central axis.
