(57)**CLAIM**

The ornamental design for a liquid level indicator for pressurized containers of volatile liquids, as shown and described.

DESCRIPTION

- FIG. 1 is a view from the front of a liquid level indicator for pressurized containers of volatile liquids showing my new design.
- FIG. 2 is a view from behind the liquid level indicator for pressurized containers of volatile liquids.
- FIG. 3 is a perspective view from the front and one side of the liquid level indicator for pressurized containers of volatile liquids.
- FIG. 4 is a perspective view from the front and the other side of the liquid level indicator for pressurized containers of volatile liquids.
- FIG. 5 is a view from above the liquid level indicator for pressurized containers of volatile liquids.
- FIG. 6 is a view from below the liquid level indicator for pressurized containers of volatile liquids.
- FIG. 7 is a view from one side of the liquid level indicator for pressurized containers of volatile liquids; and,
- FIG. 8 is a view from the other side of the liquid level indicator for pressurized containers of volatile liquids.
