(57) **CLAIM**

The ornamental design for an all-terrain utility vehicle, as shown and described.

DESCRIPTION

FIG. 1 is a right front perspective view of an all terrain utility vehicle embodying our design in accordance with the present invention, the broken lines indicating environmental structure not forming a part of our design;

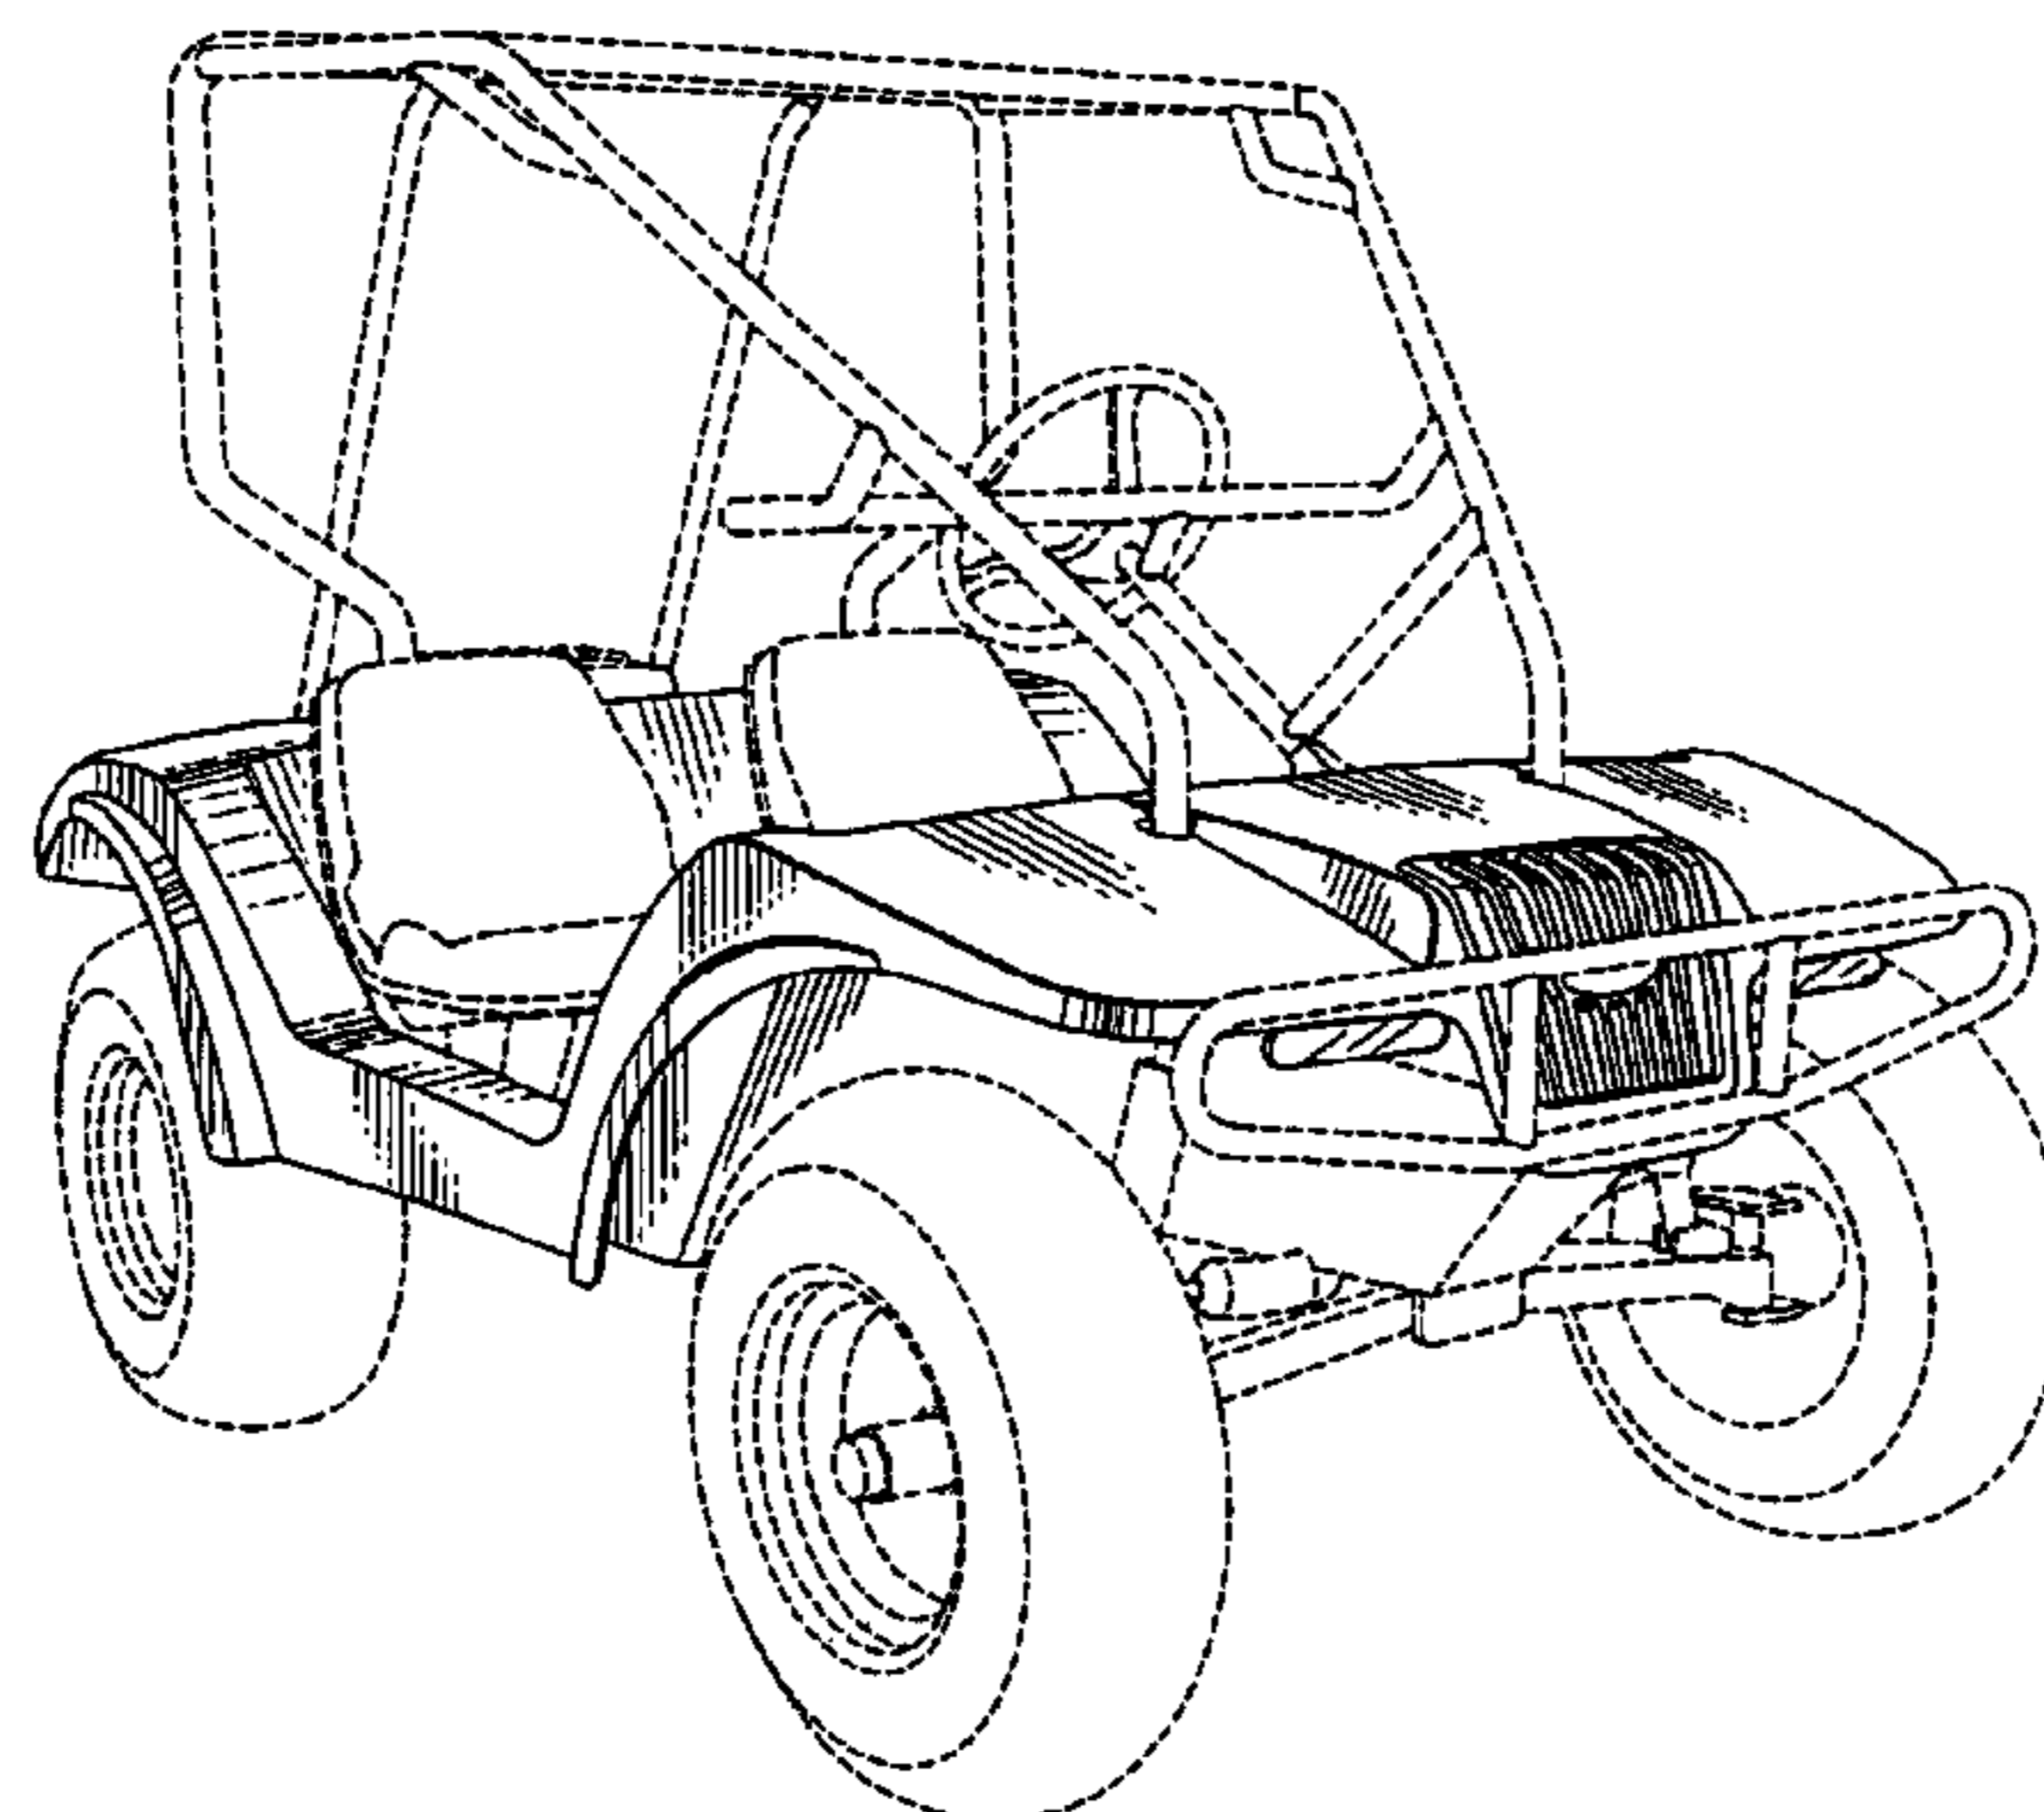

FIG. 2 is a right side perspective view thereof, the broken lines indicating environmental structure not forming a part of our design;

FIG. 3 is a front perspective view thereof, the broken lines indicating environmental structure not forming a part of our design;

FIG. 4 is a rear perspective view thereof, the broken lines indicating environmental structure not forming a part of our design; and,

FIG. 5 is a top perspective view thereof, the broken lines indicating environmental structure not forming a part of our design.
