(57) **CLAIM**

The ornamental design of a wheeled distance measuring device, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, top and side perspective view of our wheeled distance measuring device design;

FIG. 2 is a front elevation view of our wheeled distance measuring device design;

FIG. 3 is a rear elevation view of our wheeled distance measuring device design;

FIG. 4 is an elevation view of our wheeled distance measuring device design from the same side as in FIG. 1;

FIG. 5 is an elevation view of our wheeled distance measuring device design from the side opposite that in FIG. 4;

FIG. 6 is a plan view of our wheeled distance measuring device design; and,

FIG. 7 is a bottom view of our wheeled distance measuring device design.

The portions of the wheeled distance measuring device shown in dotted lines do not constitute a part of the claimed design.
