(57)**CLAIM**

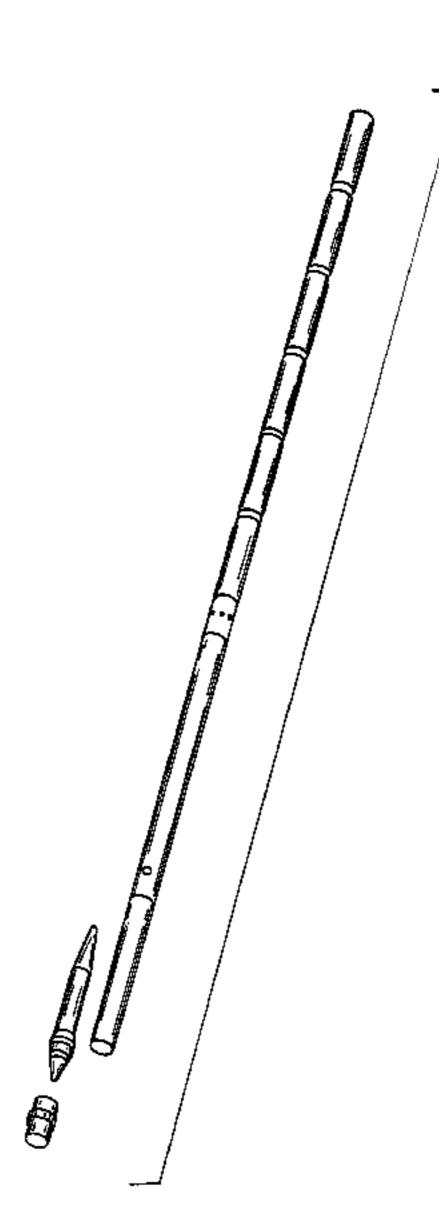

The ornamental design for a bar lamp, as shown and described.

DESCRIPTION

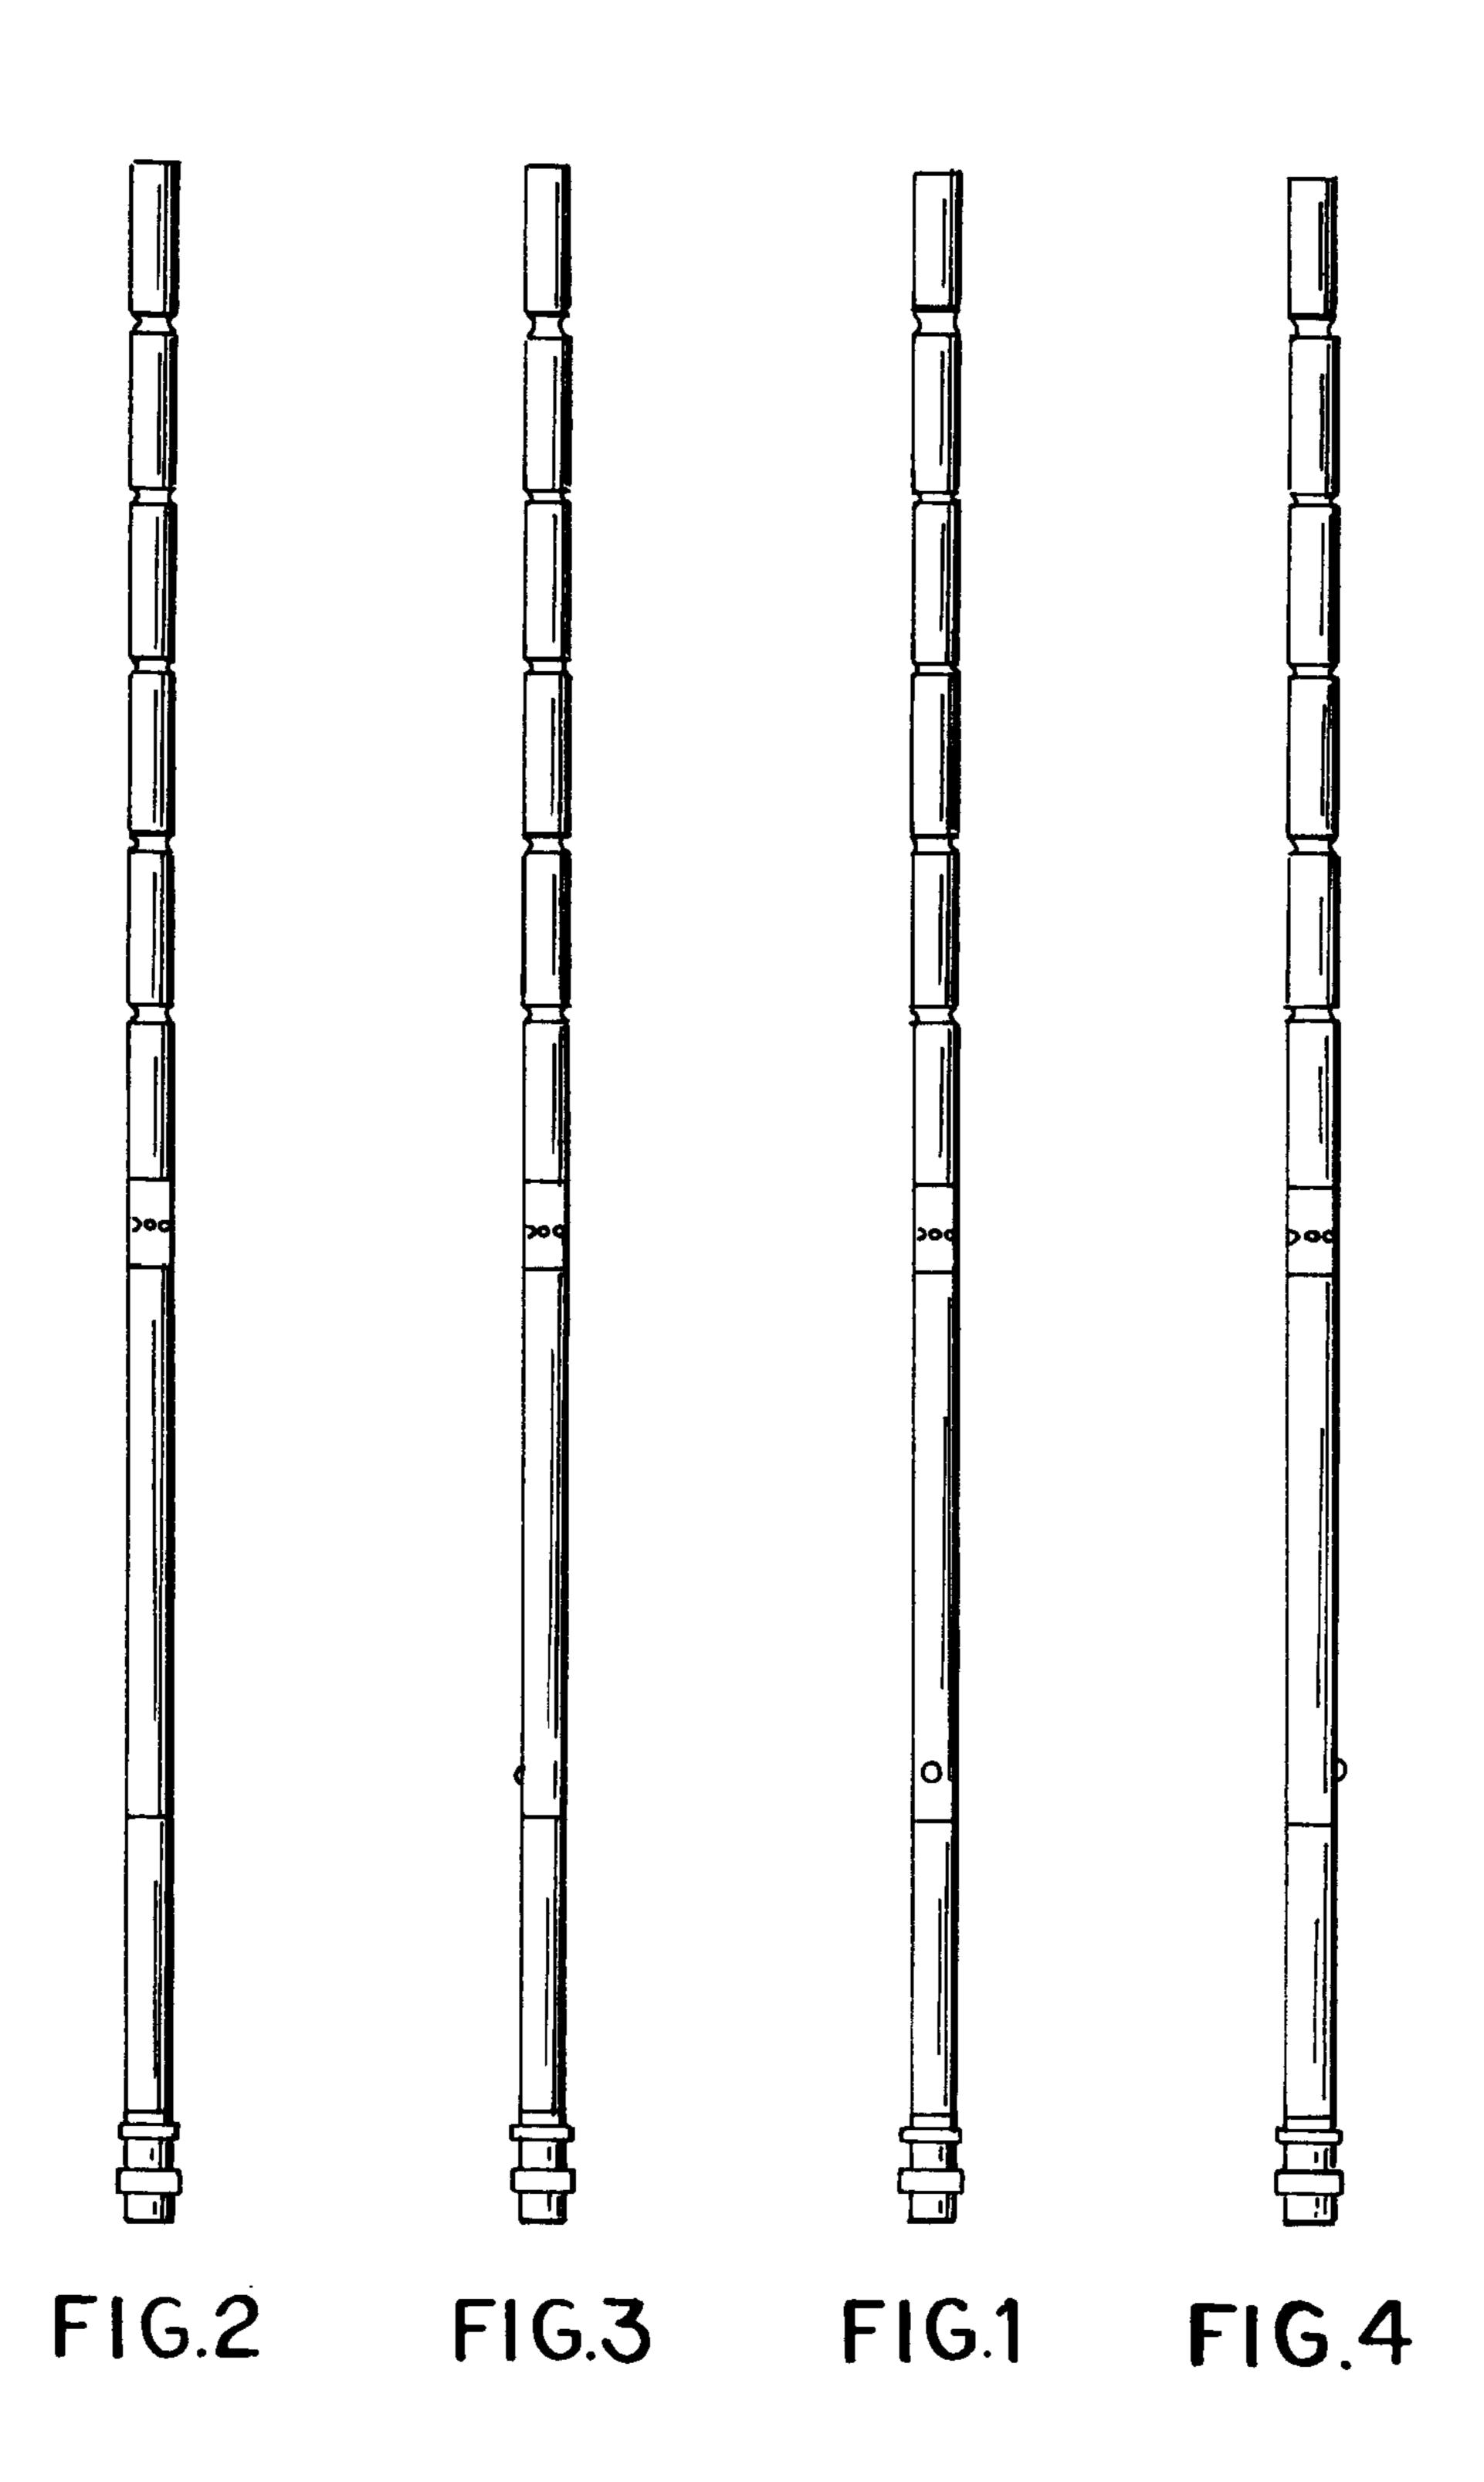

FIG. 1 is a front elevational view of a bar lamp showing my new design;

- FIG. 2 is a rear elevational view thereof;
- FIG. 3 is a right side elevational view thereof;
- FIG. 4 is a left side elevational view thereof;
- FIG. 5 is a bottom plan view thereof;
- FIG. 6 is a top plan view thereof;
- FIG. 7 is an exploded perspective view thereof;
