(57) **CLAIM**

The ornamental design for a photofinishing system maintenance cartridge, as shown and described.

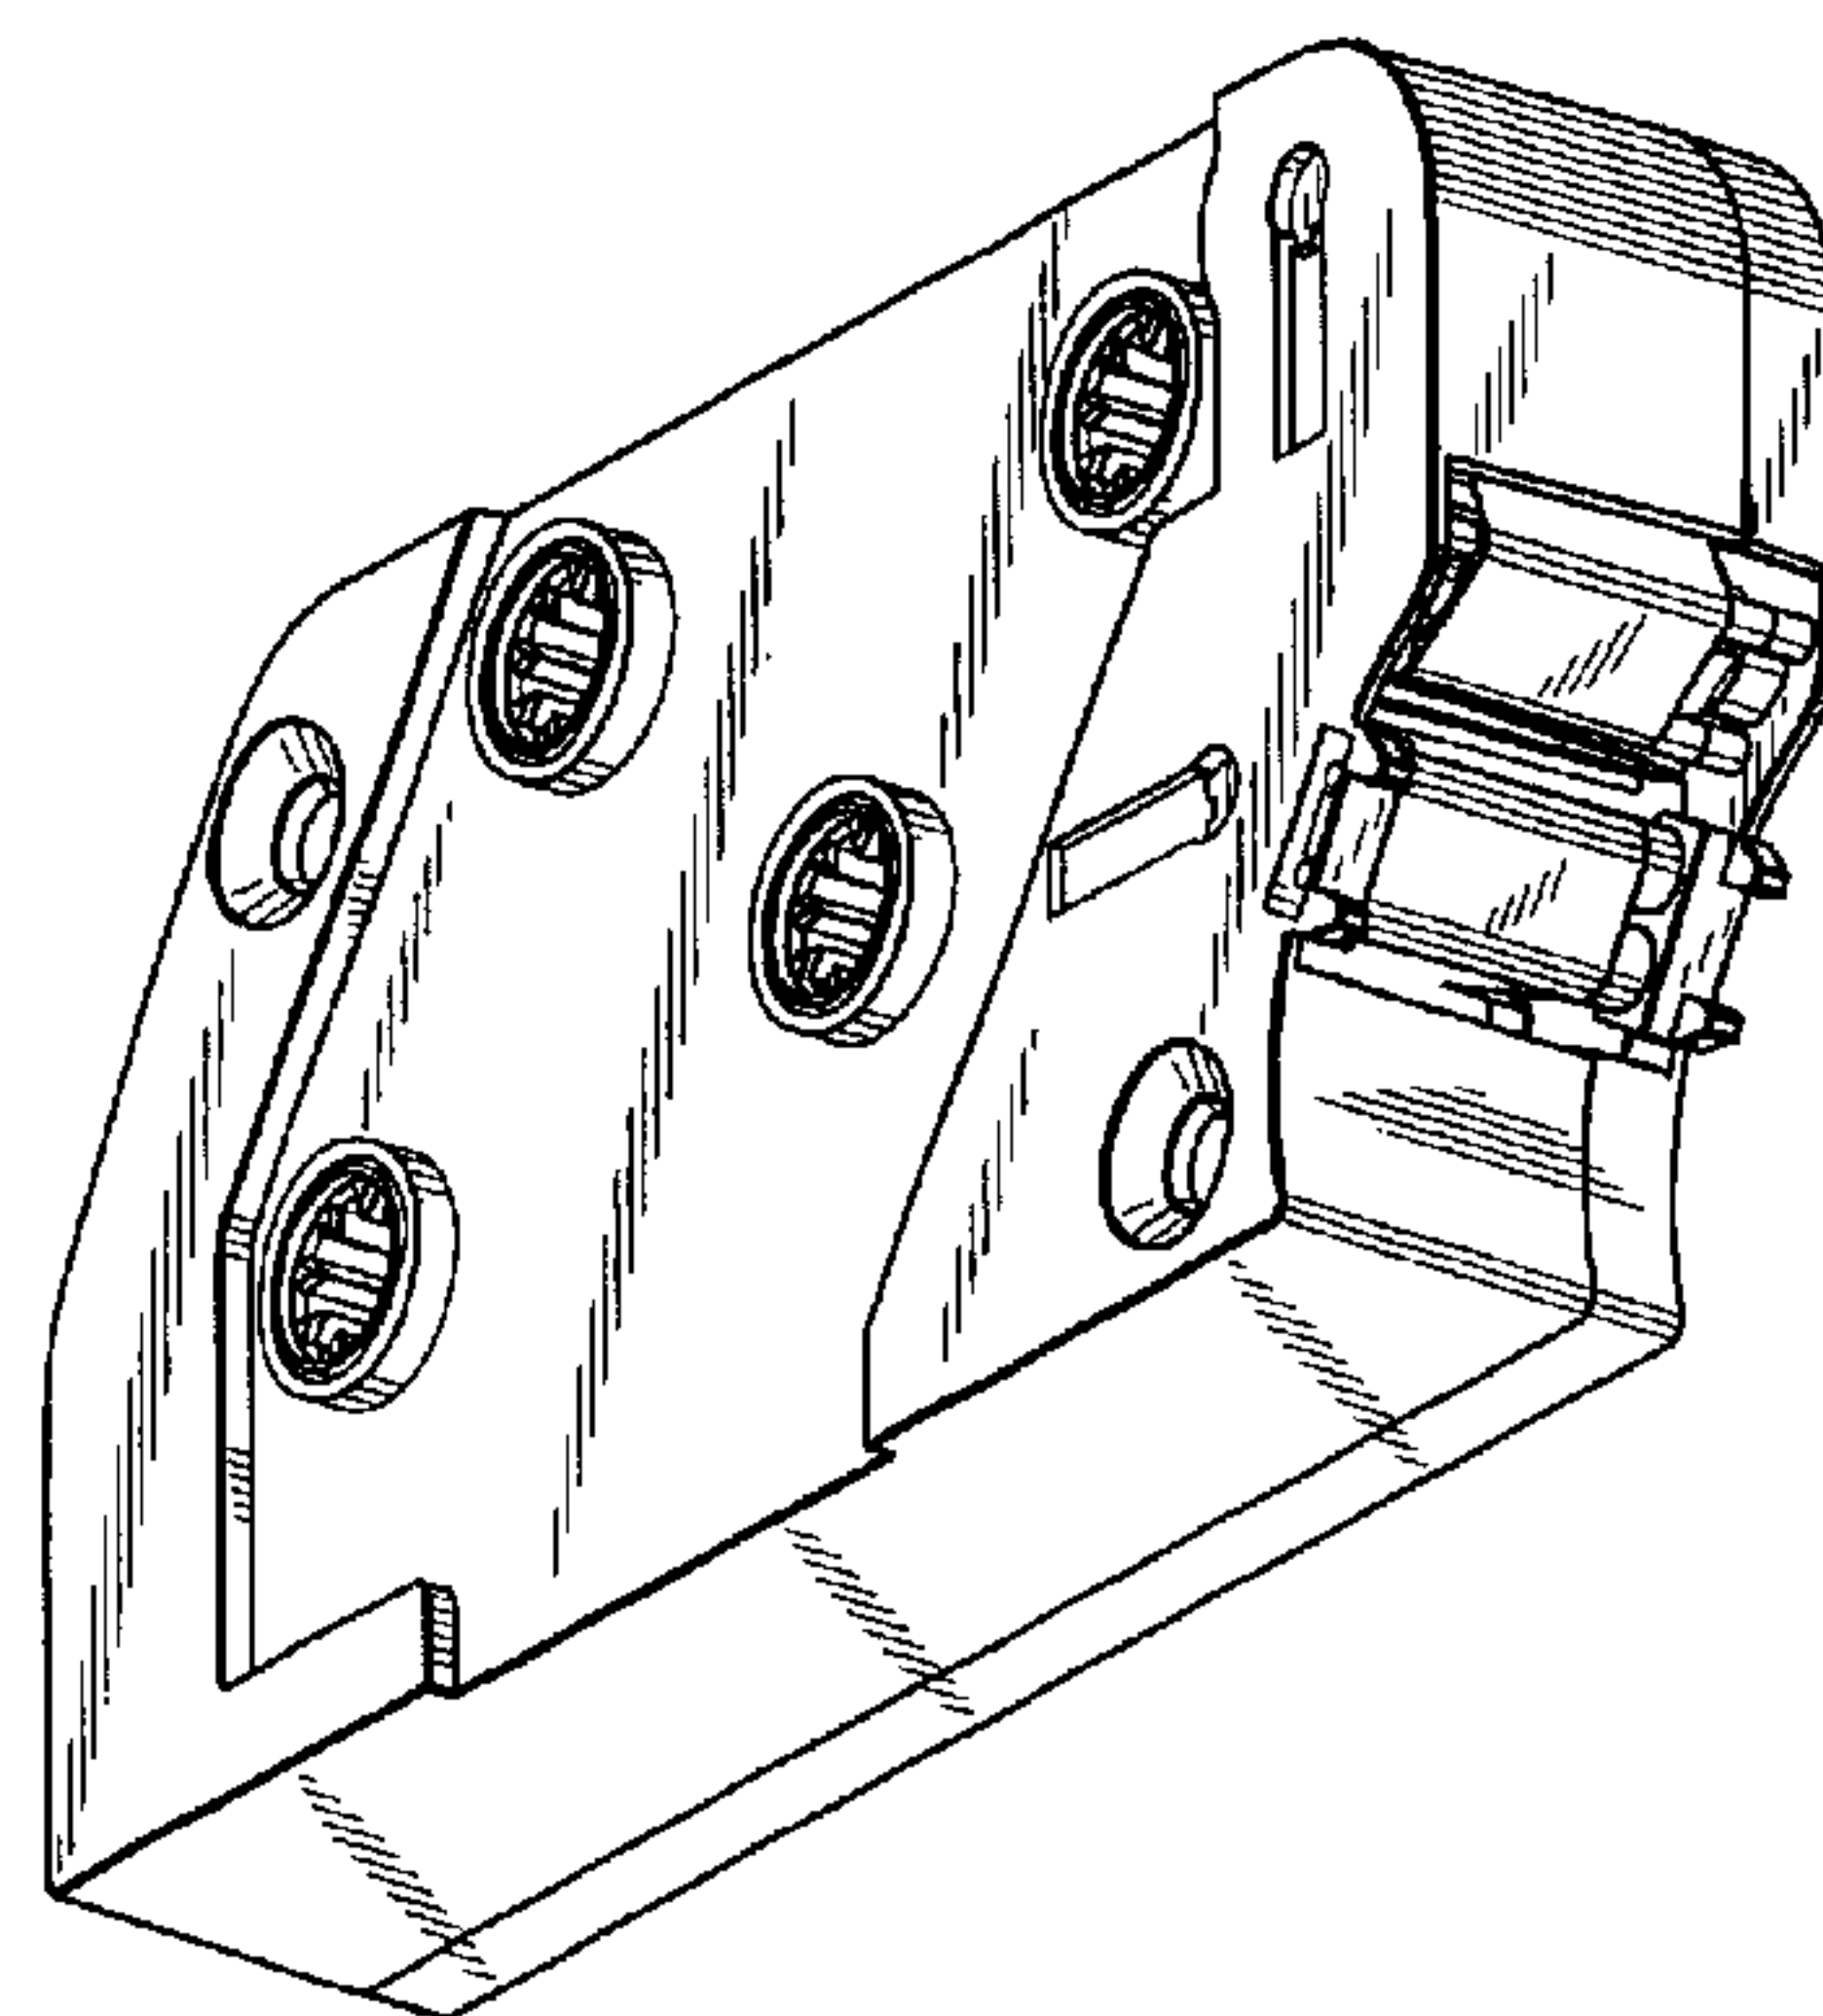

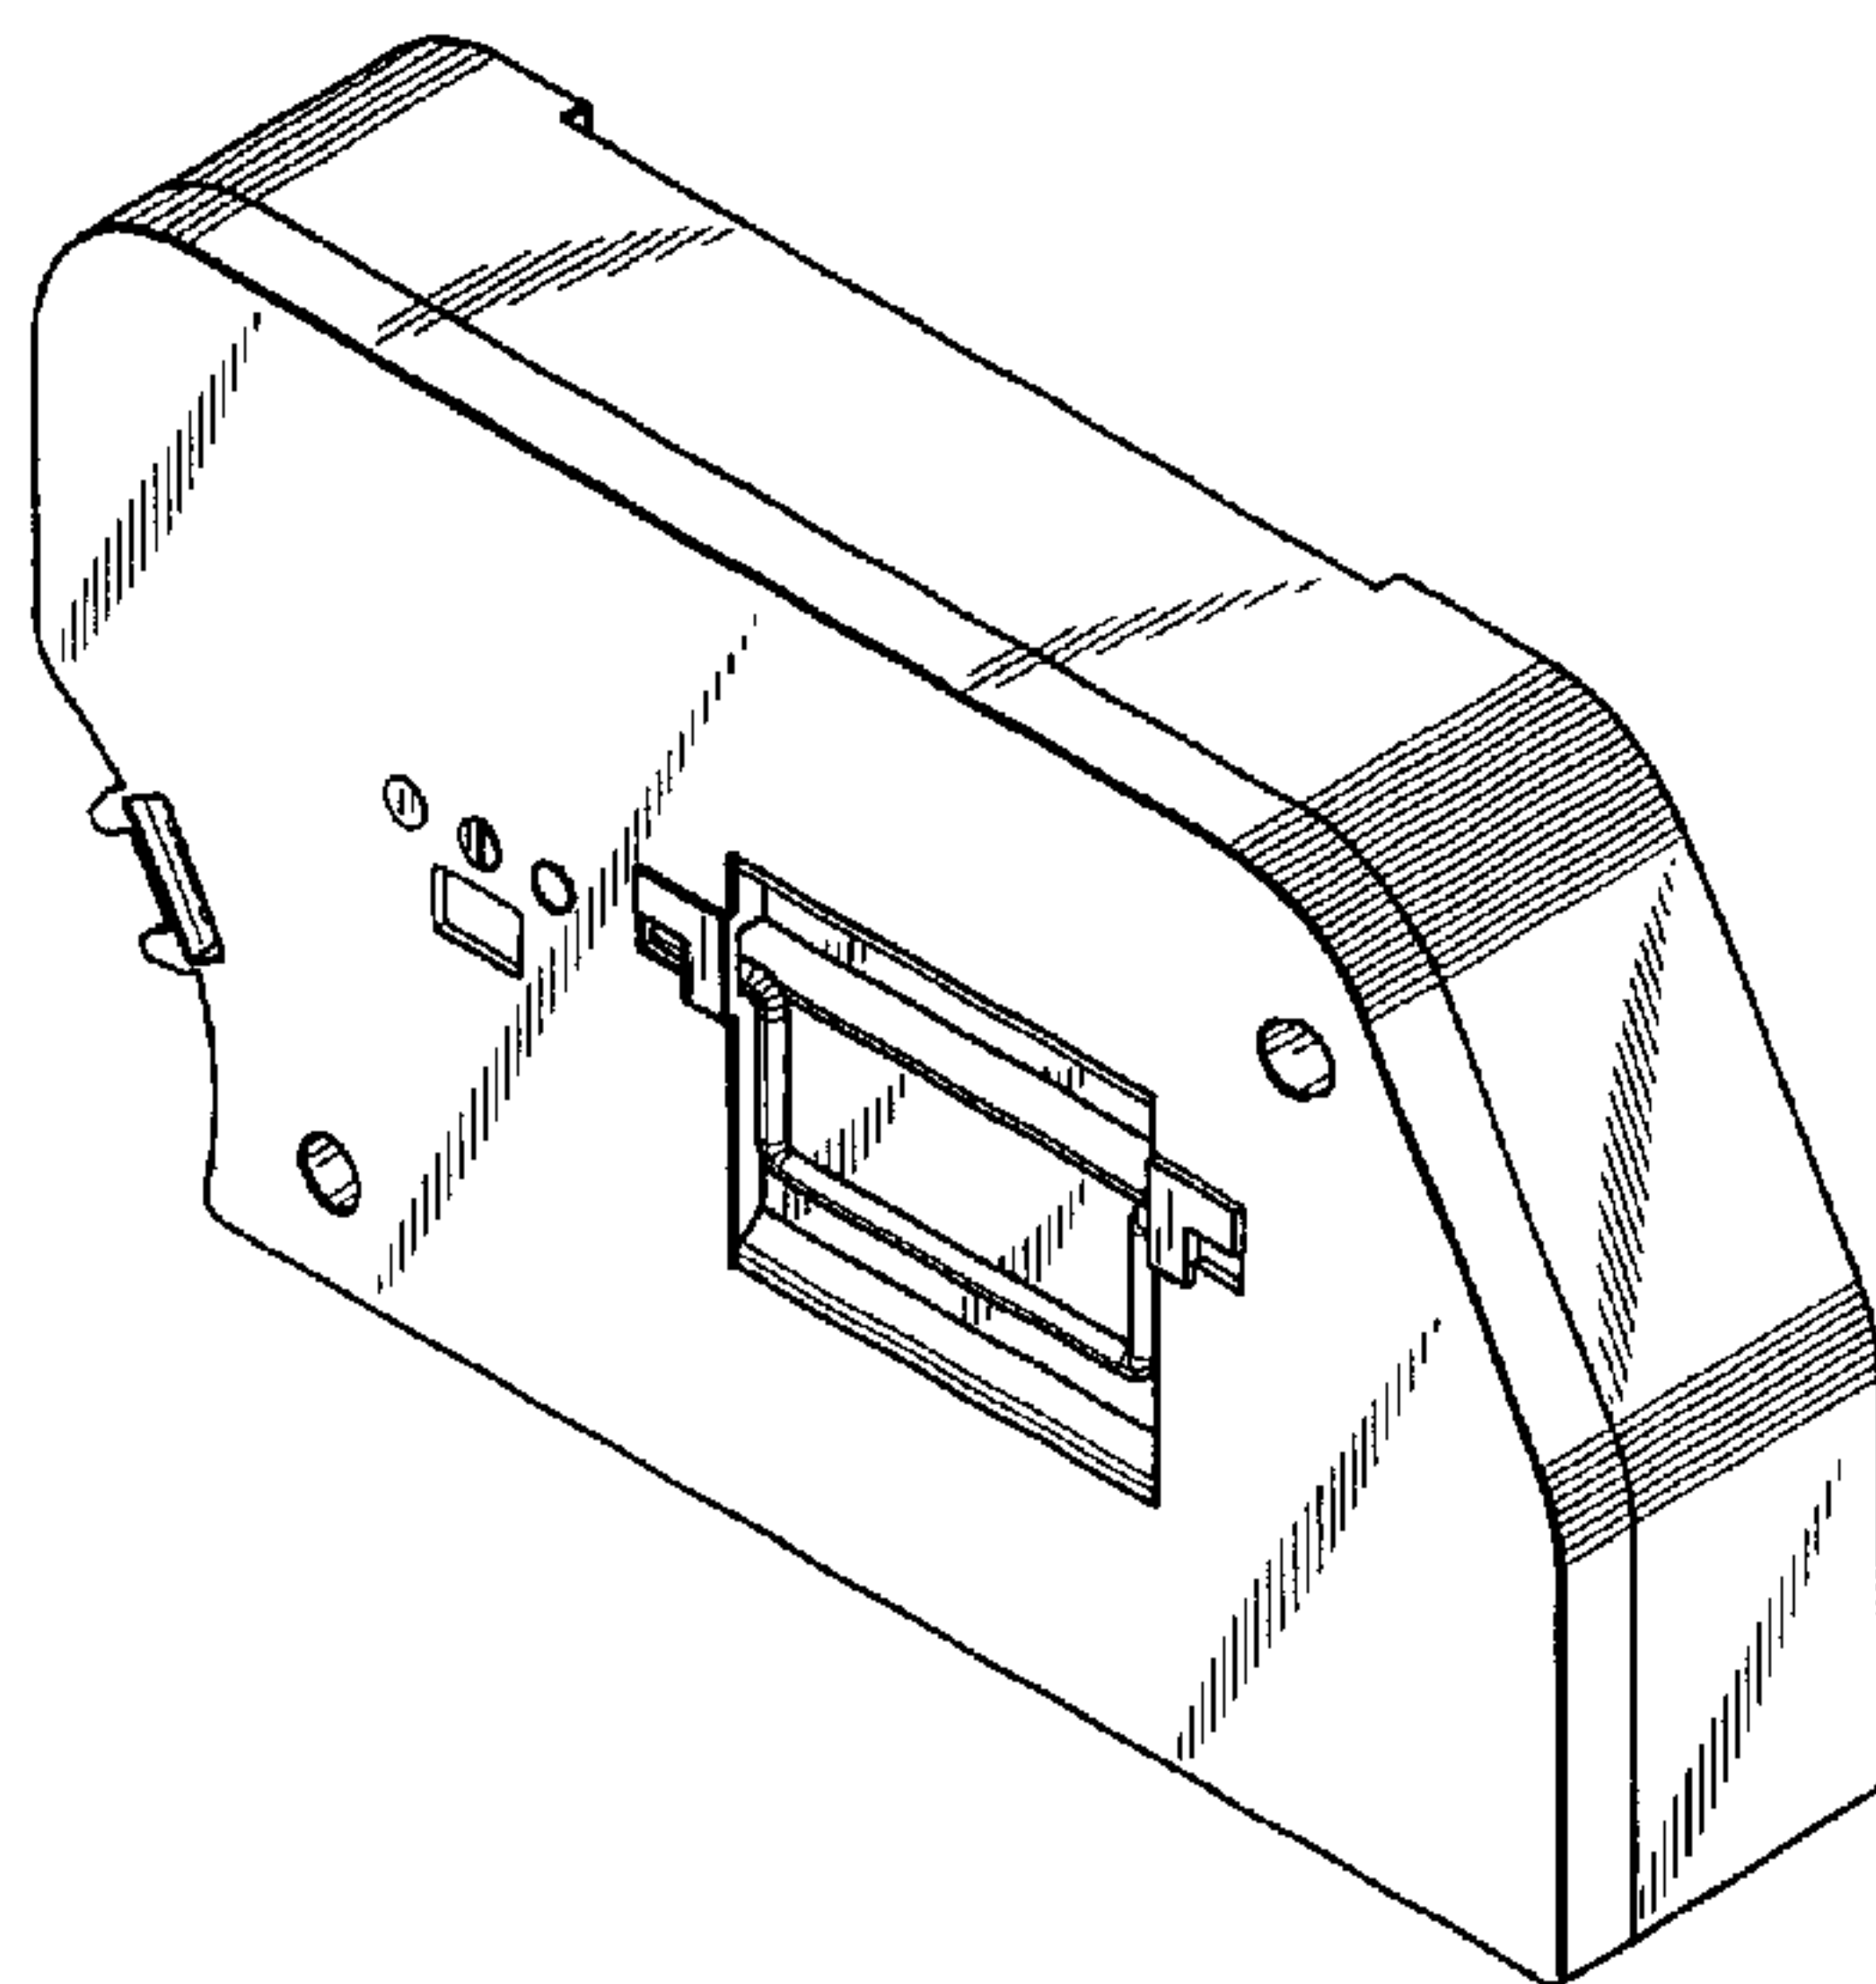

DESCRIPTION

The maintenance cartridge forms an enclosure which can house a cleaning web that is adapted to clean the face of an applicator nozzle of a photofinishing system, and a capping or sealing web that is adapted to seal the face of the applicator nozzle.

