(57) **CLAIM**

The ornamental design for an inline control module for communications headset adapter, as shown and described.

DESCRIPTION

This application is related to co-pending U.S. Design patent application Ser. No. 29/195,428, entitled "Communications Headset Adapter" filed concurrently herewith.

FIG. **1** is an upper front right perspective view of an inline control module for a communications headset adapter, the broken line drawings of a connecting cord and a connector are for illustrative purposes only and form no part of the claimed design.

FIG. **2** is a lower back perspective view of the inline control module.

FIG. **3** is a front elevational view of the inline control module.

FIG. **4** is a left side elevational view of the inline control module, the right side elevational view of the inline control module being a mirror image thereof.

FIG. **5** is a rear elevational view of the inline control module.

FIG. **6** is a top plan view of the inline control module; and,

FIG. **7** is a bottom plan view of the inline control module.
