(57) **CLAIM**

The ornamental design for a board mount connector, as shown and described.

DESCRIPTION

This article relates to a socket type composite connector having two rows of connector portions for signal and power. FIG. 1 is a front view of the board mount connector of FIG. 1.

FIG. 2 is a rear view of the board mount connector of FIG. 1.

FIG. 3 is a right side view of the board mount connector of FIG. 1.

FIG. 4 is a top side view of the board mount connector of FIG. 1.

FIG. 5 is a bottom side view of the board mount connector of FIG. 1; and,

FIG. 6 is a cross-sectional view taken along line 6—6 of FIG. 1.

The broken line showing the environment is for illustrative purpose only and forms no part of the claimed design.