FIG. 1 is a front, top and right side perspective view of a photofinishing system maintenance cartridge in accordance with the invention; and,

FIG. 2 is a rear, bottom and left side perspective view of a photofinishing system maintenance cartridge in accordance with the invention.

1 Claim, 2 Drawing Sheets

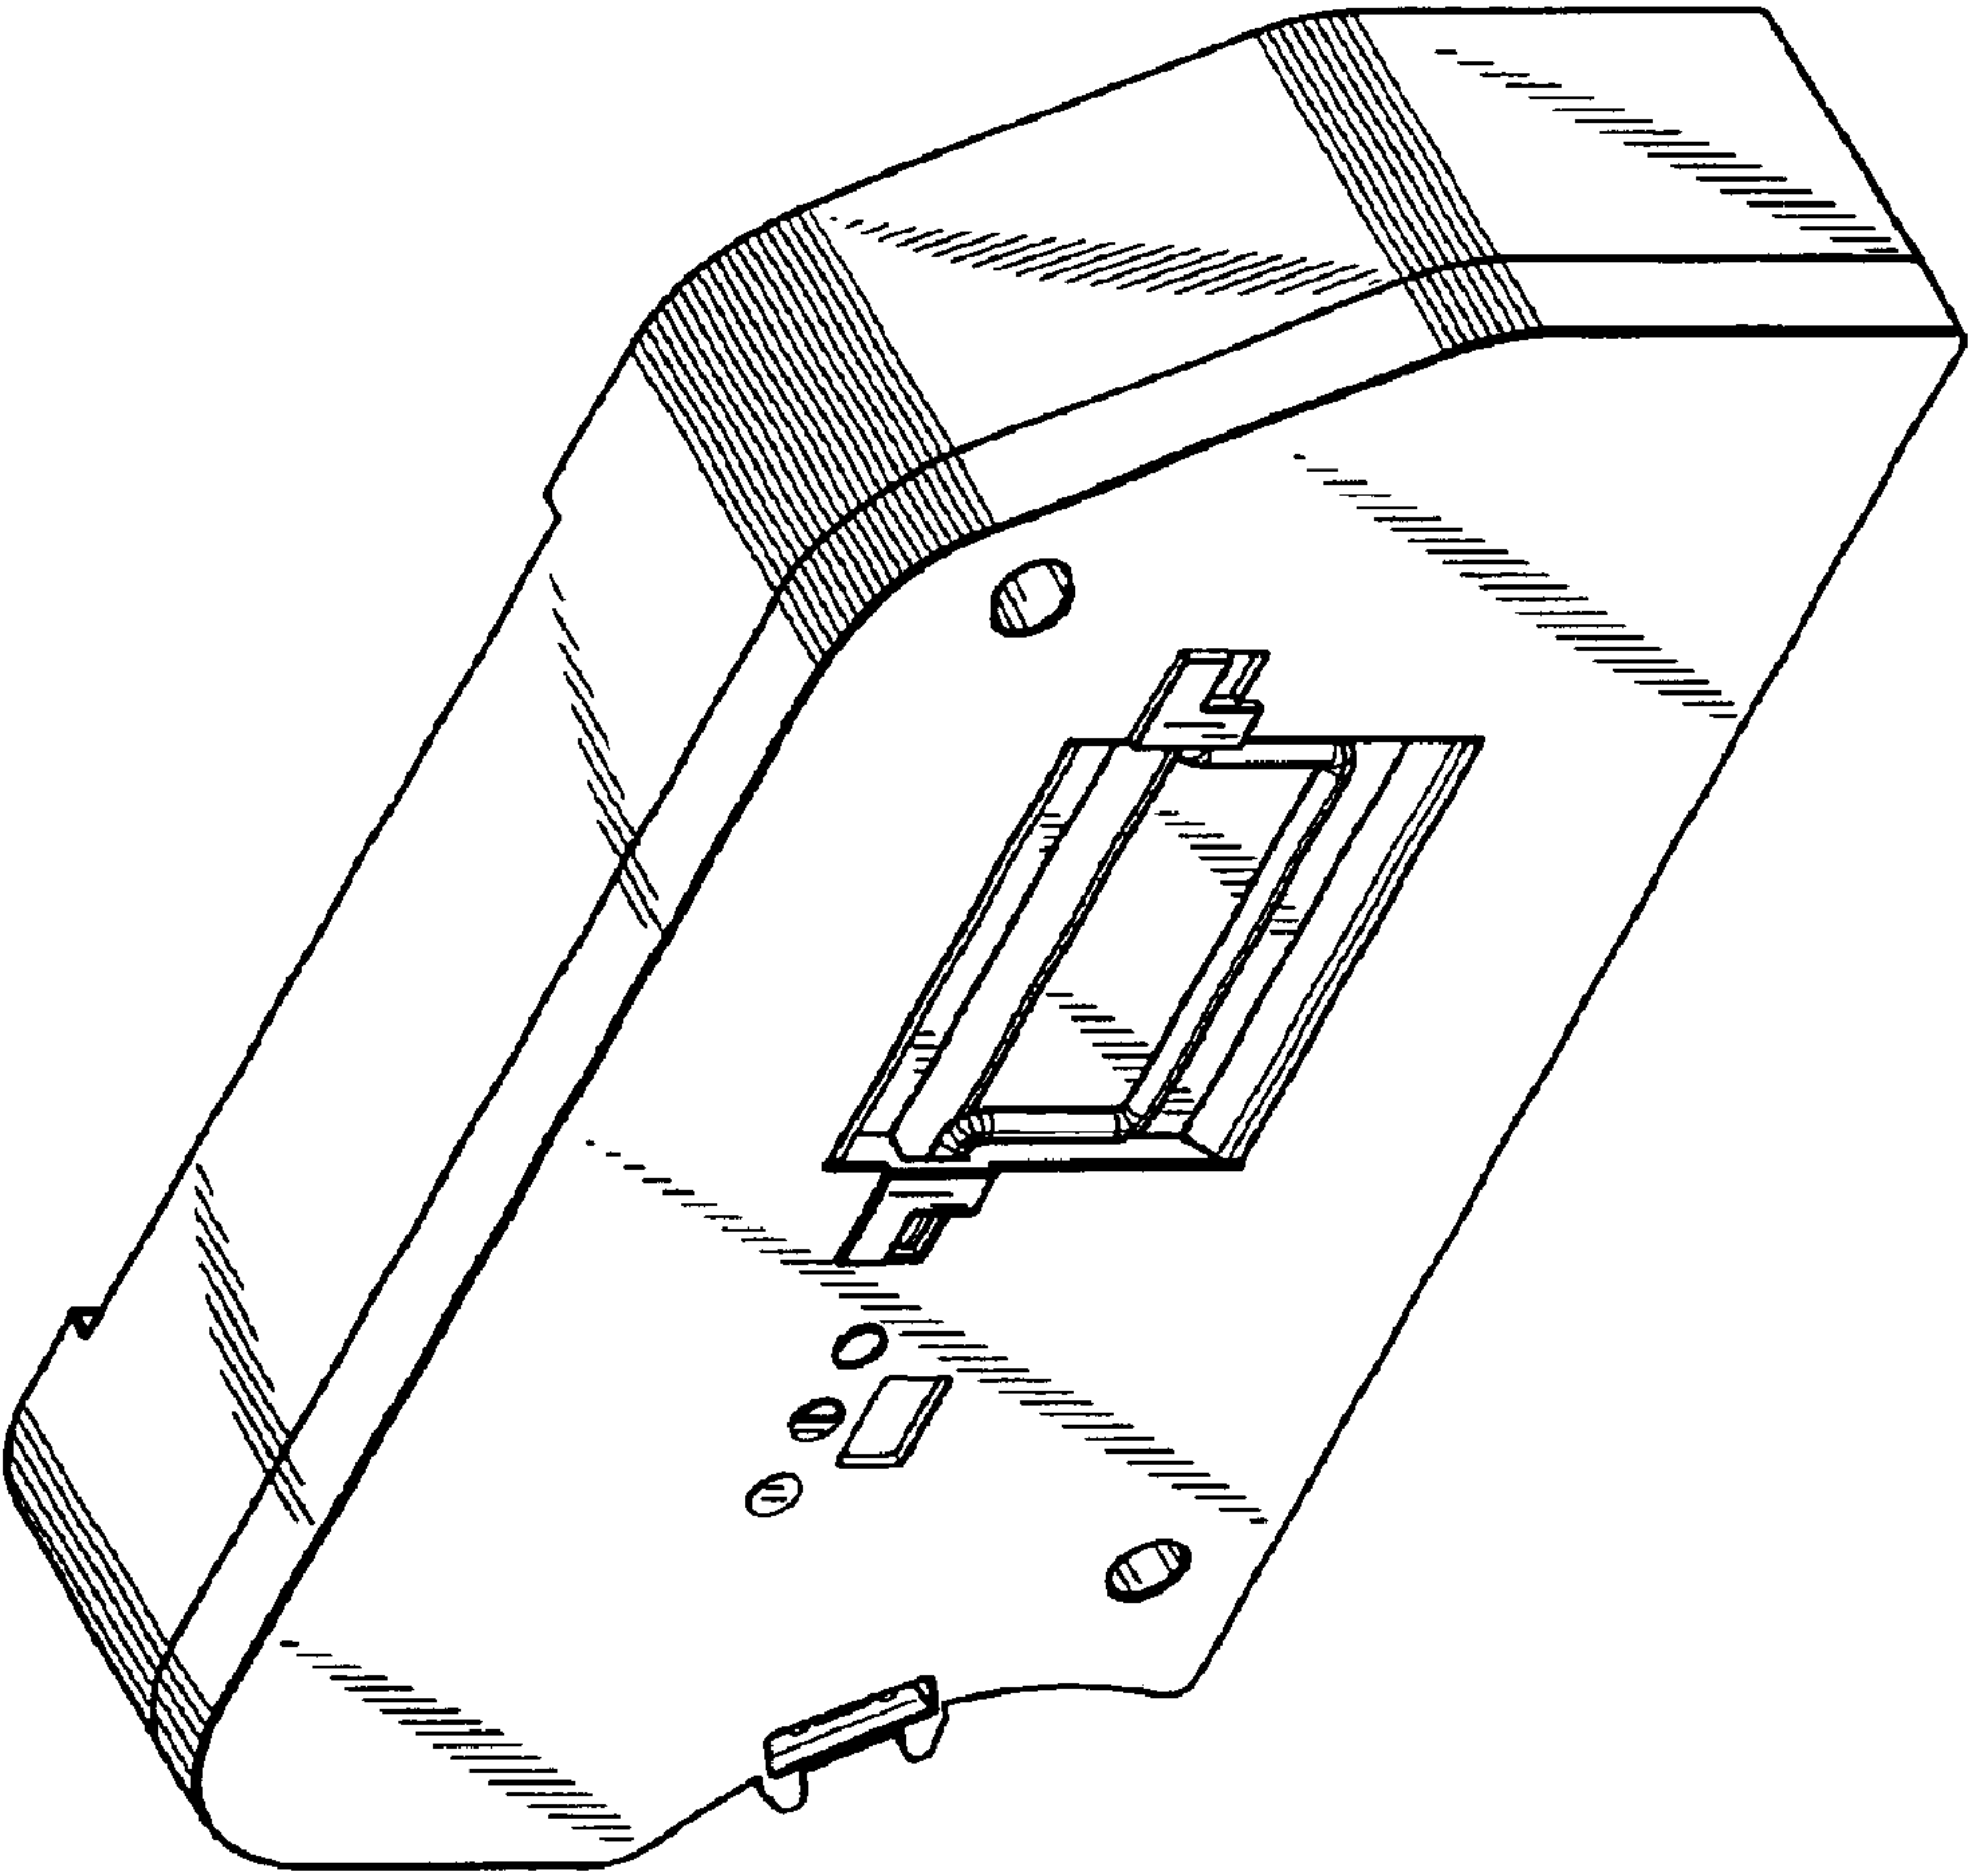

FIG. 1

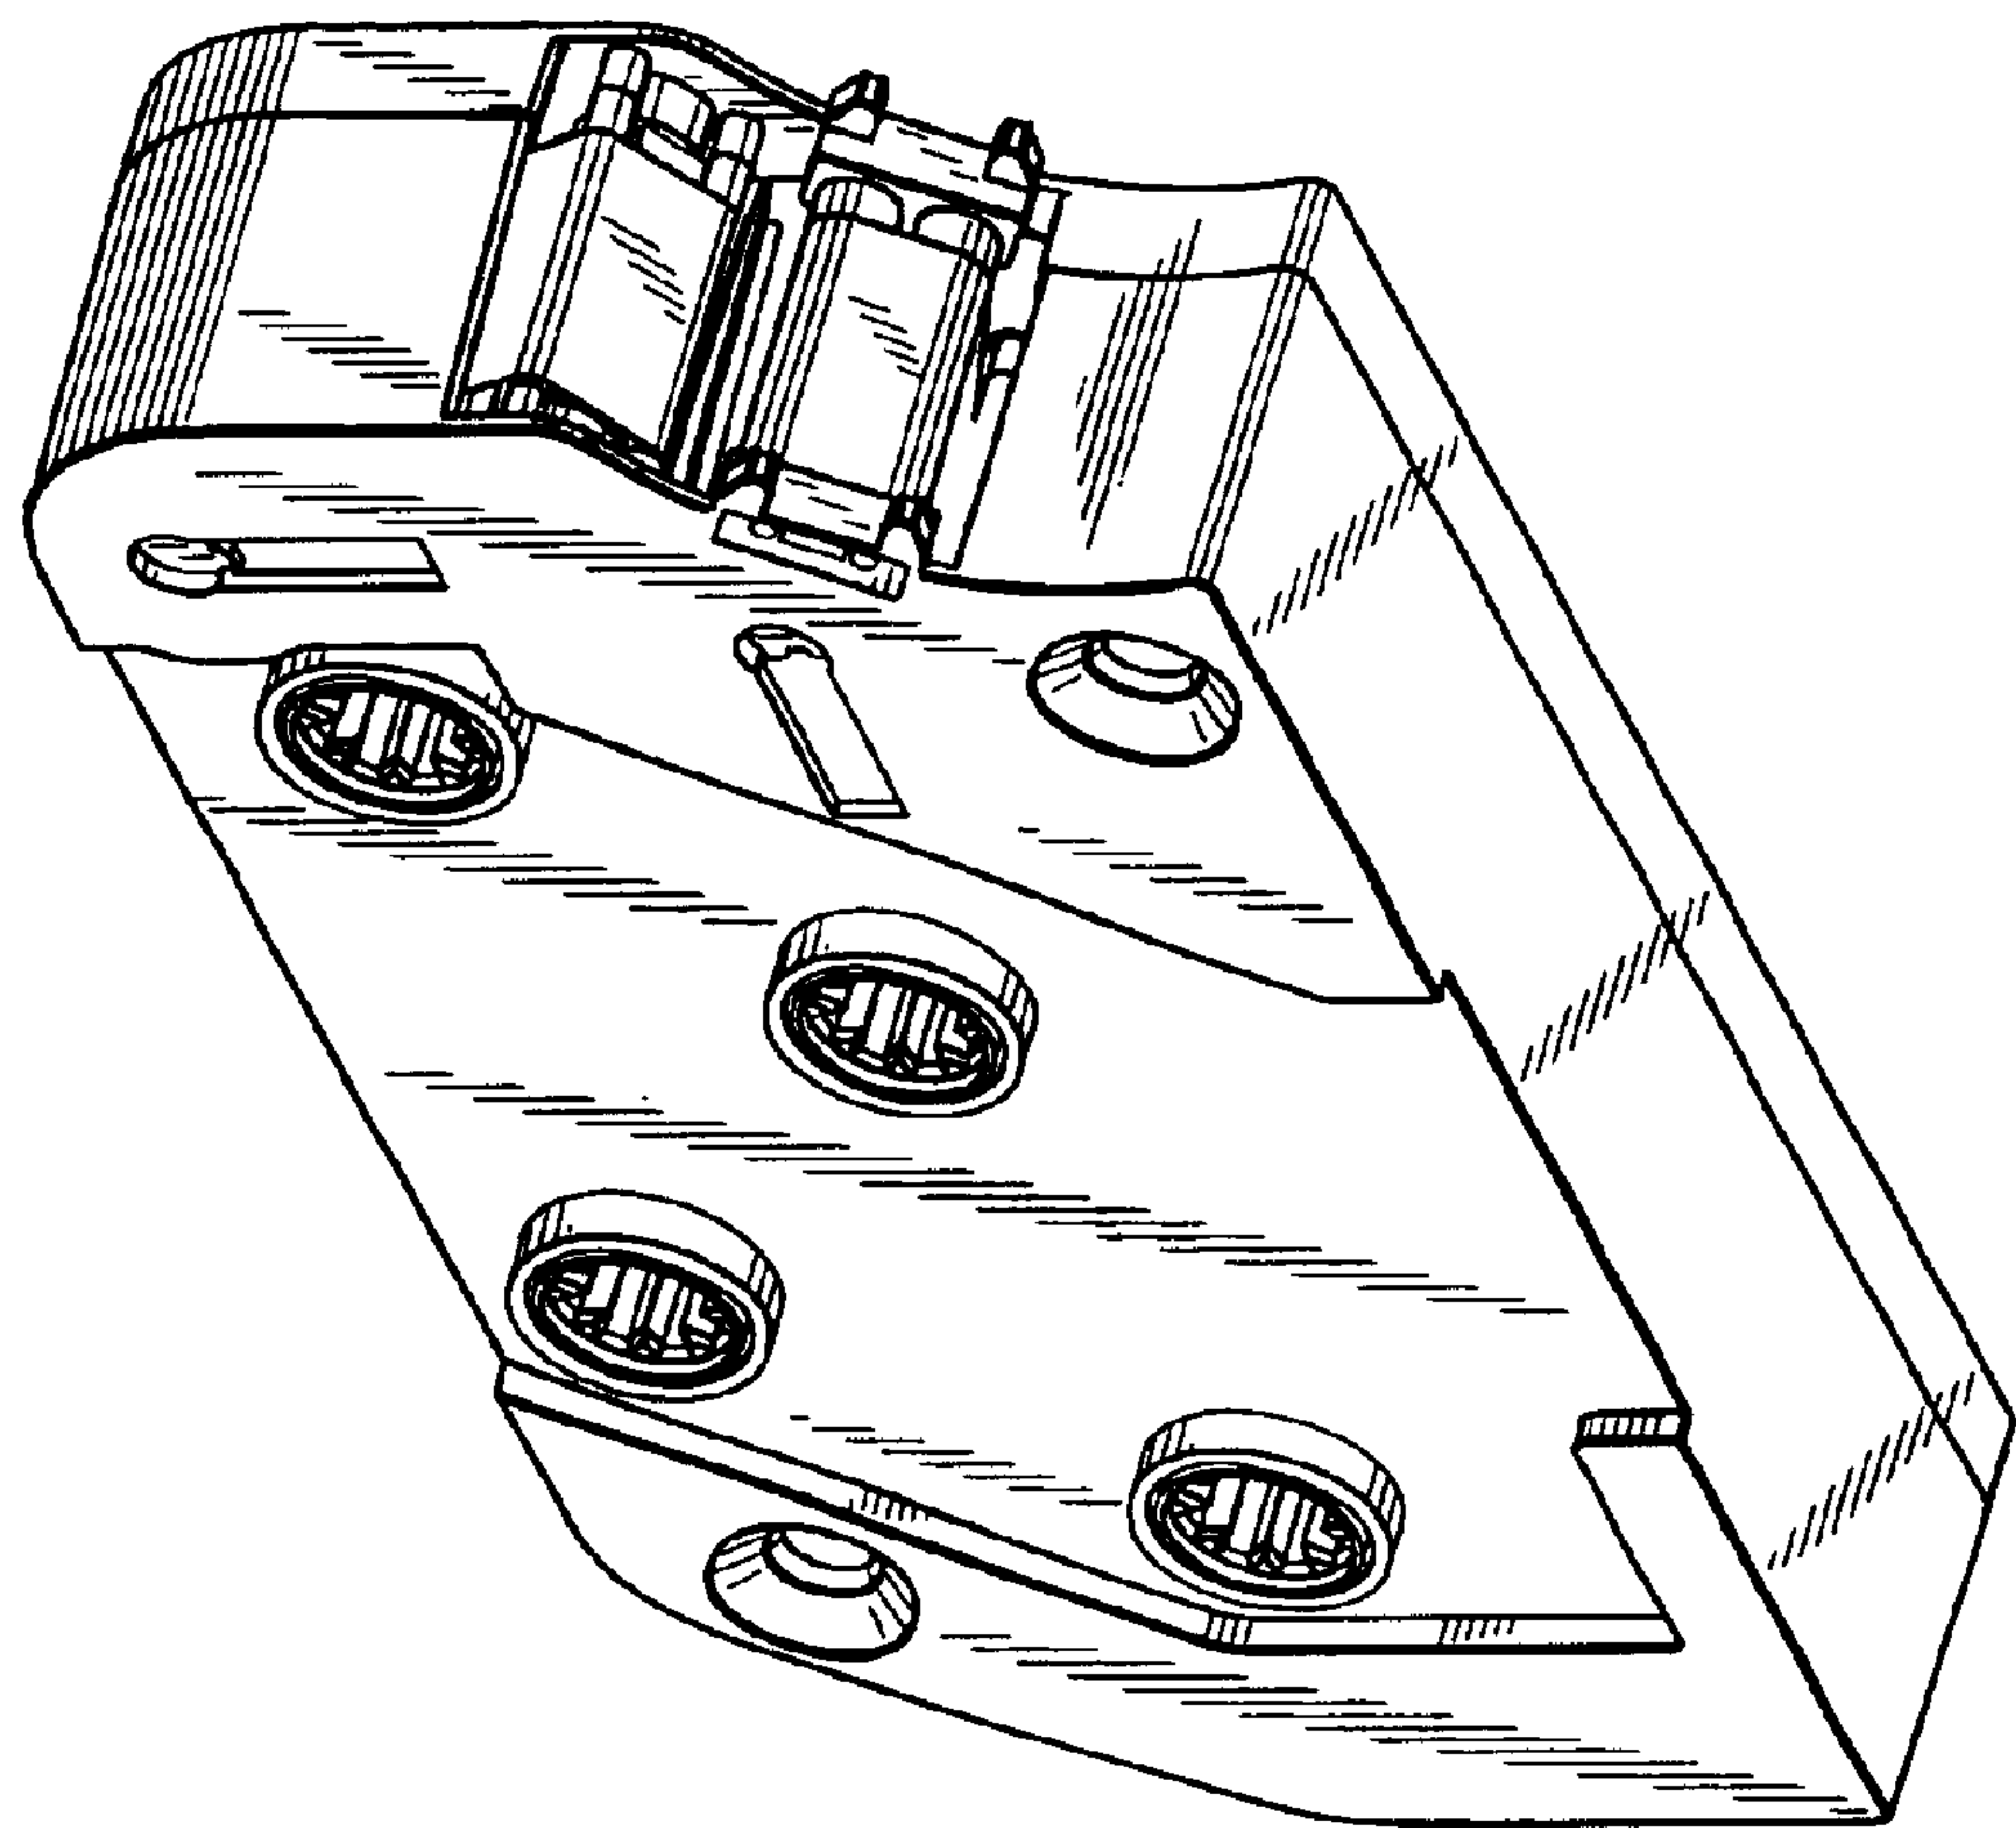

FIG. 2
