(57) **CLAIM**

The ornamental design for a belt-worn carrier for a folding tool, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view from the upper left front of a belt-worn carrier for a folding tool including our design, with a folding cover flap shown in its open, extended position and wherein pieces of hook-and-loop fastener material shown outlined by broken lines are included merely as illustrative of one possible fastening arrangement for such a carrier and do not form a part of the design claimed herein; FIG. 2 is a front elevational view of the belt-worn carrier for a folding tool shown in FIG. 1; FIG. 3 is a right side elevational view thereof, the left side elevational view thereof being a mirror image of FIG. 3; FIG. 4 is a rear side elevational view thereof; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; and, FIG. 7 is an isometric view from the upper left front thereof, showing the carrier with its cover flap folded down into a closed configuration of the carrier.
