(57) **CLAIM**

The ornamental design for a two-way speaker, as shown and described.

DESCRIPTION

The present invention is related to a concurrently-filed design application as identified by U.S. patent application Ser. No. 29/173,082, entitled "Dual Voice Speaker".

The single view shown is a front view of the two-way speaker showing my new design.

The side and rear portions of the two-way speaker form no part of the claimed design.

The broken line showing is for illustrative purposes only and forms no part of the claimed design.
