(57) **CLAIM**

I claim the ornamental design for a jacket, as shown and described.

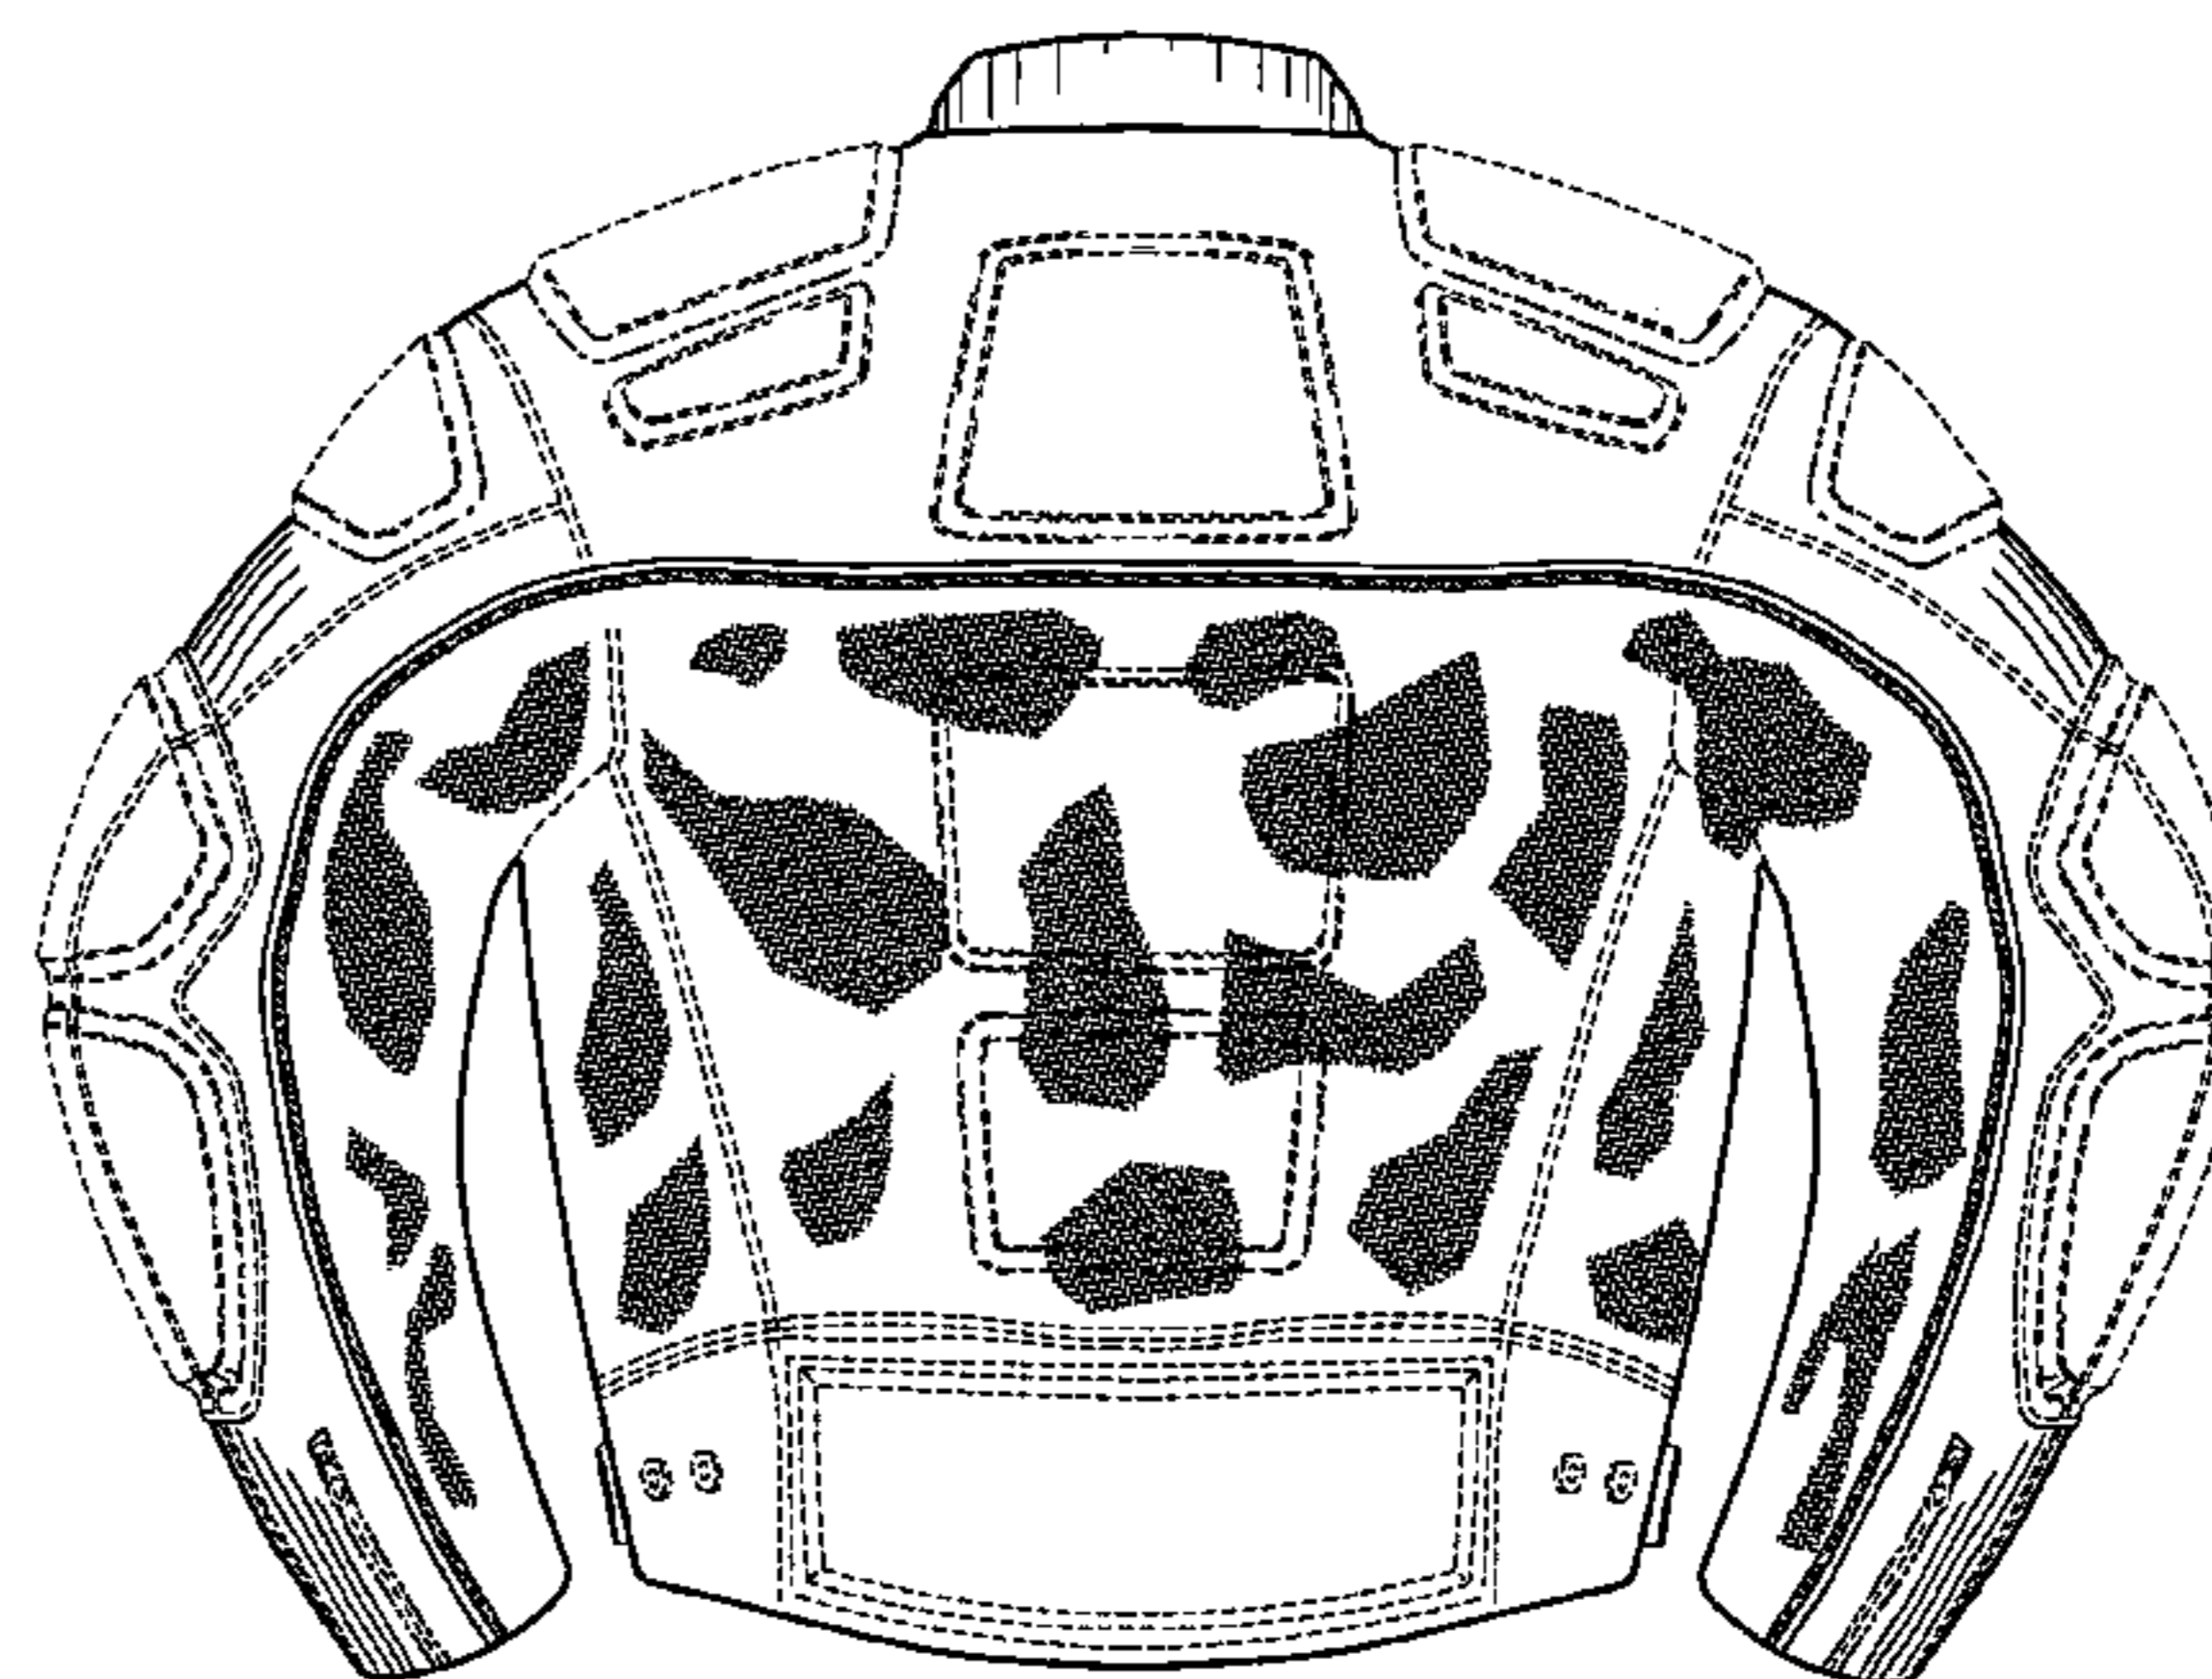

