(57) **CLAIM**

The ornamental design for a brake disc for motorcycles, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of brake disc for motorcycles according to a first embodiment of my design; the rear elevational view being a mirror image of that shown; FIG. 2 is a left side elevational view thereof; the right side elevational view being a mirror image of that shown; FIG. 3 is a top plan view thereof; the bottom plan view being a mirror image of that shown; FIG. 4 is a front elevational view of brake disc for motorcycles according to a second embodiment of my design; the rear elevational view being a mirror image of that shown; FIG. 5 is a left side elevational view thereof; the right side elevational view being a mirror image of that shown; FIG. 6 is a top plan view thereof; and, FIG. 7 is a bottom plan view thereof.

My new design is directed to an outer peripheral surface of the brake disc shown in solid lines in FIGS. 1–7. The broken lines showing other features of the design are for illustrative purposes only and form no part of the claimed design.
