(57) **CLAIM**

We claim the ornamental design for a retractable multi-positional sun shade with split center to accommodate rear-view mirror, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a retractable multi-positional sun shade with split center to accommodate rear-view mirror showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is an end elevational view thereof, the elevational view of the opposing end being identical thereto; and,

FIG. 7 is a perspective view showing the retractable multi-positional sun shade with split center to accommodate rear-view mirror in use; the broken lines depict environmental structure for illustrative purposes only and form no part of the claimed design.

The random pattern of shading shown in FIGS. 1, 2, 5 and 7 is understood to be repeated uniformly throughout the surface on which it is applied.