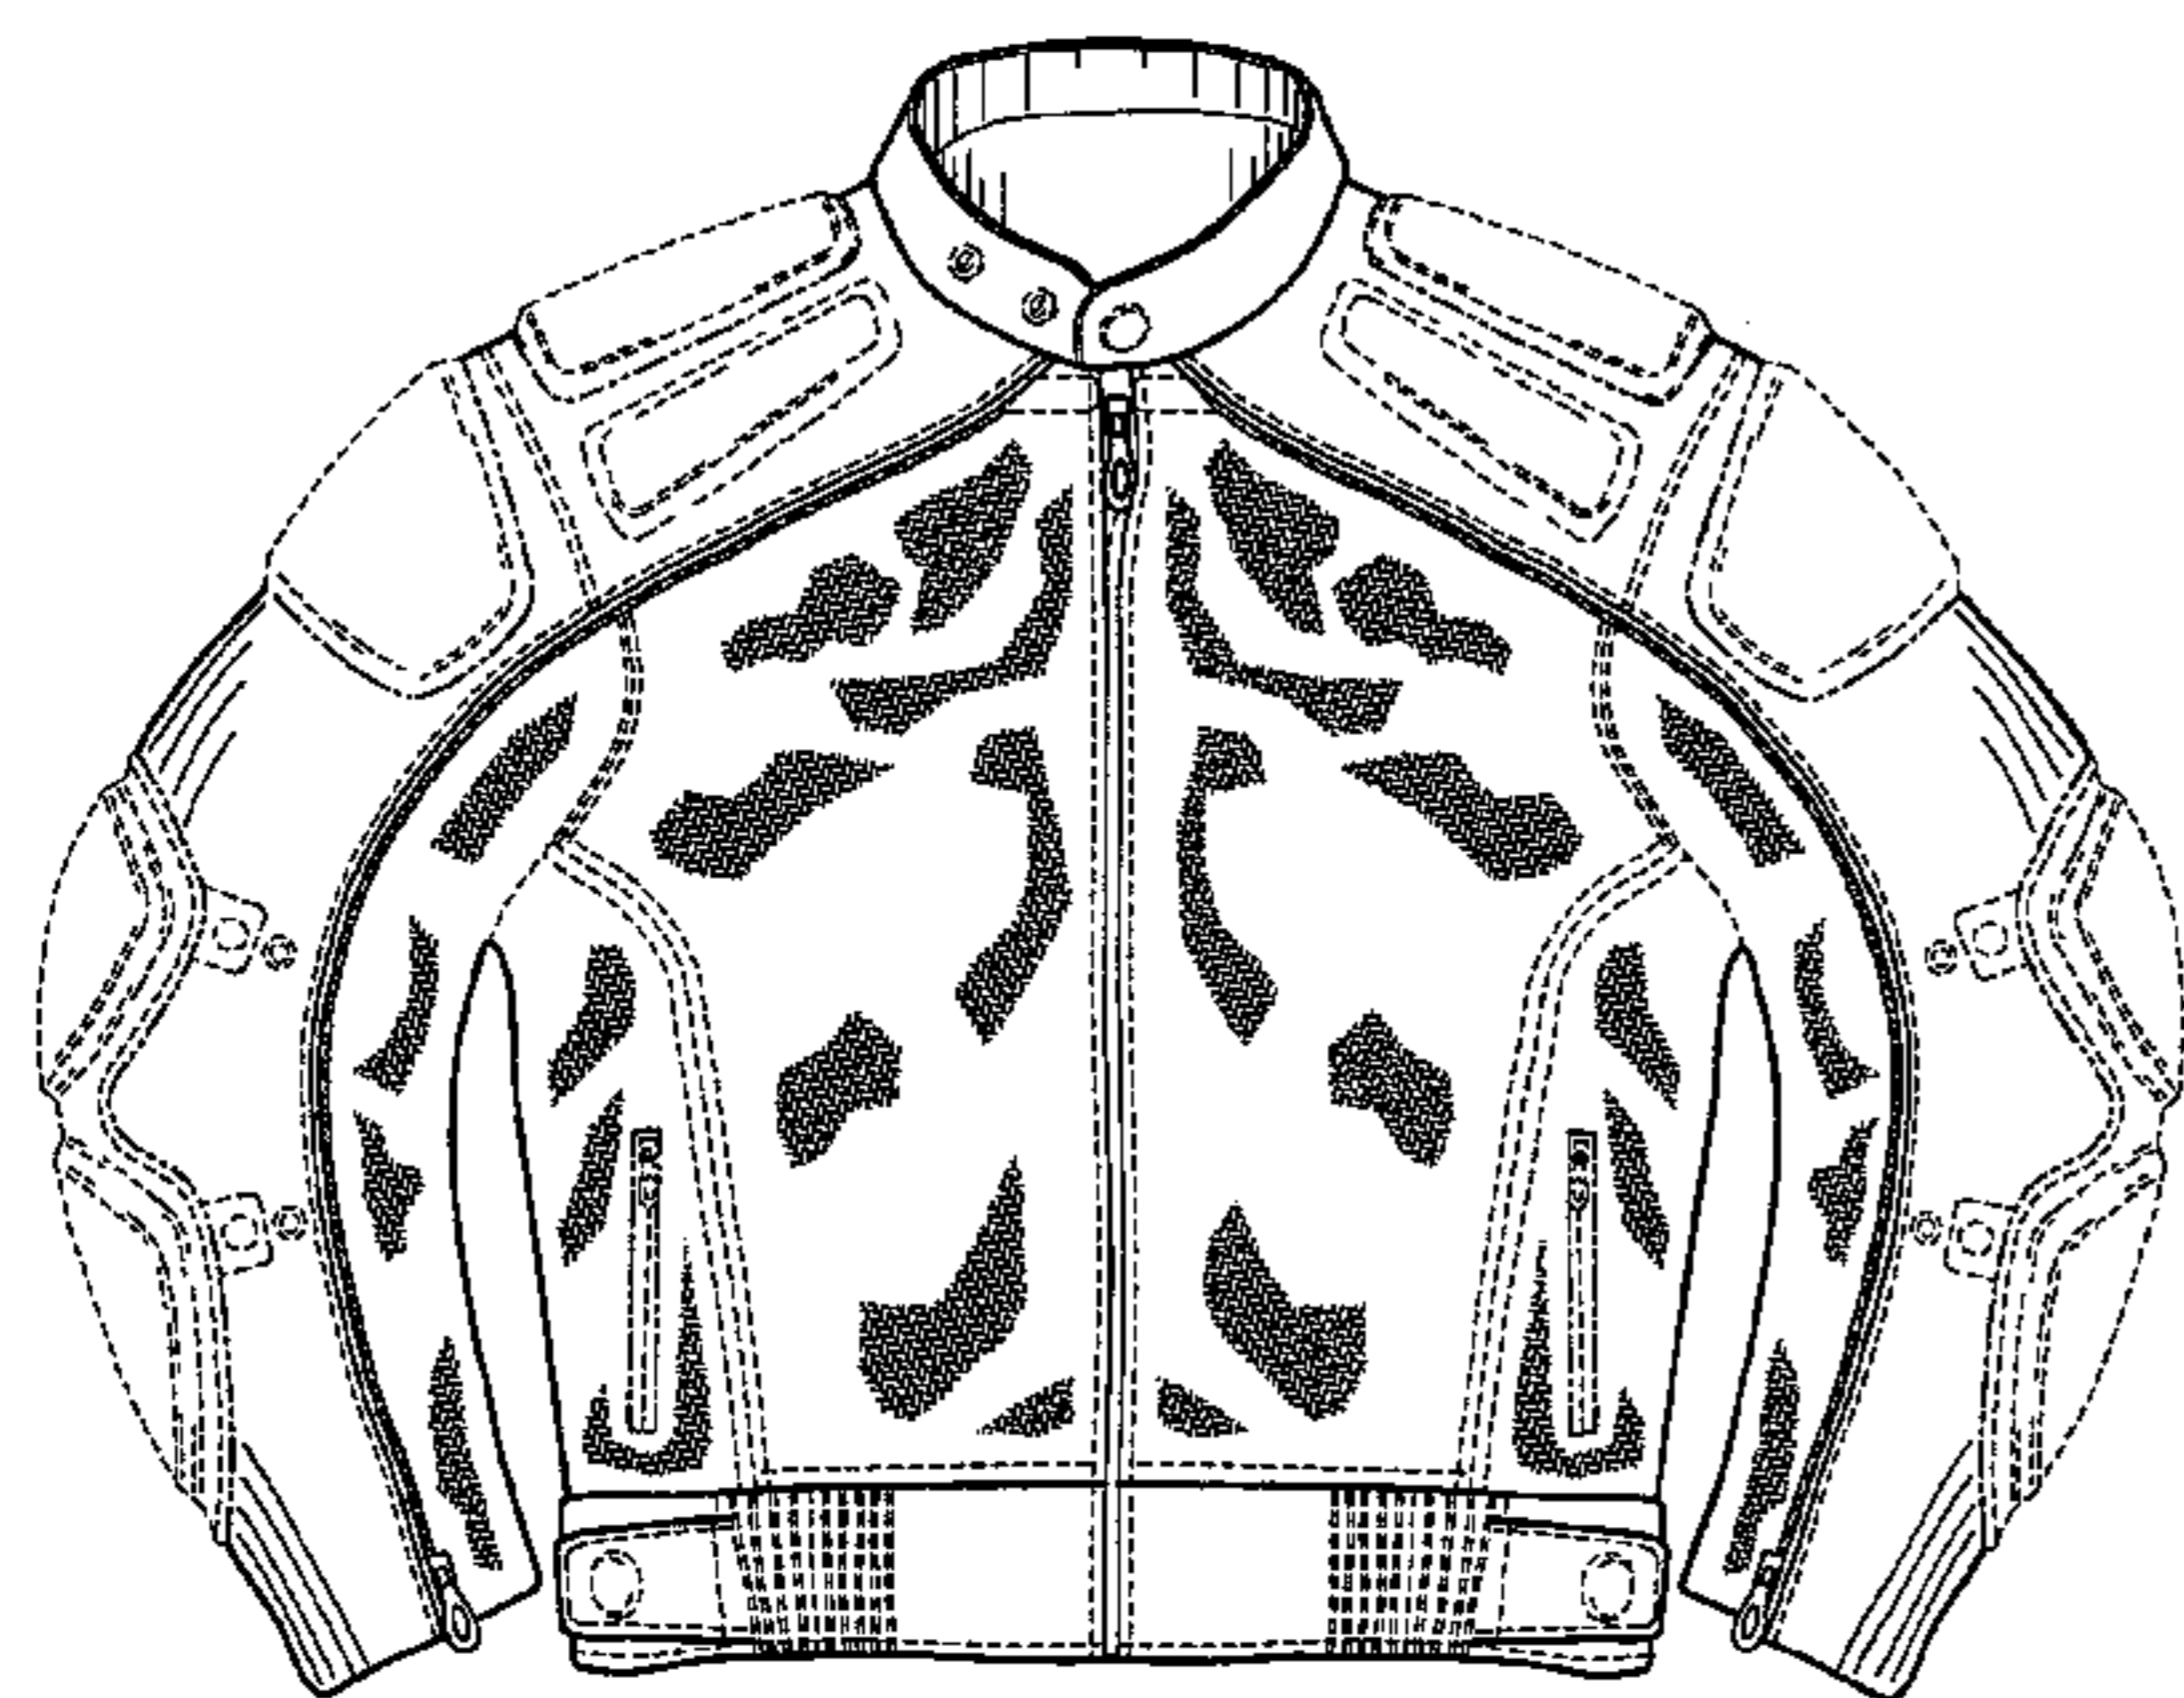

DESCRIPTION

FIG. 1 is a front elevational view of a jacket showing a zipper system on a front section of each sleeve, showing my new design; and,

FIG. 2 is a rear elevational view thereof.

The mesh pattern samples along the lower torso and bottom sleeve segments are understood to continue across the surfaces. The outermost double dot-dash lines around the padded areas on the shoulders and sleeves form the interior boundaries of the design. The broken lines symbolizing stitching as well as the remainder of the broken lines on the surface of the jacket, illustrate portions of the design that form no part of the claim.
