(57) **CLAIM**

The ornamental design for a wall storable fire escape ladder, as shown and described.

DESCRIPTION

FIG. 1 is a front side elevational view of the wall storable fire escape ladder showing our new design with the drawer closed and ladder un-extended.

FIG. 2 is a left side elevational view thereof which is substantially symmetrical with a right side elevational view thereof.

FIG. 3 is a left side elevational view thereof with the drawer in an open position which is substantially symmetrical with a right side elevational view thereof.

FIG. 4 is an enlarged back side elevational view thereof.

FIG. 5 is an enlarged top plan view thereof with the drawer closed.

FIG. 6 is an enlarged top plan view thereof with the drawer opened.

FIG. 7 is an enlarged bottom plan view thereof with the drawer closed.

FIG. 8 is an enlarged bottom plan view thereof with the drawer opened.

FIG. 9 is an enlarged right side elevational view of the storable fire escape ladder showing my new design with the drawer closed and ladder extended and mounted within a wall which is substantially symmetrical with a left side elevational view thereof. For clarity purposes, the ladder portion is only partially shown. For illustration purposes only, the ladder portion is shown extending from a window and said window forms no part of the claimed design.

FIG. 10 is a right side elevational view of the storable fire escape ladder showing my new design with the drawer opened and ladder extended and mounted within a wall which is substantially symmetrical with a left side elevational view thereof. For clarity purposes, the ladder portion is only partially shown. For illustration purposes only, the ladder portion is shown extending from a window and said window forms no part of the claimed design.

FIG. 11 is a front side elevational view of the wall storable fire escape ladder showing my new design with the drawer closed and ladder stored and not extended. The cross-section cut lines and numerals 12—12 form no part of the claimed design; and

FIG. 12 is an enlarged cross sectional view thereof taken along line 12—12 in FIG. 11.

The broken line showing is for illustrative purposes only and forms no part of the claimed design.
