(57) **CLAIM**

The ornamental design for a valve handle, as shown and
described.

DESCRIPTION

FIG. 1 is a top perspective view of the valve handle
according to a first embodiment of the present invention;

FIG. 2 is a bottom perspective view of the valve handle
according to the first embodiment of the present invention;

FIG. 3 is a front elevation view of the valve handle accord-
ing to the first embodiment of the present invention;

FIG. 4 is a left elevation view of the valve handle according
to the first embodiment of the present invention;

FIG. 5 is a top view of the valve handle according to the first
embodiment of the present invention;

FIG. 6 is a top perspective view of the valve handle
according to a second embodiment of the present invention;

FIG. 7 is a bottom perspective view of the valve handle
according to the second embodiment of the present inven-
tion,

FIG. 8 is a front elevation view of the valve handle accord-
ing to the second embodiment of the present invention;

FIG. 9 is a left elevation view of the valve handle according
to the second embodiment of the present invention; and,

FIG. 10 is a top view of the valve handle according to the
second embodiment of the present invention.
