* cited by examiner

FIG. 2 shows the front view of the design according to the above mentioned embodiment of the invention. The back view being a mirror image of the front view. FIG. 3 shows a bottom view of the design according to the above mentioned embodiment of the invention. FIG. 4 shows a left side view of the design according to the above mentioned embodiment of the invention. The right side view being a mirror image of the left side view. FIG. 5 shows a sectional view of the design according to the above mentioned embodiment of the invention taken along the line 5—5 as shown in FIG. 2.

FIG. 6 shows a perspective view of the design according to the above mentioned embodiment of the invention; and, FIG. 7 shows the front view of the design according to the above mentioned embodiment in use.

The broken lines show environmental structure, are for illustrative purposes only, and form no part of the claimed design.

The views as shown in FIGS. 1–3 and 6 are broken indicating indefinite length.