- FIG. 8 is an exploded rear elevational view thereof with the cap and pike unscrewed from the bar;
- FIG. 9 is a right side elevational view thereof, with the bottom portion of the lamp broken away to show the pike and cap in place;
- FIG. 10 is an exploded front elevational view thereof with the cap and pike unscrewed from the bar;
- FIG. 11 is a left side elevational view thereof with the cap broken away;
- FIG. 12 is an exploded top plan view thereof with the cap and pike unscrewed from the bar;
- FIG. 13 is an exploded bottom plan view thereof with the cap and pike unscrewed from the bar;
- FIG. 14 is an exploded rear elevational view thereof with the cap unscrewed from the pike;
- FIG. 15 is a left side elevational view thereof, with the cap broken away to show the pike in place;
- FIG. 16 is an exploded front elevational view thereof with the cap unscrewed from the pike;
- FIG. 17 is an exploded bottom plan view thereof with the cap unscrewed from the pike;
- FIG. 18 is an exploded top plan view thereof with the cap unscrewed from the pike;
- FIG. 19 is a front elevational view thereof with the pike reversed and the cap removed;
- FIG. 20 is a right side elevational view thereof with the cap in place and the pike reversed;
- FIG. 21 is a rear elevational view thereof with the cap removed and the pike reversed; and,
- FIG. 22 is a left side elevational view thereof, with the cap broken away to show the pike in place, but in the reversed position.
