(57) **CLAIM**

The ornamental design for the scissor handles, as shown and described.

DESCRIPTION

FIG. 1 is a first side view of the scissor handle according to the present invention;
 FIG. 2 is a second side view of the scissor handle of FIG. 1, the second side view being opposite the first side view;
 FIG. 3 is a third side view of the scissor handle of FIG. 1, the third side view being perpendicular to the first side view;
 FIG. 4 is a fourth side view of the scissor handle of FIG. 1, the fourth side view being opposite the third side view;
 FIG. 5 is a fifth side view of the scissor handle of FIG. 1, the fifth side view being perpendicular to the first side view;
 FIG. 6 is a sixth side view of the scissor handle of FIG. 1, the sixth side view being opposite the fifth side view;
 FIG. 7 is a perspective view of the scissor handle of FIG. 1 having blades rendered in phantom being in a closed position;
 FIG. 8 is a perspective view of the scissor handle of FIG. 7 with the blades being in an opened position; and,
 FIG. 9 is a perspective view of an alternative embodiment of the scissor handle of FIG. 1 with a second handle being at least partially translucent.
 The broken lines shown on the drawings are for illustrative purposes only and form no part of the claimed design.
