(57) **CLAIM**

The ornamental design for a gaming device having multiple symbol displays, as shown and described herein.

DESCRIPTION

FIG. 1 is a front perspective view of the multiple symbol displays for a gaming device of our new design, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 2 is a front view of the display having multiple symbol displays for a gaming device of a design of our new design illustrated in FIG. 1, that portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 3 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 4 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 5 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 6 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 7 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 8 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only; and,

FIG. 9 is a front perspective view of an alternative embodiment of the multiple symbol displays for a gaming device of our new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.
