A new inflatable pillow design with two separate inflatable compartments and a completely flat middle-piece that allows the pillow to be used either as a headrest or when folded as an ordinary pillow. The pillow may be used when resting when travelling, on hiking- and camping trips, on the beach and at home.

FIG. 1 is the inflatable pillow seen in perspective from the right hand side; the two separate air-filled compartments are combined by a flat non air-filled middle-piece.

FIG. 2 is the inflatable pillow seen from an underneath perspective; and,

FIG. 3 is the inflatable pillow seen from a straight on perspective when the one inflatable compartment is folded over the flat middle-piece towards the other compartment to form a coherent pillow.
