(57) **CLAIM**

The ornamental design for the gaming device symbol display having a display window, as shown and described herein.

DESCRIPTION

FIG. 1 is a front perspective view of the gaming device symbol display having a display window of my new design, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 2 is a front view of the gaming device symbol display having a display window of my new design illustrated in FIG. 1, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 3 is a left side view of the gaming device symbol display having a display window of my new design illustrated in FIG. 1, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only, and wherein the right side is a mirror image thereof;

FIG. 4 is a front perspective view of an alternative embodiment of the gaming device symbol display having a display window of my new design, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 5 is a front view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 4, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 6 is a left side view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 4, that portion of the gaming device shown in phantom is not part of the

design sought to be patented and is provided for environmental purposes only, and wherein the right side is a mirror image thereof;

FIG. 7 is a top plan view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 4, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 8 is a front perspective view of a further alternative embodiment of the gaming device symbol display having a display window of the alternative embodiment of my new design, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 9 is a front view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 8, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 10 is a left side view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 8, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only, and wherein the right side is a mirror image thereof; and,

FIG. 11 is a top plan view of the gaming device symbol display having a display window of the alternative embodiment of my new design illustrated in FIG. 8, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.
