(57) **CLAIM**

The ornamental design for an ammunition magazine coupler, as shown and described.

DESCRIPTION

FIG. 1 is an back right side isometric view of the design of an ammunition magazine coupler of the present invention. FIG. 2 is a top plan view of the ammunition magazine coupler shown in FIG. 1.

FIG. 3 is a bottom plan view of the ammunition magazine coupler shown in FIG. 1.

FIG. 4 is left side elevation view of the ammunition magazine coupler shown in FIG. 1.

FIG. 5 is right side elevation view of the ammunition magazine coupler shown in FIG. 1.

FIG. 6 is a front plan view of the ammunition magazine coupler shown in FIG. 1, holding ammunition magazines.

FIG. 7 is a back plan view of the ammunition magazine coupler in FIG. 1, holding ammunition magazines.

FIG. 8 is a front left side isometric view of the ammunition magazine coupler in FIG. 1, holding ammunition magazines; and,

FIG. 9 is a back right side isometric view of the ammunition magazine coupler in FIG. 1, holding ammunition magazines.

All broken-line illustrations appearing in the drawings are only to show the environment in which the ammunition magazine coupler of the present invention may appear, holding ammunition magazines, and form no part of the claimed design.
