(57)**CLAIM**

The ornamental design for a ring-post fasterner, as shown and described.

DESCRIPTION

FIG. 1 is a side view of the ring-post fastener as seen from the front, back, left and/or right sides, showing our design;

FIG. 2 is a top view thereof;

FIG. 3 is a bottom view thereof;

FIG. 4 is a perspective view thereof;

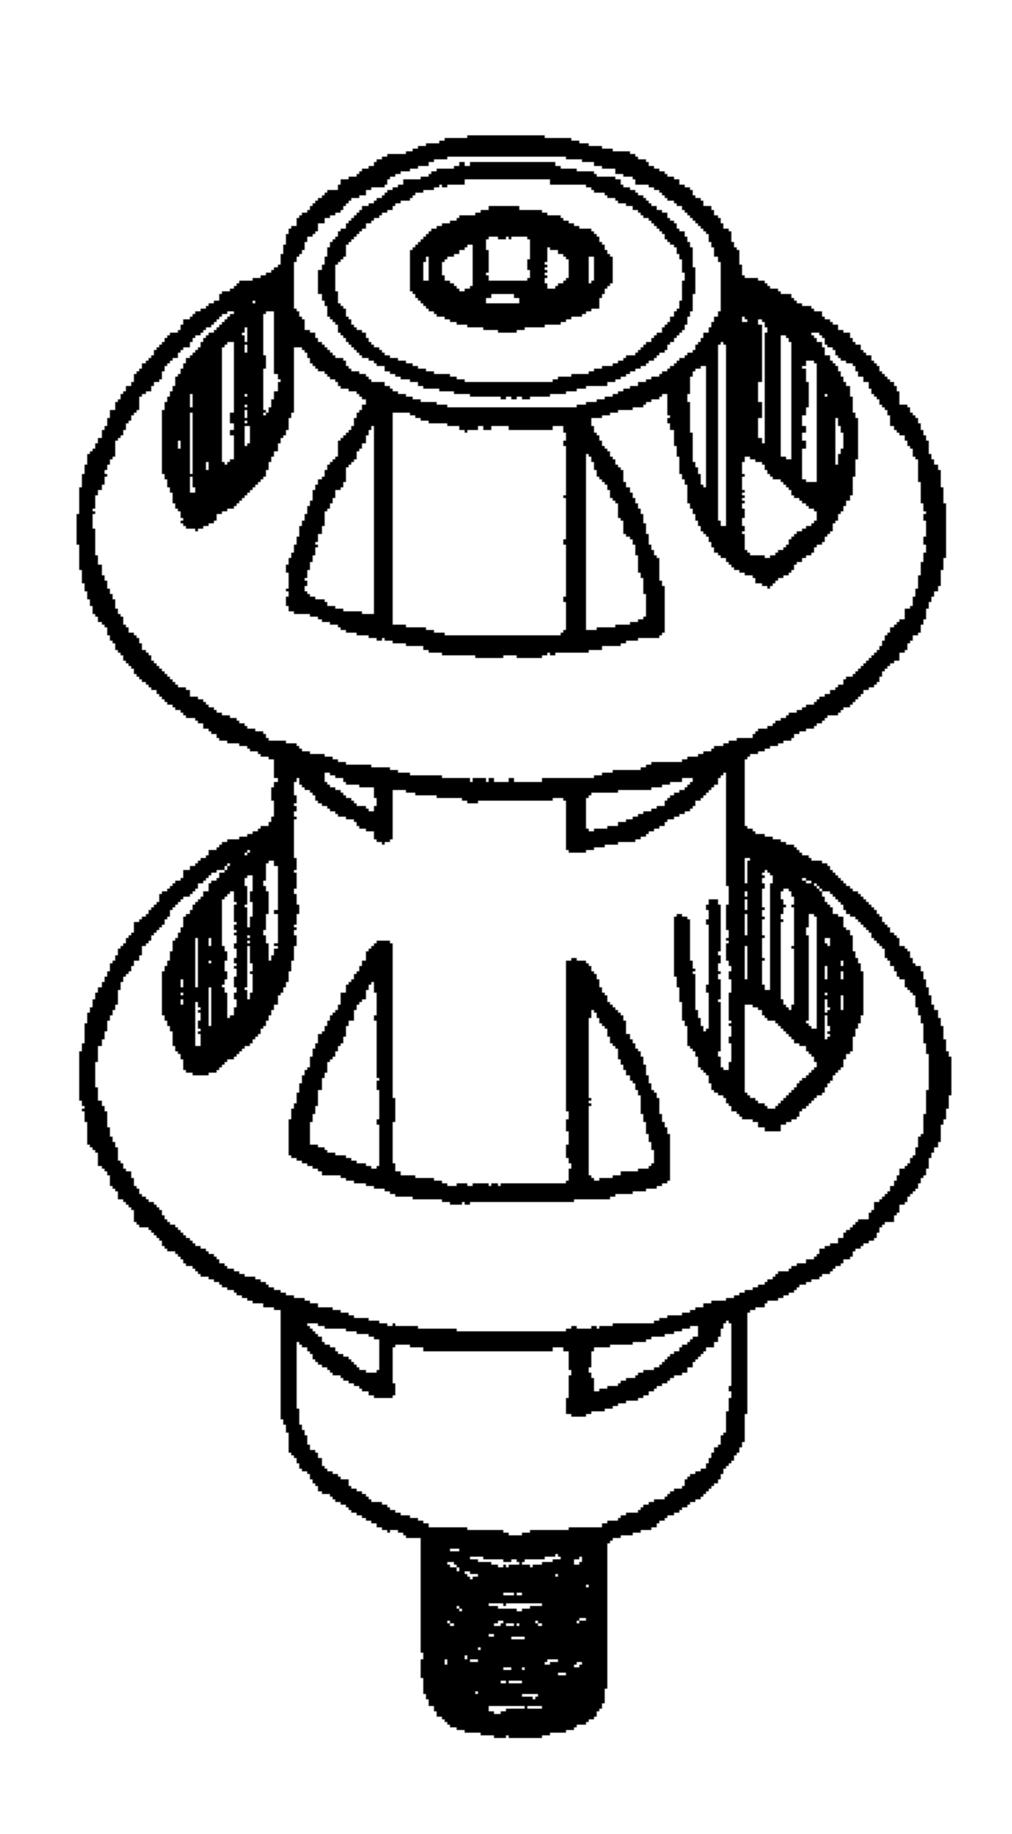

FIG. 5 is a perspective view of a second embodiment of the present invention illustrating two ring-post fasteners of FIG. 1 in a stacked configuration;

FIG. 6 is a perspective view of the ring-post fastener of FIG. 1 illustrating the use of a tie strap to bundle and secure elongate objects to a support surface; and,

FIG. 7 is an additional perspective view of the ring-post fastener shown in FIG. 1 illustrating the use of a tie strap to bundle and secure elongate objects to a support surface.

The broken lines in FIGS. 6 and 7 showing electrical wires, a tie strap, and support surface are for illustrative purposes only and form no part of the design.
