(57) **CLAIM**

The ornamental design for a gem pavilion, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a bottom plan view of a gem pavilion showing my new design;

FIG. 2 is a front elevational view thereof, the rear elevational view being identical to the front elevational view;

FIG. 3 is a right side elevational view thereof, the left side elevational view being identical to the right side elevational view; and,

FIG. 4 is a front right corner elevational view thereof, the rear left corner elevational view being identical to the front right corner elevational view and the rear right and front left front corner elevational views being mirror images of the front right corner elevational view.

It being understood that the broken lines are for exemplary illustrative purposes only and form no part of the claimed design.
