(57) **CLAIM**

The ornamental design for a surgical table patient transport board, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the surgical patient transport board showing the new narrow design width to length ratio of approximately 4:10, the opposite side being identical thereto.

FIG. 2 is a side view of the surgical patient transport board, the opposite side being identical thereto.

FIG. 3 is a end top view of the surgical patient transport board; and,

FIG. 4 is a end bottom view of the surgical patient transport board. The only difference to the end top view is the lack of handle.
