FIG. 1 is a perspective view taken from the front and top of the front light assemblies for an all terrain vehicle of our design shown in their ordinary environment, mounted on an all terrain vehicle;

FIG. 2 is an isolated front view of the speedometer pod light assembly of the front light assemblies for an all terrain vehicle of our design;

FIG. 3 is a right side view thereof, the opposite side being a mirror image;

FIG. 4 is a back side view thereof;

FIG. 5 is a top view thereof;

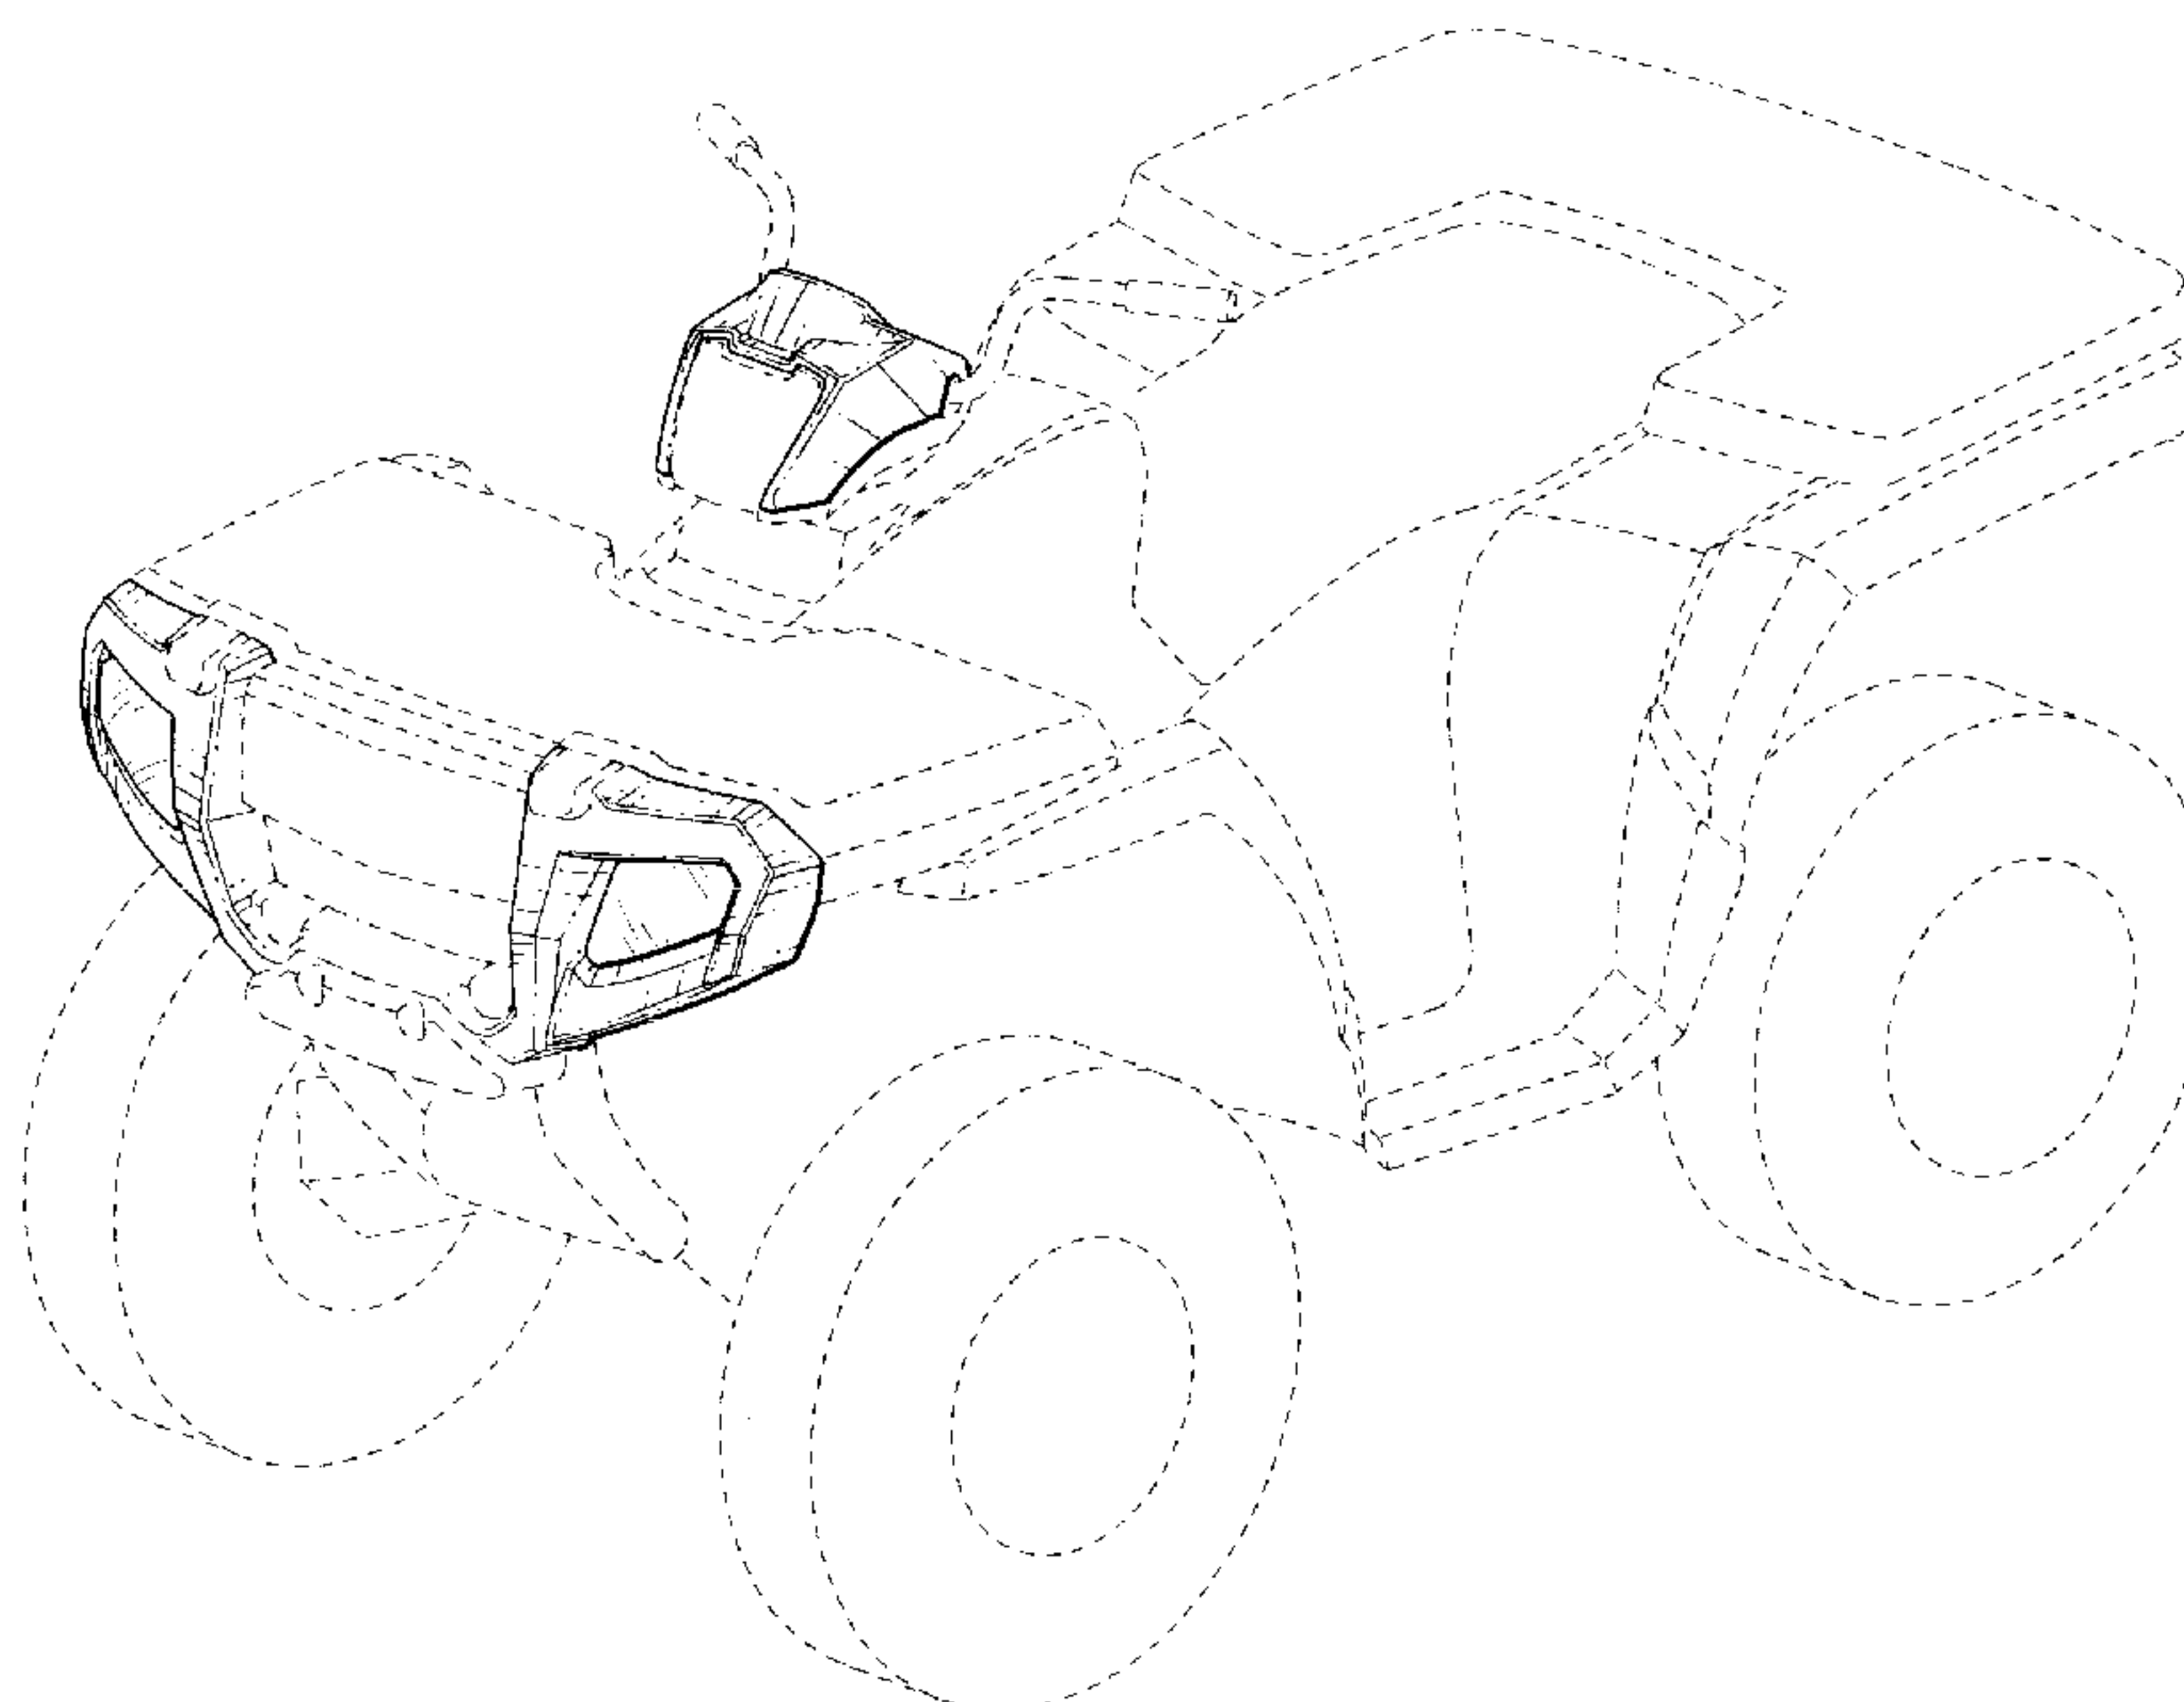

FIG. 6 is an isolated right side view of the front fascia light assemblies of the front light assemblies for an all terrain vehicle, the opposite side being a mirror image;

FIG. 7 is a front view thereof; and,

FIG. 8 is a top view thereof.

Where included, broken lines showing environment or structure are for illustrative purposes only and form no part of the claimed design. The bottom and rear views of the front fascia light assemblies of the front light assemblies for an all terrain vehicle and the bottom view of the pod assembly of the front light assemblies for an all terrain vehicle do not constitute elements of the ornamental design claimed and are therefore not shown.
