(57) **CLAIM**

The ornamental design for a load back rest for a material handling vehicle, as shown and described.

**DESCRIPTION**

In a preferred embodiment, the nature of this product is as a load back rest useful in connection with a material handling vehicle.

FIG. 1 is a top, right, front perspective view of a load back rest for a material handling vehicle embodying our new design;

FIG. 2 is a front elevational view of the load back rest shown in FIG. 1;

FIG. 3 is right side elevational view of the load back rest shown in FIG. 1;

FIG. 4 is a top plan view of the load back rest shown in FIG. 1;

FIG. 5 is a bottom plan view of the load back rest shown in FIG. 1;

FIG. 6 is a top, right, front perspective view of a second embodiment of a load back rest for a material handling vehicle embodying our new design;

FIG. 7 is a front elevational view of the load back rest shown in FIG. 6;

FIG. 8 is right side elevational view of the load back rest shown in FIG. 6;

FIG. 9 is a top plan view of the load back rest shown in FIG. 6;

FIG. 10 is a bottom plan view of the load back rest shown in FIG. 6;

FIG. 11 is a top, right, front perspective view of a third embodiment of a load back rest for a material handling vehicle embodying our new design;

FIG. 12 is a front elevational view of the load back rest shown in FIG. 11;

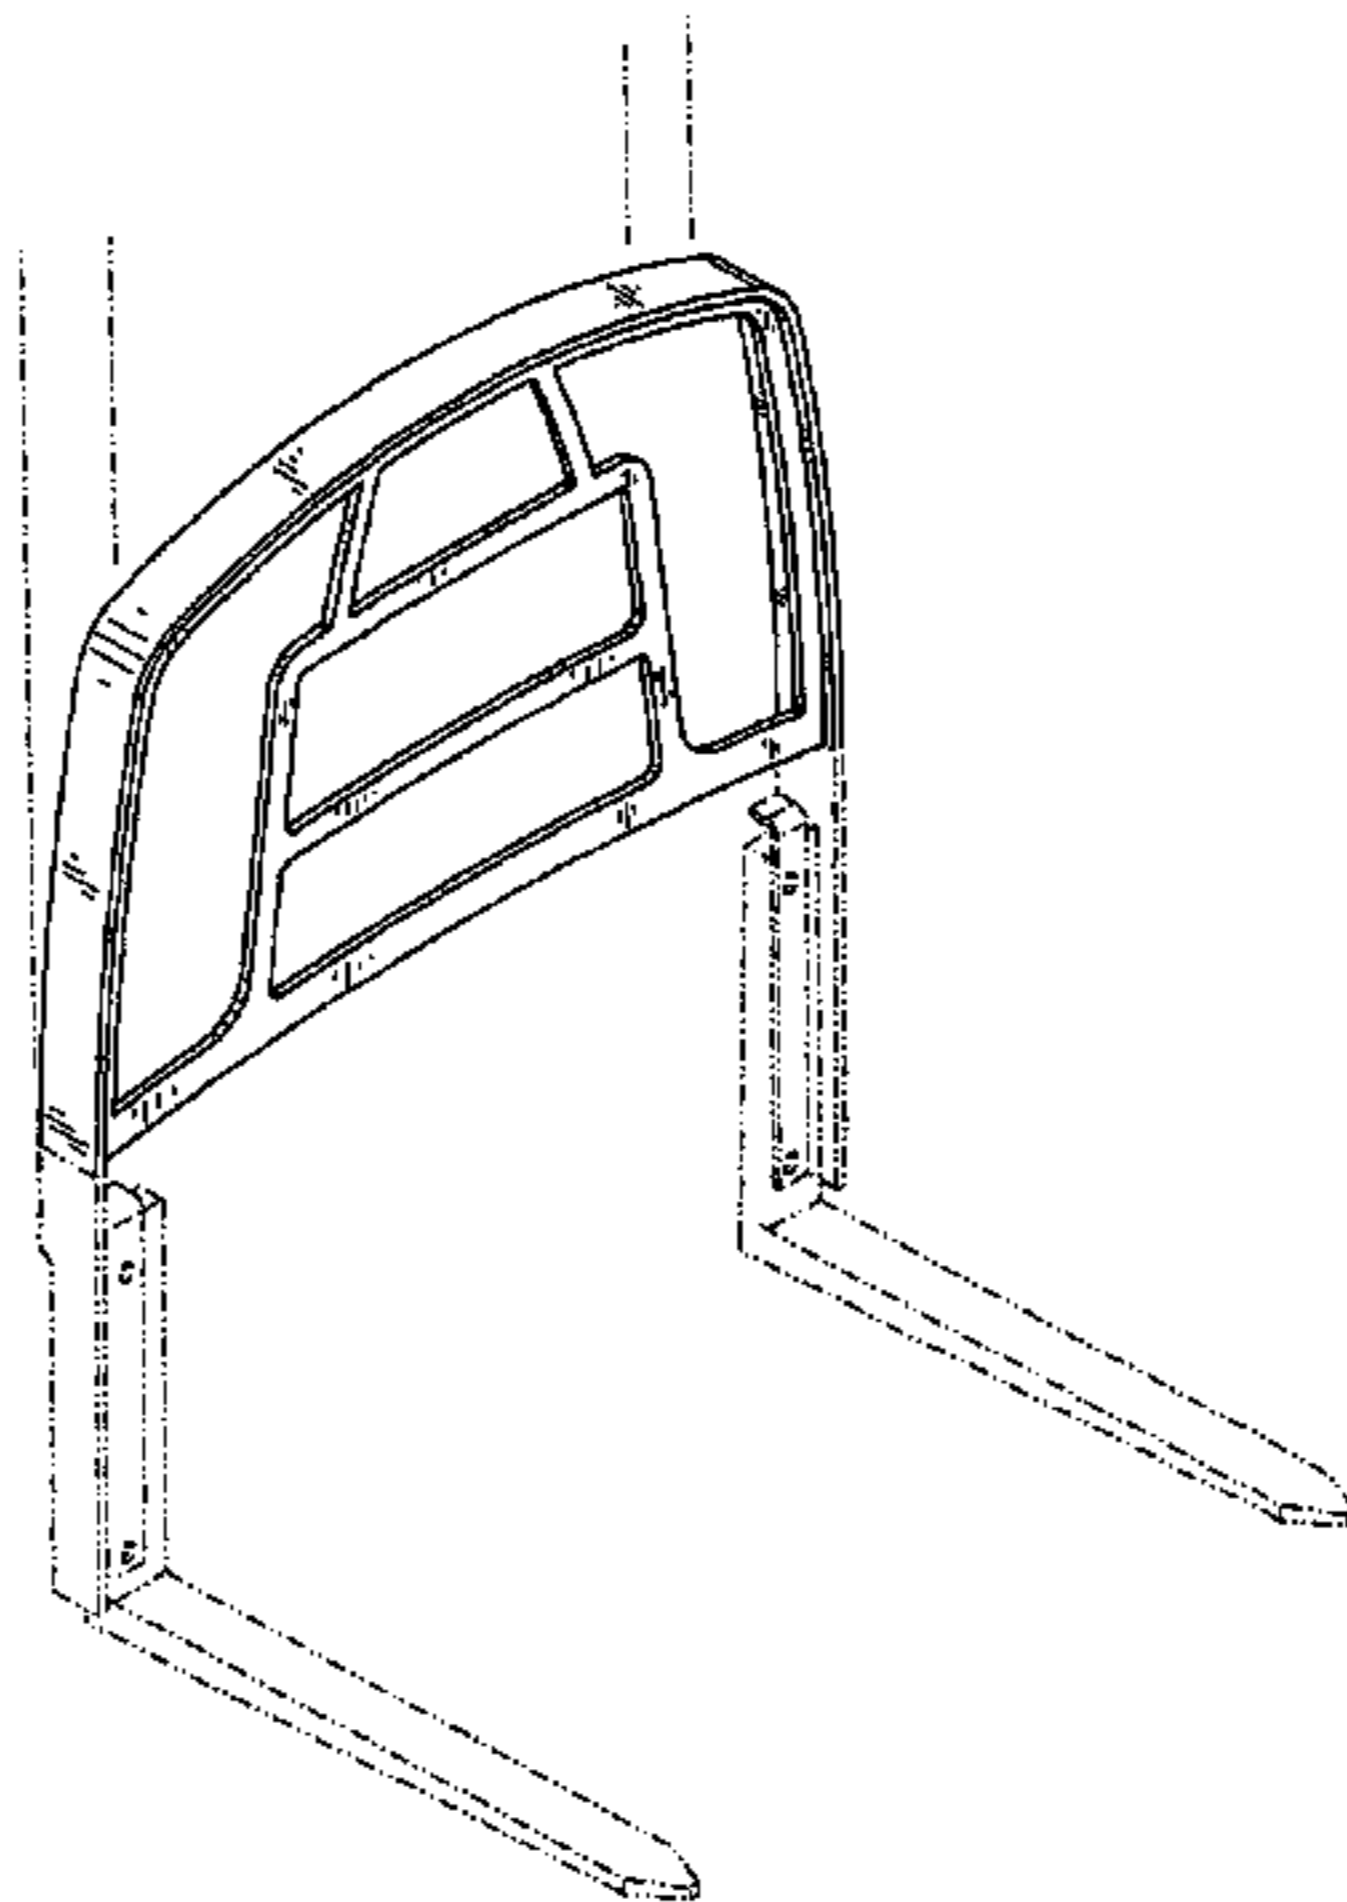

FIG. 13 is right side elevational view of the load back rest shown in FIG. 11;

FIG. 14 is a top plan view of the load back rest shown in FIG. 11; and,

FIG. 15 is a bottom plan view of the load back rest shown in FIG. 11.

The broken line representations of portions of the load back rest and material handling vehicle in FIGS. 1-15, are for the purpose of illustration only, and form no part of the claimed design.
